Cornerstone Laid at Home

Christian Home to Open May 1st near Beaverton

An audience of several hundred persons attended the cornerstone laying ceremony Sunday afternoon for the new Northwest Christian Home for the Aged. It is a \$50,000 edifice on the Walker road near Beaverton with accommodations for 28 persons not counting employed help.

Mrs. Mary E. Parker, a member of the board of supervisors for the home, placed the cornerstone. The Rev. J. Eric Carlson of St. Louis, executive secretary of the National Benevolent association of the Christian church, presided and gave the principal address. A large group of persons who have assisted in construction of the home were present.

Following the program there was inspection of the home, which will open May 1. The formal dedication is set for July 6.

At present the denomination maintains two homes in the Northwest—one at Eugene and one at Walla Walla. These will be combined in the new Portland home more centrally located in response to general request from friends of those residing in the home. A 2½-acre tract surrounds the home here. Mrs. Laura Hill of the Walla Walla home will be the superintendent here. Mrs. Walter Myers is superintendent at Eugene. Her husband has been named Northwest representative for the home, which will serve Disciples of Christ churches in Oregon, Washington, Idaho and Montana. Dr. Myers will divide his time between the home and the Oregon Christian Endeavor unions, of which organization he is also field secretary.

At present there are 23 persons resident in the two homes. The new building has been constructed on the unit plan so wings may be added as needed.

Baldwin Has Pretty West Slope Home

R. E. Baldwin has a three acre place on Sunset road a quarter mile south on Canyon road at West Slope known as Sunset Lily Gardens. He has four lily ponds, extra large and well located. There's about 22 varieties of water lilies and by the way, you can plant anything from now on and have blooms until the frosts of autumn. They raise Eastern Jumbo frogs and have every equipment necessary in handling them. The nature of them is unusual and you'd be interested no doubt.

Mr. and Mrs. Baldwin came here 11 years ago and had all their possessions in an old light truck. They started in digging the place out of the willows. It meant a lot of work but they succeeded and now they have a very beautiful country home and some of the finest soil in this west side area. It is very low land and very fertile. Mr. Baldwin's health has been very much impaired over a long period of time and he is not able to do heavy work, but enjoys taking care of this three acre home place. He can tell you a good deal about plant life and you ought to stop and talk with him about lilies.

Mrs. R. L. Tucker of Anacondas, Wash., formerly of this place is spending the week with her brother and sister in law Mr. and Mrs. Dayton Peck.

Mr. and Mrs. Frank Rosebraugh, Mr. and Mrs. Harry Eliander and Mr. and Mrs. Sam K. Fetters visited Mt. Hood chapter O. E. S. Wednesday evening in which the matrons, patrons, associate matrons and associate patrons of Portland and vicinity were guests of the evening.

County Council Holds Final Meet

The final meeting of the year 1938-1939 of the Washington County Council of Parent Teachers was held Tuesday, April 18 in the Oddfellow's Hall Beaverton. There were fifteen local associations represented, with delegates and visitors numbering a hundred, thus making it one of the largest County Councils held this year.

After the minutes were read by the secretary the treasurer gave her report. Both of these final reports were accepted.

The local association then gave their report of achievement during the past year. Ten associations received certificates of membership signifying that they had made a considerable gain in membership during the past year. The County Council also was awarded a certificate for having made a gain of over eleven percent in the county.

Mrs. Hite, county council president, gave a short report of the state convention of Parent Teachers just finished at Klamath Falls. Mrs. Sande president of the Forest Grove association, also attended and gave reports regarding committee meetings.

After a recess for lunch Mr. Metzler of the Beaverton High School introduced the mixed chorus of the high school. They sang the two religious selections as required by the Glee club tournament which will be held in Forest Grove soon.

An original recitation about a program given in a school was given by Evelyn Kidder.

The Ewer triplets sang "Little Sir Eoho" and the "Umbrella Man" and were followed by a solo "Penny Scenade" sung by Joe Moshofsky. Byron Britch was the accompanist.

The nominating committee then presented the following names for County Council officers for the coming year: President, Mrs. Garfield Hite, Sherwood; First Vice-President, Mrs. Edwin Thompson, Tigard; Second Vice-President, Mrs. Geo. Burns, Garden Home; Third Vice-President, Mrs. Marie Chamberlain, North Plains; secretary Mrs. C. O. Mabee, Aloha-Huber; treasurer, Mrs. Geo. Imlay Reedville.

These officers were unanimously elected and were installed by the State President Mrs. C. W. Walls.

