FREE CLINIC

The New HEMOVITAMETER

with AUTOMATIC FOOD SELECTOR has been installed in our modern equipped offices. This remarkable instrument is the first one of its type here from the east and latest in diagnostic equipment of its kind. It's accuracy is one of the marvels of modern science—it will indicate whether or not you have Cancer, Tuberculosis, Syphilis, Gallstones, Goitre, and many other conditions, even in the early stages. Not only will the instrument indicate WHAT disease is present, but it will also tell what organ or part is most affected and how seriously, and also treat the condition.

"CORRECT DIAGNOSIS IS HALF THE CURE"

If your case has not responded as it should to treatment there is a reason. Why not investigate this newer electro-mechanical system of diagnosis and treatment, without cost or obligation? Eliminate guess-work when your health is at stake. The importance of early diagnosis and treatment of minor ailments before a serious condition results, can not be over-emphasized.

PLAIN TALK MAGAZINE

"Electro-Therapy has discovered the only means of EARLY DIAGNOSIS of any non-painful disease. See 'The Human Radio' in June, 1935, and 'Humbugging the Senate' in July, 1935, and 'The Racket in Cancer Control' in April, 1937, and 'Hope for Tuberculars', June, 1937, PLAIN TALK."

FREE FOR TEN DAYS ONLY

(Positively no obligation)

We shall be pleased to give you a regular ten dollar examination on this instrument, absolutely Free.

IT IS VERY IMPORTANT that you PHONE or CALL EARLY for an appointment in advance, as only a limited number can be diagnosed daily.
