Trouble with the war game, the way the President plays it, is that we have to watch HIS propaganda just as closely as we do the kind from abroad.

Enrollment Open For CMTC From July 2-31

The Citizens Military Training Camp will be held at Vancouver Barracks, Washington, this year during the period from July 2 to July 31, according to word received here this week.

The benefits derived from attendance at these camps are secured without necessary expense to the trainee, as the war department provides transportation to the camps and return, board, lodging, expert medical attention, uniforms, equipment, arms, and laundry.

Transportation tickets for travel will be issued all accepted C. M. T. C. applicants living more than 50 miles from camp and the applicant reimbursed 1 cent a mile for meals upon arrival at and departure from camp. Those applicants living within a 50-mile zone of camp may be granted the mileage privilege.

Boys entering camp must be between the ages of 17 and 29 years of average general intelligence, able to read and write, and be of good moral character.

Applicants desiring to enroll should send inquiry in the form of a letter, post card, telephone or personal call to the office of the T. M. T. C. officer, Vancouver, Barracks, Wash.

WEST SLOPE and WEST HILLS

John Pointer has sold his home and is now busy building him another. Johns greenhouses and adjacent property were not included in the sale.

Mr. and Mrs. Edw. S. Davis have returned from a short stay in Seaside. They weren't very successful at fishing but brought back the limit of eels. He reported the Wolf Creek road in fair condition.

Mrs. Genevieve Clark has arrived in California for a tour of that state. As the California Chamber of Commerce would say—to bask in the sun shine. We say to the land of torrid heat and floods.

The West Slope Water district are working at double speed to get the fire hydrants connected. There has been some talk as to whether the Fire Underwriters will accept this type of hydrant. If they do we will have a reduction in our fire insurance rates.

The West Hills soft ball team have succeeded in obtaining a playing field in the old Multnomah Golf course. The team will soon be ready for practice games. We would like to see the community give them a little support. This team belong to you as residents of this community, you have a right to step in and help right mistakes which are bound to occur.

Mrs. Bert Wilson is a member of the Portland Country club where she ranks quite high on the ladies golf team.

The Charles Dais's are having their property landscaped and a lawn seeded. Last winter a retaining wall in the back yard gave way and caused considerable damage.

J. Owens promoter of the Benz park area has several houses under construction. Still he has six more houses sold than he has built. He looks forward to a boom in property in this area. We have more to offer a prospective buyer, such as Portland telephones, Bull Run water and Portland Electric power. Also a ten cent bus fare with a half hour service and high school busses to Beaverton.

Facts Concerning Minerals In Soil

For years we have relied upon manures, phosphates, nitrate and so-called fertilizers to build up our soil and find it is becoming less productive each year. Cover crops and summer fallow fail to solve the problem. Our apples are flavorless and will not keep as they used to do, pears are becoming smaller and knottier each year, berry fields produce half crops, the wheat and alfalfa yield is falling fast. Even our nut trees are producing blanks. The reason for all this is LACK OF MINERALS.

A corrective that has shown sensational results on run down soil is McKenzie's Soil Re-Vitalizer distributed by John H. McKenzie with store and warehouse at 2315 SW 1st avenue, Portland, BE. 3995.

Proof of some of the amazing results obtained is found in letters from satisfied customers.

Johnson & Olson Feed Co.
Portland, Oregon

Mr. John H. McKenzie—I used your mineral Plant Food on my lawn and must say it is the best I have ever used. I want to handle it for you.

Mr. Godfrey B. Wettstein, Landscape Architect at Lincoln Memorial Park in Portland, states that while traveling and studying in foreign countries, he could not find a suitable soil building and plant food material until it was presented to him here, and now he writes as follows:

"Were it not for the soil building and plant food material I have bought from you during the last three years I could not have obtained the results and satisfaction I and many others so greatly enjoy. Your Soil Revitalizer is the one product for which there is no substitute, nor have I ever found an equal."

I am going to use a lot more of this material on lawns, flower beds and shrubbery. Since your Soil Revitalizer is an alkaline forming product, agriculture, especially truck farmers, can greatly benefit by its use. I can heartily recommend your Soil Re-Vitalizer to all who wish to improve the quality of their soil and products."

Mr. Fred Kaster, for 26 years superintendent of the Star Canning Company, Portland, Oregon:

"After giving these minerals a test during a period of almost eight years on filberts, berries, apples, pears, alfalfa, etc., I feel that we have found the right thing to renew our soil and produce food of exceptional quality. I cannot recommend your Natural Mineral Plant Food too highly, especially the berry and fruit growers who desire to grow a quality product."

