BANK POLICY

"Banks which followed a conservative loan policy during 1928 and 1929 helped their customers avoid unnecessary hardship in the subsequent period of general contraction. Thru this policy these banks conserved their strength in preparation for meeting the need for sound loans when this should be created by revived business has they performed a double service to their customers and their community"—Condensed from Irving Trust Co ad in N. Y. Evening Post.

CODES BEING APPROVED

It is now expected that the New Year will see the approval of all the industrial codes. That will mean that the National Recovery Administration has completed its first great task. At this writing, 59 codes, covering the basic industries, have been approved. One-hundred-thirty-seven are being revised. Forty-seven are scheduled for early hearings. By the time this is read the retail code, which was one of the most difficult, will have been approved unless an unlooked-for problem crops up. Most interesting feature of this code is that it will eliminate selling at less than inventory cost, a practice which has been prevalent, especially among large stores, which advertise "leaders" at less than cost in the hope that customers buying them will buy other goods on which a profit is made. Very small stores, in towns of bottom-bracket population will be immune to code provisions.

One important NRA problem is going to be the attitude of the press. Here's where the recovery administration made a possibly far-reaching mistake. When General Johnson excluded two reporters from his conference, because he didn't like what they had been writing about NRA, he was doing the unprecedented. Then he put his foot in deeper by advocating a licensing system for papers, and just about every metropolitan editor in the country can for his typewriter. On top of that, an NRA representative in the South called on the editor of a medium-sized paper, told him that if he didn't stop making unfriendly comment on NRA labor provisions he'd find himself in trouble. The editor spoke up in his paper and found the whole press, including the most zealous supporters of the Roosevelt program, behind him. This threatened press censorship is vitally important, and sparks are going to fly when it really comes to a head.

General belief is that Mr. Roose-

velt is heartily in favor of a free press—that his mistake is in not holding tight enough rein on some of his assistants.

A DANGER SPOT IN THE COMMUNITY

There is an interesting editorial in a recent issue of the Tri-State Tribune, Picher, Oklahoma.

It talks about a matter which rarely concerns the mind of the average citizen—the fire hose which is so important to the protection of the property and lives of himself and his neighbors. Just before the editorial was written there was a fire which threatened the entire business section of the city. The fire department did excellent work—but it was seriously hampered because it had but 600 feet of hose. One hundred feet of this was damaged beyond repair, leaving only 500 feet—one-third as much as it should have—for battling the next blaze that appears.

Poor and inadequate fire hose, broken down and inferior fire engines, poorly trained departments, faulty water supplies—one wonders how many lives and how many dollars these things have consumed. The problem presented is especially timely now—during depression communities have cut fire department appropriations to the bone, leaving the public safety menaced. One need only read the statistics concerning sales of standard fire engines to appreciate this. They have been at an alarmingly low point—thousands of engines which would normally have been replaced or rebuilt are in service today.

Fire department modernization is made possible, along with other public works, in the great federal public works bill. There is no better place to spend money—there is nothing that will bring the taxpayer a greater return for his outlay. This is the time to put the fire department in the best possible shape.

The honeymoon is over when she serves him with hot tongue and cold shoulder.

Don't demand public improvements and lower taxes in the same breath.

Preparation for war is a constant stimulus to suspicion and ill will—James Monroe.

Normally every duty of life brings happiness, and in proportion to its importance; but should never be performed for the sake of happiness.

Original "Blue Streak," or Sharp-Shinned Hawk

The origin of the expression "going a blue streak" is hazy but for a practical demonstration of what the term implies, the sharp-shinned hawk, or little blue darter, can give it. When he spies a broiler, quail or other careless feathered luncheon wandering far from shelter, this real chicken hawk can give a good imitation of Capt. Malcolm Campbell's Blue Bird—but with a square meal in view, not for the purpose of setting world speed records.

One of the speediest hawks, the sharp-shinned, is also regarded by authorities as one of the most destructive to poultry, game and other beneficial birds. Although measuring but 10 to 12 inches in length, with a wing spread of about 22 inches, this little blue darter, says a publication of the United States Department of Agriculture, "is very partial to chickens and often almost exterminates early broods which are allowed to run at large. No birds, from the size of doves, robins and flickers to the smallest warblers and titmice, are safe from its attacks."

The More Game Birds foundation, an organization of nationally known business men and sportsmen, puts the sharp-shinned hawk as the leading wild life gangster. In its booklet, "More Game Birds by Controlling Their Natural Enemies," the foundation declares: "The sharp-shinned hawk is second in its destructive habits only to the Cooper's hawk and goshawk as a game bird enemy and should be controlled at all times."

WINS CALF AWARD

Don Jossy, Rt 2, Portland, was the winner of the purebred Holstein heifer calf awarded by Jacob Luscher & Sons, Fairview, to the 4-H club member making the best showing at the Pacific International Livestock Exposition. Some members of the Holstein Breeders' Association each year has made such an award. In making the award, showing in the ring counts 25%, showmanship 25%, herdsmanship or general care and neatness of stalls 25%, and record book 25%. In this way the work

of the club member counts 75% and stock already owned by him counts only 25%.

