MAN THE GUNS

This nation has never called upon its citizens to "man the guns" but that that call was heeded and answered. . . . Manning the guns today calls only for the courage to face the problems of the day under the banner of reconstruction and carry on with the resolve that this nation shall not perish. Independence Day . . . our national birthday, is the time to resolve anew.

THE BONUS DISTRIBUTED

With more than twenty-eight million \$50-bonds distributed to more than two and a half million veterans of the World War, and something like ten million additional bonds to be distributed to a half million veterans who have not sent in their adjusted service certificates, the bonus question may be considered settled so far as the national government is concerned. To the veterans who received part of the vast sum of \$2,237,000,000 last week the question has arisen as to how to use the bonds and money received. That most of the bonds will be cashed is generally assumed and thus the question relates to the spending of cash money. Every individual who has received his bonus is entitled to use it as he thinks is best without unsolicited advice from professional counselors of the general public. Each veteran understands his own circumstances and knows what he wants to do with his cash and our advice to all veterans is to save or spend it as he sees fit.

ONE MILLION A YEAR

The population of Japan increased last year by 1,028,623 in a land that, even now, has about 70,000,000 people living on a few small islands, which have much mountainous country. With talk of the population of the United States becoming static and European countries worrying about the birth rate the advent of one million more Japanese a year might mean something, say about 1960.

ANY DAY WILL DO FOR A START

It is hard to realize that the long days of Summer are here, and that from this month on the hours of daylight begin to recede, until in six months we come again to the year's shortest day. There are so many plans in our hearts for our own development, for the growth of our business, and the improvement of the town that we are sometimes prone to think that time flies too fast. We should remember that the only way to accomplish anything is by making a start. Today, long or short, is the day to begin. Let every reader of this article if so moved, spend the rest of 1936 in trying to make effective the happy dreams that sprang up when it began. Such time will be well spent.

If you are really important where you work it might be a good idea to take a vacation for a month and let the boss see how he gets along without you.

The word is that the old fashioned family doctor has disappeared. This means that physicians have begun to send out their bills on the first of the month.

It's human nature to put the blame for everything on somebody else but a man begins to make progress when he blames his shortcomings on the proper person.

Between this week and the election you can hardly expect the truth from partisans.

COSLETTS TRUCK SERVICE

LOCATED AT HILLSBORO AT 105 E. BASELINE ST. PHONE 1263, HILLSBORO TO PORTLAND HAULING.

They are very popular with the people of this section of the state as they offer a most modern trucking service. Their charges are very reasonable and it has been conservatively estimated that this line has saved the people of this section of the state thousands of dollars in freight rates. This concern is meeting with success as they solve the transportation problems and offer first class accommodations. They are prepared better than ever to carry freight which aids in the promotion of agriculture and commerce in the territory they serve. The farmers can ship their products with them and get them to market in quicker time. When this service was put in operation traffic in this section was greatly aided, and with their ample facilities, they are offered a service that should be appreciated by the public. During the course of their career in this community they have always taken an active interest in its onward progress, exhibiting at all times a progressive spirit. It is such public and such business activities producing prosperity that help to turn the wheels of industry in this section and aid very materially in the promotion of progress and development of this section of the state. They are responsible for the bringing and keeping hereof very many dollars each year and in this review we cannot fail to compliment them upon their activities in the business world and predict for them a future fraught with great promise.

The Fourth of July

NEWSHAM FLORAL CO.

ROUTE 2, HILLSBORO

There is no florist who enjoys a wider reputation for giving the customers the most lovely and beautiful of flowers. As designers of floral emblems for funerals or for social occasions these florists are artists of unsurpassed ability. They know how to blend flowers and colors so as to give harmonious combinations of remarkable beauty. The floral business distinctive from ordinary businesses in that it is more than a mere business and more than a science—it is an art. Working with flowers requires knowledge of all the laws of plant life. It requires a knowledge of soils and of botany. But in addition to all of this the florists must have that innate ability, that love for his work, which characterizes only the artist. You will find that these florists possess all these necessary qualifications. You will be surprised to find that flowers can be so fresh and so beautiful as when they come from the Newsham Floral Co.

