BABSON SAYS

should business spend its share? In advertising, in putting workers back into employment, in purchasing wisely for future needs, in lowering prices enough to appeal to those who already have money to spend.

Let's Push the Cart

I am now in Wisconsin attending a great Church Convention. There are delegates here from every State in the Union. These delegates represent all political parties. But upon one thing they are agreed,—namely, that only righteousness and unselfishness can save this or any other nation. I want to pass along this thought to every employer, wage worker, and consumer among my readers.

The spending program is with us, therefore, in spite of the obstacles, let us get behind it and push instead of hanging back and dragging. Certainly, a little unselfishness at this time is worth trying. Business and labor are almost certain to get back any money they spend in cooperation with this pump-priming. Maybe they will also get back something truly worthwhile. I am convinced that if we will all forget our little selves, if we stop riding in the cart and lend a hand in pulling it, we can make something out of this \$5,000,000,000 program!

Electrol Oil Heating

The difference between Electrol and other oil burners is the difference between a certified check and a promissory note. Electrol has gained its prestige by deeds, not words.

Cooking School!

The story of "Star in My Kitchen" wouldn't ring true if flour of uncertain quality were used in the baking scenes. It takes a flour like Pillsbury's Best to assure the fine baking results that give point to the story.

And in your own kitchen, it's just as important to use fine flour if you want your baking to turn out perfectly—every time.

Pillsbury's Best gives superior results because the wheats that go into it are tested and blended with scientific precision—and because its quality never varies.

Why take chances when Pillsbury's Best Flour costs so little more per recipe? Ask your grocer for Pillsbury's Best!