Jacob Luscher is the Far Western director of the Holstein Friesian Association of America and has long been a prominent breeder. His stock has a well-earned reputation for quality and the winning of a heifer calf from his herd is a real accomplishment.

In 1931 Don won the heifer calf awarded by Mt. Angel College on a similar contest at the State Fair and won first at the Pacific International this year with this heifer, now past 2 years old. In winning the calf this year Don won first in Holstein showmanship and went on to win the award of Champion Showman, he scored high in both herdsmanship and with his record book, and won two first and one second on his stock in the show ring.

MICKIE SAYS—

"THE HOME TOWN PAPER PLUGS AWAY PER 'TH' GOOD OF 'TH' HOME TOWN,' YEAR AFTER YEAR—IT'S 'THE 'BEST TOWN ON EARTH,' TO HEAR 'TH' EDITOR TELL IT, AND 'TH' FOLKS ARE 'GODS OWN PEOPLE'—HE STICKS BY YOU—DO YOU STICK BY HIM?"

LOCAL NEWS

Mrs. Harry Hayes of Tacoma, Wash., visited last week at the Geo. Brown home. Mrs. Brown's mother, who has been very ill, is slightly improved.

W. W. Peets has moved into the Holboke house on Broadway.

Harris Hansen suffered serious injuries Wednesday, when he was gored by a newly purchased bull.

Miss Ruth Lundgren spent the week end at the home of her parents Mr. and Mrs. John Lundgren. Ruth is a student at the state college.

Mrs. Lynn Gringer (Alice Johnson) accompanied by Mrs. Gringer, Sr., drove up from Tillamook Friday to visit at the C. F. Johnson home. They returned home Tuesday.

Alfred Johnson student of the Monmouth Normal school was home over the week end.

Mrs. E. M. Madsen visited several days last week with her mother Mrs. Brown in Portland.

Mr. and Mrs. D. J. Ward, of Portland, were dinner guests of Mr. and Mrs. Walter VanKleek.

Mrs. M. C. McKecher was a luncheon guest of Mrs. G. A. Gilmore in Portland Tuesday.

Messrs I. R. Metzler, Guy Carr and Francis Livermore were at Lake-Lytle hunting ducks over the week end.

Mrs. Grace Stone, of Port Townsend, Wash., is a house guest at the Evans-Whitworth home. She is recuperating from a recent operation.

Sunday guests of Mrs. Julia Cooper included Mr. and Mrs. Charles Cooper of Portland.

Among those from Beaverton attending the Shrine dance at the Masonic Temple in Portland Tuesday were Mr. and Mrs. Elmer Stipe, Mr. and Mrs. R. R. Summers and Mrs. Walter Scott.

Mrs. Asahor, of Hillsboro, is spending several days with her daughter Mrs. B. K. Denney.

Miss Frances Gothard of Redmond, Oregon, visited with friends in Beaverton part of this week.

Mrs. Geo. Wase was able to return home this week from the hospital, where she has been confined for a week.

Mr. and Mrs. Essex Marsh and Mr. and Mrs. C. J. Bielmann spent from Thursday to Monday evening in southern Oregon on a bear hunt. The party failed in their efforts to bag a bear.

Mr. and Mrs. Wm. Van Stiphout and children, of Longview, Wash., were visitors Wednesday at the home of her parents Mr. and Mrs. C. J. Beach.

Miss Helen Tefft is visiting relatives in Hood River this week.

Mrs. M. C. McKecher was entertained with a dinner at the home of Mrs. W. O. Roberts Monday. Guests included Mesdames W. Gorham, Chas. Jacka and F. M. Lassiter.

Mr. and Mrs. A. C. Chinn were hosts at dinner Sunday in honor of their son Gerald's birthday anniversary. Mr. and Mrs. R. L. Doolittle and daughter Ruth and son Edwin of Vancouver were guests.

Mrs. A. E. Hansen entertained the Tuesday Afternoon Bridge club at her home Tuesday. Mrs. Haines, Mrs. H. R. Nelson, Miss Juliette Carter and Mrs. Guy McCormac were guests. Mrs. F. G. Donaldson held high scores. Mr. and Mrs. W. C. McKell, Mrs. George Haines and Miss Juliette Carter motored to Taft Sunday returning by the Salmonberry cutoff.

Mr. and Mrs. Walter Scott and daughters spent Sunday at the beach. Mrs. Ladd Jacobs of Long Beach, Cal., is visiting her sister Mrs. Frank Rossi for a few weeks. She was accompanied by her two sons Robert and Lee.

Mrs. A. B. Clement, Dorothy Bonner, and Raymond Rossi drove to Longview Wash., Monday to visit with Malcolm Clements, who is employed on the steamer Marcos.

Mr. and Mrs. Doty have moved from the H. R. Nelson place to the Workman house.