Report Given on Import of Farm Products in Past Two Years

The Department of Commerce has just issued its report giving complete import and export statistics for the twelve months of 1935, contrasting these figures with statistics for the preceding year. From this official document has been taken the figures set forth below, portraying graphically the extent to which foreigners have wrested a large part of the American market from the American farmer during the third year of the New Deal. The table sets forth total imports of the commodities named for the two past years:

Commodities	Year, 1934	Year, 1935
Wheat, 60-lb. bu.	7,736,532	27,438,870
Corn, 56-lb. bu.	2,959,256	43,242,266
Oats 32-lb. bu.	5,580,407	10,106,903
Butter, lb.	1,107,020	22,674,642
Beef, fresh lb.	140,474	8,584,114
Pork, fresh, lb.	127,746	3,922,609
Canned meat, lb.	46,777,875	76,653,242
Animal oils and fats, edible lb.	1,723,261	18,895,241
Hides, lb.	209,770,332	308,475,033
Tallow lb.	42,813,299	245,850,922
Carpet wool lb.	85,181,282	171,504,101

Each bushel, each pound of the commodities imported during 1935 could have been supplied by American farms. These are the imports that are robbing the American farmer of his home market, due to the operation of New Deal theories and Roosevelt policies.—Oregon Common Sense.

Gas Tax Permits Must be Renewed

Permits to obtain gas tax refunds must be renewed July 1, according to the law passed by the 1935 session of the state legislature. The law provides for annual permits, prescribing a 50-cent fee, and provides an expiration date of June 30 each year. New applications must be filed by claimants and blanks were mailed this week by the state department to all former permit holders.

Refunds of taxes paid on gasoline purchased prior to July 1, 1936, may be obtained under the current permit, but on gasoline purchased after July 1, of this year, it will be necessary to have the new permit. Applications may be filed by mail or presented to the secretary of state's office.

New Model Ford V-8 Convertible Sedan Out

Appearing this spring with a fuller line of summer cars than at any other time in its history, the Ford Motor Co. has just introduced another distinctive model, the new Ford V-8 convertible sedan with the built-in trunk. According to H. H. Wilcox, Seattle Branch manager of the Ford Motor Company, this soft-top model is destined to be the sensation of the summer-type cars, and with the convenience of the built-in trunk coupled with the youthfulness of the convertible top, will be one of the year's popular choices. Chiropractic and Naturopathic Diagnosis and Treatment

Patients receive thorough diagnosis and treatment for prices based on maintenance only. A competent staff of doctors preside over all departments. Clinic, X-ray laboratory and clinical laboratory. These men teach the science year after year. They must keep up to the minute. Open 12 to 5 p. m. daily—4 p. m. Saturday. Western States College 538 S. E. Alder EAsT 8919

Auto Death Rate Double That of Last Year

Motor vehicle deaths in May were nearly double the number in May, 1935, with 24 persons killed in Oregon as a result of automobile accidents. Thirteen fatalities from similar causes occurred in May of last year. Attention is also called to the 59 per cent step-up in the number of accidents, which jumped from 1,705 last May to 2,712 in May of this year. Only through constant careful attention to the rights of others and the rules of the road can we make any progress in improving present traffic trends.

DAIRYMEN!

Now—abundant, low-cost hot water for Grade B and Grade A Dairies

If you operate a Grade B dairy, a Pepco Hot Water system will keep scalding hot water on tap for you all the time at a monthly operating cost of from \$1.25 to \$2.25, according to experience of others. If you operate a Grade A dairy, you'll be interested in our Electric Steam Boiler installation that generates steam up to 60 pounds pressure, and operates at a monthly cost ranging from \$3.50 to \$7.50. Both of these systems are fully automatic, dependable and built to last. Both operate at the low rate of 8/10 of 1c per kilowatt hour! Ask the Pepco Farm Service man in your community for complete facts. It will pay you.

This system was especially designed to economically supply a Grade B Dairy with abundant scalding hot water—on tap all of the time.
