This year, with every citizen vitally conscious of playing his part in the great drama of recovery, with every resource of the nation actively dispelling the gloom of depression, we have more reason to be thankful than at any time during the past three or four years. We've rounded the much talked of corner, and the road is clear.

With recovery in view, this Thanksgiving will not be the hollow, forced effort at gratitude for doubtful blessings it may have been in the past few years. It will not be a "Beau Geste" borne bravely on the shoulders of a people famous for undying hope and courageous fortitude. It will

be, as it should be, more spontaneous and whole-hearted than any Thanksgiving since the World War.

Just as our forefathers felt called upon to pause in their activities and give thanks, grateful for their survival of that first "gloomy time" and stores supplied by Nature for the winter that lay ahead, let us celebrate this Thanksgiving with genuine gratitude, thankful that we too have been active, meeting conditions as they are, and have arrived at a time when the future presents a definitely brighter aspect.....

Our interest in the welfare of this community prompts us to sponsor this message to the people of the Tualatin Valley