A marriage license has been issued to Joseph V. Casale of Beaverton and Jennie Spada of Portland. Sunday guests at the F. S. Felscher home included Mr. and Mrs. Carl Hansen and family. During the afternoon Mr. and Mrs. Archie Williams called, remaining for the evening.

Mrs. A. H. Engleke and Mrs. L. W. Allyn spent Friday afternoon at the home of Mrs. Cushman in Portland. Mrs. Cushman will be remembered as Miss Lillian Findley, a graduate of the local high school.

Bert Stump, of San Francisco, formerly of this place, visited Sunday with Roy Martin.

Mrs. Guy McCormac entertained the Friendship Bridge club at her home at Garden Home Wednesday afternoon. Guests of the club were Mrs. F. G. Donaldson, and Mrs. W. C. McKell. High score was held by Mrs. Donaldson, while Mrs. H. R. Nelson held the low.

Roy Martin left Wednesday for San Francisco, where he will enter the hospital for treatment.

Mr. and Mrs. A. M. Davis, of Netarts, visited Saturday at the Walter Van Kleek home. They also called on other friends and relatives before returning home.

Mr. and Mrs. Dewey Drorbraugh were pleasantly surprised last Saturday night by a group of friends from Portland. The evening was spent playing cards after which refreshments were served at a late hour.

Dewey The Plumber is finishing the plumbing at the T. B. Harris home. They are remodeling the house and replacing new plumbing and fixtures.

SCHOOL DAYS

DIGGER DAMAGE TO SPUDS QUICKLY DESTROYS PROFIT

Slicing potatoes with a digger run too shallow in eastern Oregon and stabbing them with the digger forks in western Oregon are two of the most certain ways to eliminate profit after one has raised a good crop of spuds, says E. R. Jackman, extension crops specialist at Oregon State college, in a discussion of potato digging and storage methods.

It is surprising how fast what appears to be incidental damage counts up, Jackman says. Slicing or stabbing five per cent of the potatoes is not uncommon—this number of damaged ones do not show up very much in the row.

"If three acres a day are dug and the crop averages 150 sacks per acre, slicing or stabbing 5 per cent would result in ruining 22½ sacks a day," Jackman points out. "Far better hire a couple extra horses for the digger, or pay the chronic stabber to quit working than to let such a loss go on."

One method of harvest injury not often thought about is picking up the potatoes when they are newly dug and tender. The safest plan is to always have the digger an hour ahead of the picker, says Jackman. If potatoes are allowed to lay out in the open for an hour, particularly if there is some sun and wind, the skin hardens so that damage in handling is reduced to a minimum.

The American National Red Cross administered relief to sufferers in 120 disasters during the past year. Disaster relief expenditures alone totaled \$1,777,000. The Red Cross needs your membership today.

NEW RADIAL BRICKS MADE

The Sylvan Brick Company, located at Sylvan on the old Canyon Road, has recently come out with a new type of radial brick for use in the construction of septic tanks, cisterns, cesspools and well curbing.

These radial bricks are manufactured of hard-burned clay and of a special design so that they easily form a circular wall and may be laid in mortar where a tight wall is desired, or without mortar where an open wall is preferred. Because of the ease with which these radial brick may be laid, it is claimed that they are less expensive in construction than any other kind of masonry material.

The Sylvan Brick Company has built a demonstration septic tank at their office at the factory and would be pleased to have those who are interested in having work of this nature done, call for information.

A restaurant owner tells us that many of his feminine customers guzzle their steins through a straw.

LEGAL NOTICES

NOTICE OF SHERIFF'S SALE

On the 4th day of December, 1933, at the hour of ten o'clock a. m. at the east door of the Court House in Hillsboro Washington, Oregon, I will sell at auction to the highest bidder for cash the following described real property located in Washington County, Oregon, to-wit:

Beginning at the northwest corner of lot 5, Clements subdivision, in section 15, township south, range 1 west, Willamette meridian, being a part of the Samuel G. Stott D. L. C. No. 48; thence southerly along the center of the county road No. 68, also known as Van Ness Avenue, a distance of 150 feet, to a point on the west line of lot No. 5, said point being the point of beginning of the tract herein described; thence southerly along the center of said county road No. 68, also known as Van Ness Avenue, a distance of 70 feet to a point on the west line of said lot No. 5; thence easterly and at right angles and parallel of the southerly line of said lot No. 5, a distance of 225 feet, thence northerly and at right angles and parallel to the west line of said lot No. 5, a distance of 70 feet, thence easterly (which if corrected, should be and read westerly) and parallel to the north line of said lot No. 5, a distance of 225 feet to the place of beginning containing 1-3 of an acre more or less as shown by the records of said county and state.

Said sale is made under execution issued out of the Circuit Court of the State of Oregon for the County of Washington to me directed in the case of Hattie Pitt, Plaintiff, vs Frank J. Dietsch and Ruth B. Dietsch his wife, A. M. Fell and Jane Doe Fell, his wife, Defendants.
