One of the big advantages of the lightweight Ford tractor is—less soil packing. Ground pressure of the tires is less per square inch than that of horses' hoofs.
Because the lightweight Ford tractor with its Ferguson system of hydraulically controlled wheel-less implements is so different, you're really got to see it in operation. We'll be glad to give you a demonstration.

Griffith Rubber Mills Offer Auto Tire Buying Direct to Consumer

The Griffith Rubber Mills, 22nd and Nicolai, in Portland, have many times in the past shown their knowledge and appreciation of the fact that Tualatin Valley Farmers and others depend on dependable transportation for business, shopping or pleasure. This applies to either trucks or cars. During many years past, this factory and distribution center has played a big and much appreciated part in supplying dependable, economical transportation to those living throughout the valley.

They feature the Griffith "Master Retread" Tires and are manufacturers, dealing direct with the consumer, at a big savings; and their merchandise is absolutely dependable. This factory is also retail distributor for the celebrated "U. S. Cord" tire, and the equally famous old time "G & J" tire. They also offer complete service on accessories, and operate a general service station for the convenience of their customers. Read their special Merchandise and Service news advertising each week in this newspaper. They are just starting a series of new announcements that will tell you of new features and special inducements for new and old customers. Ask about their new Credit Card, and their new Easy Payment Plan, where you make your own terms.
