DARROWS REPORT

RAISES DISCUSSION

The Darrow report on NRA codes has been received with wide divergence of opinion. Opponents of the Administration have been saying that it is the final straw, that it will blow the roof off the recovery program and show it up completely. That isn't true. Defenders of the Administration have been trying to laugh the report off, saying that it doesn't mean a thing, is of no importance whatsoever. That isn't true either.

One thing the Darrow report has done is to concentrate interest on a problem that has been looming larger and larger of late—the influence of the codes on small units within an industry; little stores, little manufacturing plants, little distributors of all kinds of commodities. The report says, briefly, that the codes threaten the small business with extinction, give big business all the breaks, and that monopolies are growing in strength by leaps and bounds. All but one member of the consumers' commission which Mr. Darrow headed, agreed with that. Then Mr. Darrow and one other member filed a separate report, even more sensational than the main report. In it Mr. Darrow says that we have a choice between fascism and socialism—that the suspension of such public safeguards as the anti-trust laws are inimical to the interest of the consumer and the average businessman. Mr. Darrow's personal opinion is that there should be government ownership of basic resources; he has always tended strongly to the socialist viewpoint.

General Johnson made the expected answer—said that the Darrow board should be disbanded (it was due to automatically expire within two weeks); that the Darrow criticism was carping and unjust. Much more convincing was the answer of the NRA Chief Counsel Richberg, who pointed out that Mr. Darrow had kept to generalizations, had cited few specific items of abuses, and had offered nothing that could be called constructive criticism.

The effect of the report will doubtless be to hasten revision of the NRA set-up, particularly in the matter of code price-fixing. It is known that Mr. Roosevelt has been studying changes for some time. Some observers likewise believe that General Johnson is due for oblivion—he is energetic, capable, courageous, but has offended too many people, including big-shot newspapermen whose friendliness the Administration needs.

THE GUARANTEE OF DEMOCRACY

"The freedom of the press is the sole hope of freedom for the people. A dictatorship cannot endure a free press, for with one it cannot maintain itself continuously. A dictatorship—be it Communist, Fascist, or Nazi—always puts the press under its heel. Then the people know nothing because they can hear only what the dictator chooses to let them. A free press is the sole guarantee of a free democracy." — San Francisco Chronicle.

It is beginning to look as if nobody in this country will be satisfied until everybody gets more than everybody else.

A court of justice is a place where a fellow gives a lawyer \$50,000 to keep his own wife from robbing him.

Far from thinking that he knows it all the educated man realizes that he hasn't even heard of most of the important truths of existence.

It's about time for the neighbor to let his chickens graze in your garden, borrow your lawn mower, fishing tackle, and hip-boots and then have not butter to spare when your toast is hot and ready to eat.

The members of the Stock Exchange, as we gather it, buy and sell and make millions while other citizens who produce and sell go into debt. Is there any wonder that the Stock Exchange needs regulating.

CORRESPONDENCE

(Too Late for Last week's issue)

To the Editor
 Pioneer Publishing Company
 Beaverton, Oregon
 Dear Sir:

For the past few months rumors have circulated quite generally in this county to the effect that certain members of the Washington County Relief Committee have been guilty of the imbezzlement of sums of money from the C. W. A. and or Relief Funds, and of surplus commodities furnished by the Federal Government. The committee has never desired to dignify these rumors by stooping to a denial. However, they have now become general, and those who were instrumental in instigating them have started the time-worn cry that the charges must be true or they would be denied, and in justice to the friends of the committee and to the state officers and the Federal officials to whom we owe our appointment and upon whom discredit is cast by these aspersions the Committee desires to publicly deny these utterly ridiculous statements. The entire committee joins in this statement and denial for although the charges are directed at specifically named committee members yet discredit is cast on all the members thereof, for such charges impute to the entire personnel of the committee either gross ignorance of the committee's affairs, a wilful disregard of their duty, or participation in the alleged misappropriation.

The absurdity of these charges would be apparent to any one who would care to make an investigation. Such an investigation would disclose the fact that the C. W. A. and Relief Funds have been, and now are, distributed directly and entirely from Portland by check to the various merchants holding relief requisitions, and in the case of the C. W. A. directly to the workers. The government commodities are sent to this county in specified inventoried amounts and a verified order for each amount distributed must be returned to the Portland office the total of which must equal the amount originally sent to this county. The only fund handled by the local committee is a petty cash fund for postage and other incidental expenses which must be, and has been, accounted for strictly to the Portland office.

These charges or accusations, if they were true, would involve a violation of the criminal laws of the State of Oregon. The Grand Jury meets in this County on the first Thursday of each month in the Grand Jury Room on the third floor of the County Court House. It is comprised of citizens of this County who are free from bias prejudice or political pressure. If there is any individual or groups of individuals, in this county who have any reason to believe these stories it is their duty to take these stories directly to the Grand Jury. They need not go to the District Attorney or to any official to obtain this permission.

These charges would also, if true, involve the embezzlement and misappropriation of money and funds of the Federal Government and as such would constitute a violation of the Federal Laws. If any individual would contend that the Washington County Grand Jury is dominated by the Relief Committee it is suggested that he attend the regular session of the Federal Grand Jury held each month in the Federal Building in Portland, Oregon, which grand jury is comprised of citizens drawn from the entire district of Oregon, and to make his complaint to that body.

The funds and property being distributed by this committee are your funds and property insofar as they are furnished by your Government. It is your duty to report any misappropriation or misuse of these funds, that may come to our knowledge. The committee invites and solicits such action.

the members of this committee, who are serving you gratuitously in what has been a very arduous task, is their personal property. To destroy and malign the reputation and character of any member of this committee without foundation is as much a crime as it would be for a member of the committee to dissipate these funds. It is the suggestion of the committee to the people of this county, that upon hearing these rumors that they ascertain whether or not the circulation has presented the charge to the proper law enforcement officers, and if not, if he himself realizes the seriousness of the offense which he commits by the repetition of such accusations.

