Mobilgas

is the largest selling gasoline in America

The greatest tribute that can be paid to quality

Outweighing all confusing claims and bewildering statements about motor fuels, this one impressive fact stands out—the motoring public of America chooses Mobilgas in preference to any other brand of gasoline. You can't beat that!

There can be but one reason for this preference—better all-around quality and performance under all conditions.

Some motorists may prefer it for reasons of economy—others for power or pick-up—others for mileage. Each motorist has his own ideas on this subject. But the one obvious conclusion is that Mobilgas has what the American motorist wants for his gasoline dollar—what you want for your gasoline dollar.

If you are not now using the "national favorite," why not go "Mobilgas" today, and discover for yourself what it is that has made Mobilgas the largest selling gasoline in America?

Always keep an eye open for the Sign of the Flying Red Horse. Throughout the Pacific Coast, and from the Atlantic to the Pacific, it identifies progressive Mobilgas dealers.
