BABSON SAYS:

Continued from Page 1

hama and started Japan on her mod-
ernization program. We have secured
more benefits from it than any other
nation. We have sold millions of dol-
lars worth of machinery of all kinds to
hasten the process. So far this year
eleven per cent, or \$140,000,000 of our
total exports have gone to Japan. Yet
in return we have bought only \$22,000,
000 worth of goods or six per cent of
our imports from her. Raw materials
are the principal items which we send
across the Pacific. For instance, Japan
took more of our 1936 cotton crop than
any other nation, even more than
England.

How Can Japan Pay

Foreign purchases can be paid for
only with gold or with surplus pro-
ducts. Japan cannot pay us with gold,
for she has none with which she dares
part. She can and does pay us par-
tially with silk, but our chemically made
rayon has raised havoc with Nip-
ponese silk farmers. She cannot pay
the remainder of her debt in
other surplus goods, which in her
case are manufactured products, be-
cause she cannot scale our tariff bar-
riers. She has the same trouble with
most of the other Western nations.
They are all eager to sell to Japan,
but they do not want to buy her goods.
Hence, Japan in desperation seeks new
territory which will give her needed
supplies of raw materials and an out-
let for her finished goods.

During the last two decades, while
the world has been shouting for an
end to military wars, it has been de-
liberately, with our aid, starting a
far more dangerous war: a battle of
economic barriers. In the end, these
barriers lead desperate nations into
wars of aggression, such as the cur-
rent conflict in North China. More-
over, Germany, Italy, and other na-
tions may try the same way out, at any
time. Hence, I heartily commend Pres-
ident Roosevelt and Secretary State
Hull for their painstaking efforts to
lower tariffs reciprocally and to rees-
tablish trade among nations. Only an
unselfish give-and-take revision of
these artificial barriers can prevent

future wars. Economically we are all
brothers regardless of race color, or
creed. One nation can prosper only
as all nations prosper.

Japan's Bad Psychology

Naturally I cannot agree with Ja-
pan's method of solving her problems.
She is only making the situation worse.
She fails to recognize the value of
goodwill. The Japanese are an indus-
trious, intelligent, and exceedingly
patient people, but they are very poor
psychologists. The Chinese are good
psychologists and know how to pre-
sent their case well. The Japanese ap-
parently think that victories come only
through physical strength and material
wealth. They fail to study history.
The victories of the world have not
been won by the physically strong,
nor have races been won by the phys-
ical swift. The pen has always been
mightier than the sword and it always
will be. In the long run, right always
wins and wrong always loses.

Most nations are emerging from
the period of deep depression. They
are bitter against Japan for taking a
chance that the apple-cart may be
upset. If she wages a real war on
China, Russia will help China and
then it will be a real war. Industry
and commerce the world over will suf-
fer. Furthermore, if Russia gets into
conflict it will be a great tempta-
tion for Germany to stab Russia in
the back. This would lay the founda-
tion for another World War which
could set civilization back for 50 years.
Therefore from a business as well as
moral point of view, I sincerely hope

NOTICE TO DAIRYMEN

USE AQUA-MIN

The Dairymen who wishes to keep his cows in good health
and get the greatest return for the food supplied, should
investigate AQUA-MIN.

It is essential that minerals be supplied to the dairy cow from
source other than the food given.
Minerals must be in solution to be utilized by the body tissues.
Aqua-Min contains minerals in solution, the same as they are in
the body fluids.

You cannot afford to be without Aqua-Min for your herd.

Please call at our office and we will supply you with full information

KIRKPATRICK LABORATORIES, INC.

that Prince Kenoye and his cabinet
will be made to see the light and stop
this war of aggression.

Japan Should Be "Cut"

What can the United States and
other powers do to bring Japanese
officials to their senses? From my
knowledge of the Japanese, the most
effective action would be for all na-
tions to close up their Tokyo embas-
ies saying, "We cannot do business with
pirates and rob