Better Butter is Aim of State Dairy Drive

A cream and butter improvement campaign, using the slogan, "Let's make a good product better" is now being waged in all sections of Oregon in a series of evening meetings for dairymen, cream and butter grading schools for buttermakers and strict state inspection of all creameries. Local meetings under the direction of County Agent Cyrus have been scheduled for this county in an effort to acquaint every butterfat producer with the importance of better cream for better butter as a means of increasing consumption.

"While the quality of Oregon butter has improved greatly within the past few years and is superior to that of many states, there is always opportunity for some improvement and this nation-wide drive is expected to so improve the quality of butter that the natural consumption of butter will be increased," reports Dr. G. H. Wilster, Dairy Department of Oregon State College.

The nation-wide campaign will replace the dairy production control plan recently rejected by American dairy farmers as a means of reducing the surplus of butterfat by making such a superior product that the average consumer will eat more. The average Oregonian, according to figures compiled by the Oregon Dairy Council, eats a trifle over twenty pounds of butter each year while people in Canada consume over thirty pounds. Part of this difference is due to better quality and part to the restrictions on butter substitutes. Recent passage of a national tax of three cents a pound on imported vegetable fats is expected to show in an increased price of substitute products and an increased demand for butter. The entire campaign is based upon giving more thought and care to the production of cream rather than the

installation of costly equipment by dairymen. Creameries are required to handle cream and butter with additional care in many instances.

Cherry Fruit Flies

Cherry fruit flies have been found in emergence cages near Corvallis, Ricreall and Amity, according to S. C. Jones, assistant entomologist at the Oregon Experiment Station. Observations in Washington County indicate that the flies have not yet made their appearance here, according to W. F. Cyrus, county agent. The appearance of the flies here is ordinarily a few days later than at up the valley points. As soon as these flies emerge all varieties of cherries, as well as interplanted trees and brush along fence rows, should be sprayed at once.

Because of danger from excess spray residue, growers are cautioned to avoid heavy spraying. All that is necessary is to get a light sprinkling of poison bait on the leaves of the cherry and other nearby trees. From 1 pint to 1 quart per tree should be sufficient. The following materials should be used in the sprays:
 Lead Arsenate 1/2 pint
 Molasses 2 quarts
 Water 10 gallons

ACME BOX & LUMBER Co.

With Sales Warehouse at East 10th & Yamhill, Phone EAst 1547, and Mill at 5028 N. E. Killingsworth Ave., Phone TR. 8052, in Portland, is a Prominent Concern of this Part of the Northwest whose Superior Products are Indispensable in the Upbuilding of the Community, Serving the People Faithfully and Being an Essential Factor in the Agricultural and Commercial Development of Portland and Vicinity. Under the Competent and Capable Management of Ray L. Williams

Any business to be permanently successful must be founded on principle and honesty, fair dealing and full value for the price asked. From these there can be no deviation regardless of economic or any other condition.

In such a period as the one through which we are passing, manufacturers and merchants are confronted with many problems. In seeking the solution there is often strong provocation to resort to expedients that in normal times never would be considered. One cause of this temptation is the appearance on the market of sub-standard products put out to create so-called "price competition."

Every successful business in America the ones that have endured year after year, started from a small beginning and are built on an ideal which has always included a self-imposed obligation to keep faith with the public by maintaining quality regardless of conditions.

Acme Box and Lumber Co., started with an ideal. Through good times and bad that ideal has never been violated. To it, all subsequent success must be credited.

Here the public has at its disposal the services of men who possess the know-how and who observed their

modern business education in the school of practical experience. From the inception of the enterprise, quality has been the aim and the standard has been maintained from the beginning.

Acme Box and Lumber company is a local concern under the competent management of a man interested in local development and its substantial and well merited progress is a matter of actual fact well known to the public.

The celery, cauliflower and berry crates manufactured by this concern are recognized by the trade as the very best. They are sold all over the country and users have always been well satisfied and demand their products when buying again.

In making this review of the progress of Portland and vicinity we are glad to call the attention of the people to the advantages accruing to the public by the location of this industry here, the high quality of the products, and the commanding position they occupy in the industrial world, by determinedly living up to their original idea—to furnish the public with the finest products at a fair price—they have won and retained the respect and confidences of the dealers and their many satisfied customers.

No more wearing friction than in a **Shadow!**

A SHADOW never wears out—never needs repairing—never needs special attention—is permanently silent! This is virtually true also of the new Air-Cooled Electrolux Gas Refrigerator—for it contains no moving parts!

Electrolux is the only absorption-type refrigerator made. It requires no machinery to compress its simple refrigerant. A tiny gas flame and ordinary air do all the work!

Nothing was sacrificed in Electrolux to give you these important advantages. It contains, in addition, all the refinements skilled artists and far-sighted engineers could devise; such as, beauty of design; gleaming white easily-cleaned finish; stainless chromium hardware; interior lighting; ample storage space; trays that release at the trip of a trigger; split shelves that accommodate large bottles and roasts; temperature regulator that speeds freezing and defrosts without stopping.

Whether or not you are planning an All-Gas Kitchen, which authorities agree is the ideal kitchen, for it includes quick, economical cooking and abundant hot water besides carefree, silent refrigeration, you should have an Electrolux Gas Refrigerator. Your Gas Company is so certain that you'll

be thoroughly satisfied with Electrolux that they stand behind and willingly and promptly service every one sold.

Plan to see this unique refrigerator soon. On display at the Portland Gas & Coke Company—for sale by authorized dealers.
