THE SPECIAL SESSION

The President calls Congress in special session stating that the principal object is surplus crop control and wages and hour legislation. The Ever-Normal Granary has an abnormally large crop of corn to take care of—12,000,000 bushels more than was expected. The cotton crop is twice normal needs and expectations. The wheat crop is 1,000,000 bushels over normal. The President says that surpluses must be laid up for times when there is scarcity. That, of course, is to save farmers against undue price declines. Just how will this be accomplished? One way would be for the Government to put up the money—hold the farm products from the markets. That would take a billion or more dollars. The budget would be in the red. "Out of the red" is indicated by the President. Nobody knows how this is possible. Emphasis is laid on the term, "soil conservation"—a sort of synonym for revised A.A.A., that might be loaded with processing taxes and other New Deal devices. Congress was committed before its adjournment, to crop control legislation, and it will pass in some form. It may be worth the price—but even Secretary of Commerce Roper points out grave dangers from a continuance of such a policy. Agriculture must be saved from bankruptcy, insists the Administration.

Surveys of the press of the country in recent weeks indicate a more independent and aggressive attitude in discussing public policies. Evidently editorial feeling was stirred to the depths by the Supreme Court and Black matters.

Self's Dairy Lunch and Restaurant Offers Good Meals at Substantial Savings

Located at 513 S. W. Fourth Ave.

That important question often arising among the people of the Tualatin Valley and surrounding territory—where shall we go for a sandwich or dinner while in Portland, that will be of the best. In our opinion, that question can be easily answered. In every community the size of Portland there will be some cafe or restaurant that will stand out from all others as being the one place where those who know good food and appreciate good service will be seen.

In Portland one of the newest and outstanding places to eat is Self's Dairy Lunch and Restaurant located at 513 SW 4th avenue, Portland. Their increasing patronage is proof of the fact that those who do patronize this cafe pass the "good word" along to their friends in the city and elsewhere for a large number of out-of-town people are to be seen eating there every day.

The manager of Self's Dairy Lunch and Restaurant is among the few fortunate people who, in addition to knowing his business thoroughly, possesses a personality that makes warm friends and steady customers of those who would otherwise remain just casual acquaintances.

Whether your desire be a cup of their delicious coffee with a doughnut or one of their tempting luncheons or dinners you can be sure of receiving the best in service and the best in foods appetizingly prepared if you go to this cafe.

So remember when either business or pleasure takes you to Portland be sure to eat at Self's Dairy Lunch and Restaurant. It will prove to be a satisfying meal in every respect.

Self's Dairy Lunch and Restaurant is performing a real service to local people by offering quality food at real savings. They are indeed filling a much needed service.

BABSON SAYS

as if France might naturally become a Fascist power. Certainly the defeatist attitude is seen everywhere. Those with money are sending it to England; those without money are refusing to raise children. All hate taxes, feeling that it is like pouring money down a rat-hole.

Conservative or Radical?

Frenchmen say: "Why spend money on taxes; why make sacrifices to create armaments? England will take care of us. England cannot afford to let any unfriendly nation get control of us." That might prove to be true! but it is a dangerous thing for France to count upon. I remember when Owen Young and General Dawes were in Paris, at a Reparations Conference "to save civilization". One evening a high French official took them out for the night to see the sights. Upon their return next morning they commented, "We wonder whether civilization is worth saving?" England may some day feel the same about France.

Furthermore, future inventions may soon make France of little value to England. In other words, England's security may become entirely independent of France. At any rate, England has officially notified France, Belgium, and her other neighbors that she now has no alliances and is under no obligation to go to any nation that does not fly the British flag.

Paris Not France

France has the reputation of being very socialistic and almost communistic. I think, however, that the people who believe this judge her by Paris, Lyons and other large cities which they visit. Paris is not France. Most every Frenchman already has a small patch of ground. All he wants is to be let alone. Ordinarily the

French take little interest in politics. They have little confidence in their politicians and avoid in every possible way their citizenship duties.

Hence, when the wage workers of the cities are on the rampage, we think that France is headed for revolution. When, however, an emergency comes, the French farmers go to the polls and clean out these agitators. Today, in view of the tremendous havoc which revolution has wrought in Spain, these Frenchmen are even more determined to stamp out communism. I say this even though France has a mutual defense alliance with Russia.

Fight to the Finish

Without doubt France is slipping. She is frightened. She needs a great leader. But France is rich and can be powerful, when once aroused. When the Germans began to retreat in 1919, France wanted to follow them to Berlin and "clean up the mess" once for all. President Wilson objected. Instead, he promised her a great sum of money, known as "Reparations." France has never been able to collect this money and has now seen Germany tear up the entire treaty.

France appreciates what we did to help her during the war; but she feels that the United States has taken sides with Germany ever since and has robbed her of her rightful victory. All this means as follows:—France will do everything possible to prevent another conflict with Germany; but if it comes she will fight to the finish. The next World War will make the last look like a mere skirmish.

Postscript

Yesterday I talked to two prominent Japanese,—a high military officer and a banker. I asked: "Why are you warring against the Chinese?" They answered: "We are fighting China to make her people our friends. We want to be friendly with them; but they refuse! We try to shake hands with them, but they will not shake. Hence, we must make them like us!" Can you beat that? Incidentally, Japan is very much disturbed by the talk of a general world boycott on her goods. The refusal by labor unions to handle Japanese exports and the refusal of women to buy Japanese products may be a factor in restoring peace and in teaching Japan a needed lesson!

Sevier Commission Co. Serves Rural Residents

The Tualatin Valley papers covering as they do, a rural and semi rural district feels that it may well recommend to its readers one of the firms which has served the district long and well. That firm is Sevier Commission Co., livestock commission merchants located at the Union Stock Yards in North Portland.

The Sevier Commission Co. makes a business of selling cattle, sheep and hogs; they enjoy a splendid reputation wherever they conduct business and have continued to deserve that reputation over the period of the firm's existence. The service rendered to this community by Sevier Commission Co., is well appreciated by farmers and others who have livestock to sell. Numbers of satisfied friends of the concern live in this district and always speak in the highest terms of any dealings they have had with this company.

It is firms of this type who add much to the prestige of a city and Portland owes its present position of prominence to the fact that such companies as the Sevier Commission Co. make it their headquarters.

When you have livestock for sale we suggest you consign your next shipment to this well known commission company and be assured of receiving the top price.

Today's Taxogram

If you are a motorist you paid a gasoline tax bill last year of \$35.90 as compared to the same tax bill of \$8.22 thirteen years ago (if you were a motorist then). The average gasoline tax last year was more than 5 cents per gallon and the average motorist consumed 671 gallons during the year.

Purdy Brush Co. Factory And Office Located at Foot Of Richmond St., Portland

The Purdy Brush company is recognized as one of the leading brush manufacturing companies in the northwest, rendering a service to the trade that extends miles around and is under the direction of men of wide experience in the field.

Because of the great volume of business transacted through their extensive manufacturing establishment, because of their up-to-date business methods and the high quality of the products which they make, the Purdy Brush company has gained for this section a commercial prestige and an excellent market for retailers that could be gained in no other way than furnishing the best of brushes.

The story of the success of this firm is one that many business men would find profitable reading. The firm began its career with the intention of manufacturing brushes of quality upon a reasonable margin of profit and with this method in mind and a reduced selling expense, the concern proceeded upon its career on a solid foundation of good values and reasonable prices. As their trade grew and the business flourished and expanded it has developed into one of the leading manufacturing establishments of this part of the state.

All Purdy Brushes are Oregon made and available at your favorite store.
