'Curiosity Killed Cat'

Traced to Older Saying

The saying "Curiosity killed the cat" is believed to be a corruption of the older saying "Care killed the cat." It is one of the sayings perpetuated more by sound than sense, writes a correspondent to the Boston Herald.

A proverb known in England and Scotland from time immemorial says that a cat has nine lives, yet care will wear them out. "Hang sorrow, care will kill a cat," occurs in "Christmas," a poem written by George Withers, who died in 1607. The same line is attributed to Ben Jonson, John Taylor and others.

This proverb probably referred originally to the fact that cats are frequently so petted and pampered that they sicken and die. However, cats are not usually thought of as being especially curious.

Why "Care killed the cat" was changed to "Curiosity killed the cat" is a puzzling question. One writer says a plausible explanation of this change is found in the fact that one of the figurative senses of "cat" is a human being who scratches like a cat, particularly a spiteful or back-biting woman.

The Little Things

Oh, it's just the little homely things, the unobtrusive friendly things, the "won't-you-let-me-help-you" things that make our pathway light. And it's just the jolly, joking things, the "never-mind-the-trouble" things, the "laugh-with-me-it's-funny" things, that make the world seem bright. For all the countless famous things, the wondrous record-breaking things, those "never-can-be-equalled" things, that all the papers cite, are not like little human things, the "every-day-encountered" things, the "just-because-I-like-you" things that make us happy-like. So, here's to all the little things, the "done-and-then-forgotten" things, those "oh-it's-simply-nothing" things that make life worth the fight.

Effect of Dust on Sunsets

Sunset colors are caused by the excess of rays of long wave length, red and orange chiefly, which pass more readily over the long path through the dense lower strata of the atmosphere, which must be traversed at sunset, than the short wave length, blue and violet, rays which are obstructed not only by the atmosphere, but also by dust particles and impurities suspended in it. The finest sunset colors are produced when there is the greatest amount of dust and impurities in the air through which the sunlight passes.

Cock of the Rock Clever

Dancer in Native Haunts

In the dense forests of South America through which flow the Amazon river and its tributaries, lives the cock of the rock, according to naturalists who have described him, the most beautiful bird in the world. He is a glorious creature, in a coat of bright orange, black-tipped wings and tail, and a marvelous double crest which runs backward from the tip of his bill, over the top of his head, like the ridge of a helmet.

To see them dance, relates a writer in the Michigan Farmer, you must peep through the underbrush in the dense shadows. If you are fortunate, you may see a score of birds in a natural amphitheater, the spectators gathered on bushes surrounding an open space in the center—the stage.

Here this radiant, feathered actor takes his place, and his solo dance begins. With lowered wings, and outspread, pumping tail, he walks round and round the stage, scratching the ground and springing into the air—the spectators in the bushes, meanwhile, giving every evidence of keen enjoyment of his act.

When he is tired, he joins the spectators, while another male takes his place on the stage. Nobody knows how long the dancing continues—probably until every young brave has done his stunt.

The show is all put on for the benefit of the shy little females, demure and brown, with small crests, only suggestions of the gorgeous ones of their mates.

The nest of the cock of the rock is like a robin's nest, but clings to the face of a boulder, hence the name—cock of the rock.

Name Timothy Is Traced

To Greeks, Writer Says

The name Timothy, of Greek origin, means literally "fearing God" but we interpret it as "honoring God," says Florence A. Cowles in the Cleveland Plain Dealer. Timothy, court musician to Alexander the Great, is the earliest noted bearer of this name. The Biblical Timothy was a disciple of St. Paul.

Timothy Bright (d. 1615) was the English inventor of shorthand (in 1588) but his system was only partly alphabetical and therefore inferior to later ones.

Timothy Dwight (d. 1817) was president of Yale college and his grandson of the same name (d. 1916) was president of Yale university. Both were clergymen and authors.

Timothy Pitkin (d. 1847) legislator and historian, was an authority on political history. Timothy O. Howe (d. 1883) was postmaster general in the early eighties, during which time postal notes were first issued.

Sir Timothy A. Coghlan (d. 1926) Australian statistician, wrote "The History of Labour and Industry in Australia," in four volumes.

Timothy Cole (d. 1931) won many honors as a wood engraver. Timothy M. Healy (d. 1931) was the first governor general of the Irish Free State and a notable leader.

How Lynch Law Got Name

Lynch law is the infliction of punishment on persons charged with heinous offenses by people not legally authorized to arrest persons and inflict penalties. It is said to have derived this name from John Lynch, a farmer of North Carolina, who, early in the Eighteenth century, exercised summary punishment—lashes, torture and even death, as he saw fit—upon fugitive slaves and criminals, either white or black, who at one time infested the Dismal swamp and sallied forth from time to time to prey upon the neighboring plantations. The colonial authorities of those days failing to pursue and recapture these desperadoes, John Lynch and his neighbors took the law into their own hands. There is a term of the same significance in England.

Church Notices

CHURCH OF CHRIST

A home-like church
E. E. Coulter, Minister
The morning worship next Sunday at 9:45 a. m. sermon subject "How to Have a great ingathering of Souls." The Bible study classes following the sermon at 11 o'clock. Classes for all ages. WHITFORD NEWS

Mrs. G. B. Thompson and Donna Lou, Mrs. Ghiletti, and Mrs. Polumbo attended the Whitford school picnic Saturday. The picnic was held at the Oaks park and the children and young folks enjoyed roller skating. The farmers in Whitford and vicinity have finished planting field corn for the silo this fall.

Carl Hansen, John Hohenstein, Pete Olsen, Jim Downing and Carl Olsen returned Sunday from a fishing trip to East and Sutter Lakes where they spent the week end. They brought home a good supply of fine mountain trout.

Mr. and Mrs. L. Ghiletti and three of their children and Mr. Ghiletti's mother visited Sunday with Mr. Ghiletti's sister in Portland.

A number from Whitford attended the Tigard Rebekah lodge Tuesday evening.

Ed Hansen went to Cathlamet Saturday to visit with his brother Harris and family.

Stella and Mary Jane Ghiletti attended a birthday party in Beaverton Sunday.

Miss Mary Jane Spurlin who has been quite ill with pneumonia, is able to sit up in bed. Miss Spurlin met with an automobile accident which resulted in pneumonia.

Miss Hattie Crittenden on Denny Road, visited friends and shopped in Portland Saturday.

Mrs. G. L. Keane, who lives on Denny Road in the home recently occupied by Mr. and Mrs. Starret, has been confined to her bed with illness. It is reported she is improving.

Mr. and Mrs. R. B. Denney and Lorraine, visited with Miss Ruth Denney at Corvallis over the week end.

"Check your list for this Week End . .

The 'Seven Cities of Cibola'

On March 9, 1538, Fray Marcos de Nizza, with another monk, a Negro and several Indians, left Culiacan, Mexico, in search of the fabled "Seven Cities of Cibola." After traveling some distance, he sent the Negro ahead with instructions to report on the progress of the expedition, using a curious method of communication. If the country he discovered was of ordinary size, he was to send back "a cross of a hand's length"; if of more importance, one twice that size, and "if larger than New Spain . . . a large cross." Soon messengers returned with "a cross as high as a man"—a prophetic symbol of the extent of the United States, the present boundaries of which they were to traverse. Cibola proved to be an Indian pueblo, probably that at Zuni, N. M.
