**The Highland Tavern Proves Popular**

In Portland at 815 S. W. Broadway near Yamhill WE NEVER CLOSE

Now under new management with a new chef. It is the New Highland Tavern. When meal time catches you in Portland stop at the Highland Tavern and enjoy a well cooked meal at a most reasonable price. People who find it necessary to eat away from home do not think of going anywhere but to the Highland Tavern. All service and cooking under the personal supervision of the management. Courteous and efficient service their business, not their motto.

The Highland Tavern is known for good food. A reputation sustained by the community as well as the traveling public.

The Highland Tavern has gained a name that has spread far and wide as a place of popular prices and where the local and traveling people can more than satisfy their demands in the manner of obtaining food.

In traveling over the country you will find nothing in greater profusion than poor restaurants. That is why it is indeed refreshing to go to such an up-to-date establishment as this one. It is unsurpassed in quality of food or accommodation of service. When the manager went into business it was with the idea that a good modern restaurant would be appreciated by the local and traveling public. That this principle was well founded is proven by the success it has attained. Here you will find everything pure and wholesome and deliciously appetizing. The service is equally satisfactory whether your order be large or small and you are made to feel that your trade is desired and appreciated by the management. There is not a more attractively furnished restaurant in this part of the state than the Highland Tavern and there is no one that has attained a greater measure of popularity. There is none in which the service and cuisine are more pleasantly satisfactory.

The seeker after gastronomic delights must indeed be hard to please if he cannot be satisfied at the Highland Tavern. Whether at breakfast, luncheon or dinner you will find a wide variety of food of the highest quality that will please the most jaded appetite.

The cuisine of this concern is the talk of the country-side and people from every walk of life have found that refreshment here adds a new charm to life. They specialize in excellent menus and have an extensive trade from the territory for many miles around.

We are very pleased in this review to compliment the Highland Tavern upon the high character of the concern which is rendering a much needed and highly appreciated service to the public, and to say that the people will always find there a refined and pleasant host. We recommend this place to all of our readers as a good place to eat when in Portland.

In a review of this part of the country there is no institution more worthy of mention than this foremost hospital.

Without health all the other gifts of life are worthless. Human nature seems to be so constituted that we mortals do not realize the truth of this statement until it is too late. Health is one of those things—like a good wife—not appreciated until it is gone.

Perhaps you are feeling run down generally. You don't seem to have your normal amount of energy and push. Your work drags. You cannot sleep at night. If you sleep at all, you do not feel fresh when you awake in the mornings. What you need is the care of an efficient hospital staff.

This hospital offers the patients quiet, and rest combined with every modern method of treatment and diagnosis. Laws of nature and principles of science are co-ordinated in the most effective care of the patients.

Their modern building is completely equipped for all kinds of non-contagious diseases. Special development in the laboratory and diet kitchens makes systematic study and rapid results in treatment possible.

It has been built up to its present high standard by the tireless efforts of its efficient staff and the years that have been spent and the results that have been obtained deserve the praise of all.

The hospital has most efficient laboratories and is equipped to take care of out of town patrons in a prompt manner.

**Child Labor Amendment**

It is unfortunate that so much stress has been placed on the claim that the code, and the activities of Federal departments abolished child labor. The advances in restricting child labor have actually not been enough to justify all the bragging. The reform will never be brought to a point where it can honestly be called successful until the amendment that has been pending for so many years is crowded through legislatures to put the clamps on the exploiters of child labor.

You know that you are going to get value received and courteous treatment when you trade here because past experience has taught you that they are personally interested in you and your trade. Next, they leave nothing undone in their effort to provide for you the very best that can be had for the money.

To merely render an average service in an average establishment is all well and good. But to be able to give a service that is just a little in advance of others in an establishment that has become a feature of the commercial life of the community; that is indeed something well worth while.

Through the extended services of this very active firm, many dollars are brought yearly into circulation.

Good values and reasonable prices have placed their products everywhere.

This well known establishment started its business career upon a solid foundation, knowing that success in this advancing business could only be fully gained by offering quality service upon a fair margin of profit. Fair and honest business methods at all times, excellent service to every patron has established for them a trade that has extended in every direction from town. All of these business assets have been the reason for their success, and with these methods in mind they have always been successful in business. **Heacock Sash & Door Co.**

Located at 939 S. W. Second street, in Portland, Specializes in Roofing, Paint, Building Materials and in fact offer a complete Building Material Service. Phone AT 0153.

They are known throughout this section as leaders in the manufacture of sash, doors, mill work and allied lines. In their years of experience this firm has attained fame through their progressive business method and superiority of products. They are recognized as experts in their line throughout the county and add to the progress and prosperity of this section.

They make a specialty of mill work of all kinds and can supply you with sash, doors, special mill work and wood work of all kinds, paints, oils, builders' hardware, hardwood flooring, roofing, etc.

In the olden days when we started to build a home the first requisite was to find a carpenter who could be trusted to build properly the doors, sash, staircases and build all the finish into the home. Not so today with this modern mill at your disposal. By having the mill work ready made, much time can be saved on interior finish.

Prices of lumber and building material are now down to a place where it is quite a lot cheaper to build than to rent. A novel feature in ordering from this concern you can see them manufacture daily the many pieces of wood work you wish for your home. Here also you can pick your design out of their stock and know exactly what you are getting.

Heacock Sash & Door Co. knows the needs of the people and provide for every modern improvement to better the manufacture of their line. We in this annual business review compliment them upon the very valuable service they are rendering our community.
