S. P. Expansion Program Makes Many New Jobs

Average employment on Southern Pacific's Pacific Lines, serving six western states, has increased 10 per cent over the same period of last year, 3200 employes having been added to the company's rolls since that time. Establishment of new train service, both freight and passenger, together with air-conditioning and modernizing of passenger equipment has been chiefly responsible for the substantial increase in the company's forces. Aside from the direct employment of railroad men, Southern Pacific by its outlays for materials and supplies in connection with its expansion activities, has stimulated employment in many other lines.