The final report of the County Chairman was then called for with nearly every chairman present. Mrs. Walls led the discussion regarding Parent Teachers work with much emphasis placed on the by-laws. She also spoke about some of the items that would be brought up at the National Convention of Parent Teachers which will be held in Cincinnati in about a week.

Reedville extended on invitation that the County Council meet with them for their October meeting, which is the School of Instruction. Due to their building program in the school this has been the first opportunity in several years that Reedville has been able to entertain the group.

A rising vote of thanks was extended to Cooper Mountain for their hospitality.

Metzger Dwelling Destroyed by Fire

Night-patrolling sheriffs were called to Metzger district Thursday evening by a fire which burned a vacant dwelling on the Ben Carsh property, they reported.

Mr. and Mrs. D. B. Scully Return from Trip

Mr. and Mrs. D. B. Scully of the D. B. Scully Co., pioneer Portland merchandisers of doors, windows, sash, etc., have just returned from an extended winter trip of over 10,000 miles. They spent considerable time in Florida, the great winter resort of the Eastern seaboard. From there they went to Cuba and revisited the old camp grounds at Pear Del Rio where Mr. Scully was stationed with the American Hospital Corps during the Spanish American War. Though Havana is the principal tourist resort of Cuba Mr. Scully contends that to see and know the real Cuba one has to visit the interior. He predicts that Santiago will also be a great winter resort in the near future.

Returning to Florida they were just in time to witness the Everglades fire that wrought so much destruction. Thence their journey carried them to New York and a preview of the Worlds Fair. It is a huge exposition but Mr. Scully says one can see everything shown in advanced science at the New York Fair, also shown at the San Francisco Exposition though on a somewhat smaller scale.

"Yes Florida resorts are fine" said Mr. Scully. "But I enjoyed my winter in California and Mexico two years ago better." "But Oregon is God's country," he continued, "and I would not trade it for anything I've ever seen anywhere."

South Solving Her Problems

Babson Optimistic on Southern Industries

Savannah, Georgia, April 21—After a Winter spent in the South it is hard to be pessimistic on this section even though cotton is selling for only eight cents a pound! Far from being Economic Problem Number One I think the South is Possibility Number One of the United States. Eliminate freight rate differentials, speed up the diversification of the farms, utilize the water-power developments, and Dixie can lift the United States into a period of business prosperity!

The South is making huge progress each year. The fastest-growing states in the Union are nearly all in the South. Texas, Florida, Louisiana, the Carolinas are boosting their populations about three times as fast as the North. Literally hundreds of communities that were unheard of ten years ago are thriving towns today. Every one of the chief cities in the United States whose populations have doubled since 1920 is below the Mason and Dixon Line!

Has One-Quarter of Industry

The story of the South's industrial growth is even more sensational. More than half the new factory developments of the entire country in recent years has been down here! Today, Dixie has over 25 per cent of the manufacturing establishments of the United States! And they keep mushrooming up everywhere. Northern concerns continue to flow toward the Gulf while entirely new industries are springing up all across the South. Reasonable labor costs, savings in fuel, nearness to raw materials, cheap power, low taxes, and water transportation are among the big sales points in the South's spectacular growth.

Latest news industry is newsprint. The first mill is under construction in Texas. It may be the forerunner of a southward trek of northern and Canadian newsprint mills. Shell pine is the raw material. It grows three times as fast as northern spruce. Other branches of the paper industry particularly Kraft—are going strong in Dixie. The southern chemical business is growing by leaps and bounds. Textile mills continue to multiply. Seventy per cent of our rayon output comes from the South. The center of the booming petroleum business is in the Southwest.

Steel Industry to Grow

The end of the so-called "chaotic point" price system for steel should help all southern industry. Once it was just as cheap to buy a ton of Pittsburgh-made steel delivered at Birmingham as it was to buy a ton of Birmingham-made steel. Now, the ton of southern steel is cheaper. Hence foundries, forges, stamping mills, and other metal fabricators that have concentrated around northern steel towns will find it advantageous to have branch factories near the southern steel industry. All Winter, Birmingham steel mills were much busier than those in the North.

Present freight rates are unfair to the South. Smash up these rates and the products of southern factories and farms can be laid down at northern doors at a real saving to consumers.

Tigard Contractor Builds Two New Homes

Ray Christensen, contractor and builder and owner of Tigard Planing Mill is building a modern house for Mrs. K. Manners at Seventh and Lombard streets in Beaverton which will be ready for occupancy about May 16th and a large modern house at Multnomah Golf course for C. E. Gasset. Mr. Christensen has built a large number of houses in this west side area the last few years. His force of men at the new planing mill are kept very busy these days. The mill is quite an asset to him as a builder as he can turn out the article needed in construction, such as just as he wants them and they are he is very exacting about these things.
