

LEADERSHIP!

In The American Home

**What makes a nation great? The industrialists who develop its resources?
Diplomats who weave its interests through the great pattern of the world?**

The answer is a paradox—"Yes, all of these, yet none of these." For what need would we have of banks, —or business documents or ships to cross the sea—without the great multitude known to all nations as the American People?

Every American, in every American home, makes this nation great by the might of muscle with which he toils, the courage with which he builds for his family's future, the idealism in his heart—and the faith in his soul.

It is to these Americans that the leaders in civic and business life and other interests listed below wish to express their hearty felicitations and wishes for a continuance of the power and unit of an American family.

These men, outstanding in their separate chosen professions and business, constitute a very great part in the success and increasing growth of Portland and vicinity by their unending cooperation in all endeavors that will aid in their city, state and county—they are truly Americans.

We believe they are leaders all, because they are home lovers—highly deserving of the patronage of every true American citizen. They believe that in our homes lies the destiny of the future, and to this end they are endeavoring to bring new untold prosperity dreams to materialization.

Let us then, step forth from our thresholds and say with gratitude and conviction—"Ours is a great nation, with such citizens as these."
