The First Choice of Poultry Raisers
Good feed is indispensable to success in raising poultry for the market or for egg production.

That's why so many experienced poultrymen in this community insist on the kind we supply. It's their first choice because it contains growth-building elements in correctly balanced proportions. Yet its cost is very moderate.

NO. 1 in ROOM
Just Ride and See!

Illustration of a man and woman sitting in a car, with a ruler showing 55 inches across the front seat.

WIDEST front seats in any popular car, more room front and rear... And that's just the beginning of all you'll discover about the extra room in a 1937 Hudson or Terraplane... once you open the wide doors and step in.
With Selective Automatic Shift, an optional extra, the front floor is all clear. Nothing to stumble over! No gear shift lever there... and no brake lever either, for it's up at the instrument panel, releasing at a finger touch!
Rear floor level... no "hump". An amazing amount of room for baggage in the enclosed rear compartment or trunk. Plus a package locker with more than 1,000 cubic inches of space.
And all this on longer wheelbases... 117-inch wheelbase in Terraplane... 122 and 129-inches in Hudson.
Just ride and see how much more room... how much more automobile in every way... your money buys when you decide on a Hudson or Terraplane.
