Wake Up Your Liver Bile
—Without Calomel

And You'll Jump Out of Bed in the Morning And You'll Go
If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.
For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

Follow the Most Fascinating Profession in the World
WIN SOCIAL SUCCESS & FINANCIAL FAME
USE THE UNIVERSAL'S POWER

Did you ever try to imagine a world without numbers?
When we write I, II, III, V, X, etc., we say those are Roman Numerals. When we write 1, 2, 3, 8, etc., we say that we write Arabic Numerals.
But numbers are really symbols and long before the time of the Arabians, long before the era of Rome, back in the mists of Chaldean traditions, those symbols were in use.
Through numbers, we have a concise and definite way of interpreting our lives. Every individual has a Birth path (birth date). To tell his destiny or birth path, we must know the date of birth, as January 5, 1900. Every person has a name. For our purpose it is best to give the original name in full as given at birth (Mary Josephine Brown) the name by which one is commonly known at present, as example Mrs. Mary J. Roger Brown. If you will write your name and date, day, month and year of your birth on a slip of paper, I will give you a name analysis through the weekly paper that no one but myself and you will know your identity. If you would like to know the principle of significance of numbers in a short, easily understood form, so that you can work out your own name and that of your friends, as well as the birthpath, lucky days, etc., be sure that you do not miss any of the future editions of this paper. You will find it a pastime which will be as stimulating as crossword puzzles, as lasting as jigsaw puzzles and in addition will give you an astonishing insight into your friends character as well as your own. In fact I recommend it as the most fascinating profession in the world, from an educational standpoint, or it may be made of real interest as an entertainment at your social gatherings, or it may be carried to higher realization to a commercial endeavor and financial success.

FOR THE CHRISTMAS COOKIE JAR

The well-filled cookie jar containing delicious home-made butter cookies, kept fresh from one baking day to the next and always available to a hungry family, is a tradition of earlier days which is returning to us again. The pleasure of making and serving cookies with a delicate individual touch more than compensates for the effort it takes. Home-made cookies add distinction to even the simplest home meal or school lunch. They give character and individuality to the tea table. When different varieties are daintily packed they make an unusual and charming Christmas gift.

Practically all cookies, no matter how elaborate the finished product, can be developed from a simple basic recipe. The ingredients of this basic recipe are of prime importance in determining the flavor and food value of all of the cookies evolved from it. Cookies, for example, made with butter have a distinctive taste and nutritive quality which can not be obtained in any other way.
Some delicious holiday cookie recipes are:

GLOWING HEAT
is what your furnace needs

Here's a modern fuel — ideal for your present furnace — that gives a glowing heat and leaves no ashes or clinkers at all. Gasco Briquets burn s-l-o-w-l-y and thoroughly with the drafts completely closed.

With these briquets, unlike any other solid fuel, your furnace requires attention only morning and evening. Yet they keep your house at a constantly even temperature you would never think possible without special equipment of some kind.

Gasco Briquets will save you money too! When you buy them, you're buying nothing but heat—absolutely no waste.

1. Gasco Briquets are a 100% petroleum fuel, ideal for furnace, fireplace or stove.
2. They have the highest heat content of any solid fuel.
3. They require no banking or shaking, and they hold fire all day or night.
4. They leave no ashes or clinkers to carry out.
5. One ton of Briquets gives as much heat as two cords of first-growth fir; costs less per season than best Utah and Wyoming coal.
