## HOW WOMEN CAN WIN MEN AND MEN WIN

### The Favor of Other Men

Unless two pints of bile juice flow daily from your liver into your bowels, your food decays in your bowels. This poisons your whole body. Movements get hard and you get constipated. You get yellow tongue, yellow skin, pimples, dull eyes, bad breath, bad taste, gas, dizziness, headache. You have become an ugly-looking, foul-smelling, sour-thinking person. You have lost your personal charm. Everybody wants to run from you.

But don't take salts, mineral waters, oils, laxative pills, laxative candies or chewing gums and expect them to get rid of this poison that destroys your personal charm. They can't do it, for they only move out the tail end of your bowels and that doesn't take away enough of the decayed poison. Cosmetics won't help at all.

Only a free flow of your bile juice will stop this decay poison in your bowels. The one mild vegetable medicine which starts a free flow of your bile juice is Carter's Little Liver Pills. No calomel (mercury) in Carter's. Only fine, mild vegetable extracts. If you would bring back your personal charm to win men, start taking Carter's Little Liver Pills according to directions today. 25c at drug stores.

Refuse "something just as good". For 5 may grip, loosen teeth or scald rectum. Ask for Carter's Little Liver Pills by name and get what you ask for. © 1933, C. M. Co.

### LEGAL NOTICES

#### NOTICE OF SHERIFF'S SALE ON FORECLOSURE

NOTICE IS HEREBY GIVEN that by virtue of an Execution, Decree, and Order of Sale issued out of and under the seal of the Circuit Court of the State of Oregon for Washington County, on the 8th day of March, 1934, upon a Judgment and Decree made and entered therein on the 8th day of March, 1934, in favor of H. A. Kuratli and J. J. Wismer, plaintiffs therein and against Gust Richardson, Sylvia Richardson and Laura B. Morgan defendants, wherein a Judgment was rendered in favor of plaintiffs, H. A. Kuratli and J. J. Wismer against said defendant Gust Richardson for the sum of \$100.00 with interest thereon at the rate of eight per cent per annum since July 23, 1931 and the further sum of \$50.00 attorney's fees and a judgment was rendered in favor of plaintiffs, H. A. Kuratli and J. J. Wismer against the defendants, Gust Richardson and Sylvia Richardson for the sum of \$140.50 with interest thereon at the rate of 7% per annum since September 4, 1931 and the further sum of \$50.00 attorney's fees and for plaintiffs' costs and disbursements therein taxed at \$17.60 to me directed and delivered I have levied upon, and pursuant to the commands of said Execution Judgment, Decree and Order of Sale, I will on Wednesday the 11th day of April, 1934, at the hour of ten o'clock A. M. of said day, at the East or Front Door of the County Court House in City of Hillsboro, Washington County, Oregon, sell at public auction to the highest bidder for cash in hand all the right, title, interest and claim which said defendants Gust Richardson, Sylvia

The Messrs Wm. F. Campbell, James Campbell, E. D. Hite and H. Hudson were Hillsboro visitors Wednesday.

Mr. and Mrs. N. P. Nielsen of Ti-

gard visited her parents, Mr. and Mrs. J. L. Haggerty Sunday.

### Ducks Damaging Pastures

**TILLAMOOK**—Ducks are reported flying in by thousands and grazing off the tideland pastures of Tillamook county, covering from 20 to 30 acres per farm in some cases. County Agent C. H. Bergstrom recently took this matter up with the state game warden, and efforts are being made to obtain assistance from the federal department in controlling this damage.

## STRANGE TALE BACK OF NEW GASOLINE

Top photograph shows delivery of the formula of General Mobilgas and a sealed gallon of the fuel to General Petroleum Corporation by officials of the Railway Express Agency. Center test car at Moose Factory, Canada; Bottom another test car in the inferno of Death Valley.

Launching of the General Petroleum Corporation 1934 sales campaign in conjunction with the introduction of its new product General Mobilgas, brings to light the curious fact that for the first time on record a gallon of gasoline has been shipped from New York to Los Angeles as closely guarded as though it were gold, platinum or precious stones. In fact Railway Express Agency, in charge of it, classed it under the heading of large value shipments, bullion, etc. Vigilance was not relaxed even when it reached the west coast for there it was transported by armored car to General Petroleum headquarters.

The shipment arrived in Los Angeles shortly after the famous Torture Test cars which have been familiar on the Pacific Coast for several weeks past. The cars had just completed a transcontinental run without radiators the last of a long series of grinding tests made over the past three years which has resulted in the discovery of a secret formula from which has been produced the treasured gallon of gasoline. It has been sent from the New York headquarters of the Socony-Vacuum company, of which General is the Pacific Coast affiliate, and no chances were allowed to be taken on either the formula or the new fuel sample going astray.

### Tells Aims

The entire episode, as well as the introduction of General Mobilgas to the Pacific Coast motorist, was the outgrowth of one of the most interesting stories in the history of the petroleum industry, according to A. H. DeFries, vice-president in charge of sales for General Petroleum Corporation.

"Some years ago," he said, "General scientists together with those of the entire Socony group, decided to do what had never been done before, produce a perfect gasoline; one that would give utmost power, mileage, acceleration, freedom from knocks, and vapor lock, under all climatic and atmospheric conditions. All gasoline had some of these qualities, none had all of them.

Tests never previously attempted were decided upon. The entire North American continent was chosen as a laboratory. The scientists idea was to literally torture test gasoline, break them down and show up their weaknesses under climatic and deiving extremes. So cars were equipped with caterpillar treads and sent into the arctic snows of Moore Factory, northern Canada, where an automobile had never been before. Others were sent south through mud, snow and sleet to the tropic heat of southern Mexico. Still others went to Death Valley 800 feet below sea level where in almost unbearable temperature they travelled the burning sands night and day, often without radiators. After that the Death Valley cars were driven from America's lowest point to its highest, up the slopes of Mount Whitney to an altitude never before reached by automobiles. And finally two cars were driven from New York to Los Angeles and up and down the Pacific Coast without radiators or cooling systems."

Out of these tests, DeFries declared has come General Mobilgas, a motor fuel which, judging by the first few days sales, General officials anticipate will result in the heaviest increase in business in any year of the Company's history.
