Here's a Glimpse of 'The World of Tomorrow'

Visitors to the New York World's Fair in 1939 will be given some indication of what "The World of Tomorrow" may look like. The Trylon and Perisphere, emblematic of the Fair's "The World of Tomorrow" theme, seen in the background, set of "The Road of Tomorrow" which climaxes the Exposition building being erected for Ford Motor Company at the Fair. Demonstrating that the highways of the future are being built today. "The Road of Tomorrow" will carry visitors up the spiral ramp shown here and around the facade of the Ford building in Ford, Mercury and Lincoln Zephyr cars, giving them an excellent view over the grounds and converting the entire building into a dynamic exhibit.

WANT-ADS ARE SURE!

Babson Says

Continued from Page 1

butcher's statement, \$5 to the butter and egg man's bill, \$5 to the baker's charges. On every roast of beef there are 127 hidden taxes; on every loaf of bread, 53 unseen taxes!

The Unfaxed Taxed
The average family probably spends \$30 per month for rent. Of this amount, \$7.50 per month, or \$90 per year, is for local taxes. Each year the automobile eats up \$175 of the family's income. In this amount is \$35 for the tax-collector. The same official through 79 separate taxes, takes a \$5 cut out of a \$50 suit. With 143 different taxes, he grabs fifty per cent of the price of a pack of cigarettes. This newspaper is paying 83 taxes you readers know nothing about. Every movie ticket carries 61 hidden donations to the public treasury. And when someone dies these invisible taxes hit a record high—there are 157 of them!

\$230 to Tax-Collector
All told, this average family—which owns no real property and thinks it pays no taxes—forks over \$230-240 of its annual income of \$1800 for hidden taxes. This represents one-seventh of the total income. It means that for every six days the family bread-winner works for himself, he works one for the tax-collector. (In the case of very wealthy people the reverse is true; they work one day for themselves and six for the public). The significant point is that these unseen taxes are rising every year. In 1933, the hidden tax-collector forced the wage-earner to work only one day in ten. How soon will he be working one day in three?

Yet, the members of this family kid themselves into thinking that they pay no taxes. They dismiss a flagrant misuse of public funds by some comment as this: "Well, let's 'em spend, Rockefeller can afford it!"—Sure Rockefeller can; but can they? In this connection, let me say that our people are now forced to fill out 135,000,000 tax and other government forms per year. Certainly, these are not all filled out by Rockefeller! To pick up over \$14,000,000,000 in taxes in 1938, it took the combined efforts of 175,000 separate tax agencies with probably over 1,000,000 tax employees!

Half the Bills Unpaid
Yet with all our taxes, we are only paying half the current cost of government! The other half is being borrowed and left for our children to pay. The Federal government has borrowed \$24,000,000,000 in the last ten years. (How much money state, county, and local government have borrowed, I cannot say). The interest on this new debt alone is \$500,000,000 a year, or more than the government spent in any year prior to 1909 except during the Civil War. Yet, there are no convincing signs of a let-down in this wild orgy of spending!—Despite
