Babson Says ---
Continued from Page 1

Another plan and one which is creating much interest in Southern California—our national political laboratory—is the Double Voting System. This gives one vote to every citizen over 21 and two votes to all citizens who pay taxes. This plan is being pushed hard by conservative elements in those states suffering from "Ham and Eggs" and similar economic diseases. Without doubt, this plan has merits if it can legally be put into effect.

Religious Test Proposed
There are other ideas today. Yesterday, a letter came to me from a group of ministers suggesting a sort of religious test for the voting privilege. Their plan is wholly denominational. Protestants, Catholics, and Hebrews—all would get the vote if they were members of the church. Yet, in the same mail I received a letter from a candidate for governor of a near-by state which shows clearly that a church membership test for the vote would not necessarily solve our troubles.

This candidate promises \$3 automobile license tags, \$40 monthly to the aged, free medical aid, no toll roads nor toll bridges, protection for small business men "now losing money," higher wages and lower prices. Among his "qualifications" for being governor, this man says he is "an active member of the Methodist church. With due respect to methodism, certainly this man's religion does not prevent him from making promises which he knows that he cannot fulfill.

No "Church Front"
In this connection, let me say that methodism, as a whole, presents a sorry picture at elections. On the first Sunday of November, 1940, over 8,000,000 Methodist Church members will sing the same hymns, read the same Bible, and say the same prayers. On November 5, they will go to the polls and vote 4,000,000 for the Republican candidate and 4,000,000 for the Democratic candidate with a scattered few for the Prohibition candidate. Members of most other church denominations will do the same.

As a result, the political leaders at Washington and elsewhere need give no heed or thought to what church members think or want? Notwithstanding this, I still say that the only hope for democracy is a sane spiritual revival. The churches should lead in this revival. They have the potential power, the people, and the plants. They are tax exempt and

possess great endowments. They, however, must again preach the Cross and the necessity of sacrifice. Our churches will never get to first base by imitating popular service luncheon clubs!

"Deals" Not True Answer
The Republicans claim that if the Administration would only "unshackle" business again, giving it freedom from unnecessary regulation and high taxes, then unemployment would vanish. Yet, business was thus free over 30 years previous to the panic of 1929—the latter coming in a Republican Administration. The Democrats argue that if the Administration would only further "increase purchasing power" by forcing wages higher and prices lower, then unemployment would vanish. Yet, the Administration has done this for nearly eight years and we have as much unemployment today as ever.

The truth is that no legislation—Old Deal or New Deal—will succeed in putting people back to work until the purposes, ambitions, and motives of people are changed. People of all groups—rich and poor—must be taught by churches, schools, movies, radios, and newspapers:

- (1) That only as more is produced is there more to divide.
- (2) That the failure to use the idle money, idle labor and idle machinery now existing is as wicked as to plow up cotton or kill little pigs.
- (3) That loafing is a sin for both the rich and poor.
- (4) That their future rests with raising the total national character and income.
- (5) That the only fair unemployment legislation would be to "quota" the unemployed on industry, giving some tax or other rebate to employer of said "quotas."

It's as true today as it was 2,000 years ago—"As a man thinketh in his heart, so is he."
