The ABC of Safety

The cause of safety has a very simple and important A. B. C. The letters mean—Always Be Careful. That motto should govern conduct in every home, in every place of business—and especially in every automobile. Because it is constantly violated, thousands of people die needlessly each year, 33,000 of them in motor accidents alone, and property damage runs into the billions. In no other nation do accidents take so great a toll.

There is nothing difficult about "playing safe." The main thing to remember is to never take a needless chance—never do anything unnecessarily that might lead to injury. The element of risk is always there—a little thought will reduce it to a minimum.

There is no greater and more absolute waste than that caused by accidents. No kind of waste possesses less justification—the unavoidable accident is so rare as to be almost non-existent. Nearly every accident is caused because someone was reckless, careless, ignorant. Remember the A. B. C. of safety—and you will be doing your part to eliminate hazards that menace every citizen.

One Out of Five on Government Payroll

"Already the total number of citizens who derive their entire support from the government payroll of one sort or another includes one in every five.

"This is a sufficient number in our two party system, to control any national election since the civil war.

"Under such a system our popular institutions and our liberties will vanish just as they have for the people of Italy and Germany, in each of which countries, but one political party is tolerated and permitted to exist."—Col. Frank Knox, editor and publisher of the Chicago Daily News.

Headline "Enraged Lion Claws Trainer Beatty's Leg". In a few months this same headline may read "Enraged populace claws administration for less experimenting and more sound principles."

With Labor Day Monday and schools opening for the fall term the following week, one feels the fast approach of winter months.

Have you been to the county fair? You haven't, better hurry, it's far superior to all previous fairs and well worth a few hours of your time.

Patrick Henry once said: "Give me Liberty or give me Death." Death and fresh air are about the only things to which some government code has not been applied.

DEATHS

REV. WILLIAM GRAF

The Rev. William Graf, 65, who has been pastor of the Bethany Baptist church for 21 years, died at his home in Bethany Tuesday. He was born September 13, 1868, in Switzerland, but came to the United States when he was 7 years old. Five years later his family moved to Bethany, where he lived the rest of his life. The widow, Mrs. Mathilda Graf, and a son, Paul Graf, of Portland, survive. Also two brothers, John and Samuel of Portland and Mrs. John Bachman, Bay Village, Ohio. Funeral services will be held Friday, Aug. 31, at 1:30 p. m. at the Bethany Baptist church. Interment Union cemetery, W. E. Pegg in charge.

Speaking Class Picnic

The public speaking class of the Beaverton high school picnicked last Friday afternoon at Roamer's Rest. There were fifty attending the outing which extended into the evening. Various sports and a bounteous picnic dinner provided amusements.

Labor Faces Future With Renewed Hope

AS the nation pauses in tribute to labor and the great part it plays in the business of the country there is very real cause for a confident expectation of constant incomes, more jobs for the thousands still unemployed. Labor faces the future with a renewed hope and a real zest in living.

In these hopes and expectations, we share fully, pledging our every effort to assist in their complete realization.