Mr. Fred Edmunds in charge of the Official Test Gardens of Portland, Oregon, for a number of years, after using many tons of our Natural Mineral Plant Food, writes as follows:

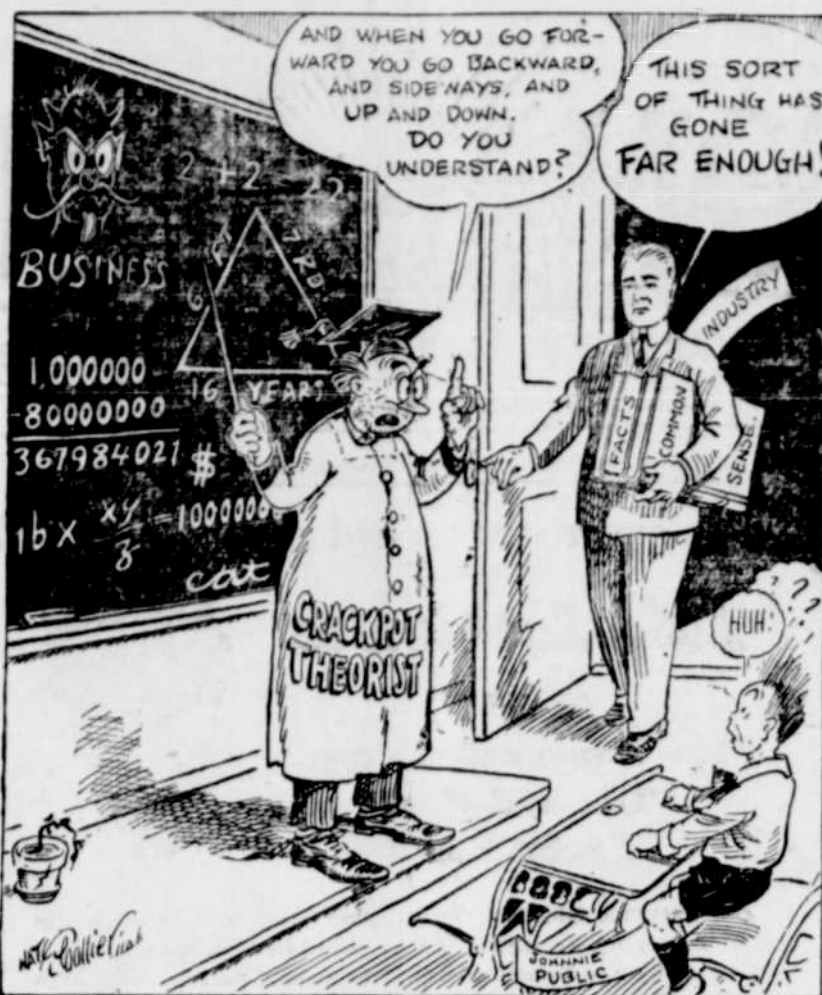

"I am informed that there is a City Ordinance which prohibits me from expressing an opinion of your Mineral Plant Food which we are using in our test gardens. After a personal trial of them at my home, however, I am recommending them to my friends as an ideal soil conditioner, especially in heavy clay and for correcting acidity."

Mrs. Anna M. Jaeger of 335 NE 63rd Avenue, who owns an eight acre raspberry farm at 10449 SE Market Street, Multnomah County, Oregon, writes as follows:

"I do not hesitate to recommend your Mineral Plant Food to any one who wishes to improve the quality and yield of their berries. I believe what you say that healthy plants are like healthy people, they do not contract diseases. In past years I have used many tons of fertilizers recommended by various agencies and I found none of them satisfactory. Although I used only 3 1/2 tons of your mineral Plant Food on my eight acres, which is only about one-third of what I needed, produced a bigger crop and better quality of berry than in previous years. Also the canes are much larger and stronger for next year's crop. Rust and other diseases also disappeared. I have my doctor to thank for recommending these minerals and I am writing this letter in hope that I may be of some assistance."

GEMS OF THOUGHT

GRATITUDE

Gratitude is not only the memory but the homage of the heart—rendered to God for His goodness.—Willis.

Are we really grateful for the good already received? Then we shall avail ourselves of the blessings we have, and thus be fitted to receive more.—Mary Baker Eddy.

Our thanks should be as fervent for mercies received as our petitions for mercies sought.—Charles Simmons.

He that urges gratitude pleads the cause both of God and men, for without it we can neither be sociable nor religious.—Seneca.

He enjoys much who is thankful for little; a grateful mind is both a great and a happy mind.—Secker.

What Will a 2-Mill P.U.D. Tax Cost You?

Washington County Taxpayers Could be Forced to
Shovel \$224,620 in 5 Years into a P.U.D. Tax Trough!

... without even a confirming vote by the people!

Washington County citizens are expressing their shock at the revelation that P.U.D.s in Washington State have already milked taxpayers of \$903,000 of added taxes... with hundreds of thousands of dollars going for fees to lawyers, engineers, and other so-called experts.

Do you want a repetition of this tax-spending in Washington County?

Remember, a Washington County P.U.D. could force taxpayers to shovel \$224,620, in the next 5 years, into the P.U.D. tax trough!

And how might this money be spent? This sum is designed to get the P.U.D. "organized"—offices rented, lawyers retained, lawsuits started, etc., etc., etc.

The actual operation of an electric utility system would come later—maybe years later, maybe never.

Cowlitz County, (Washington) P.U.D. No. 1, after months of costly litigation, just two weeks ago lost their federal court battle to condemn properties of a private company. The jury set the fair value of the properties at almost twice as much as the P.U.D. had expected to pay. As a result directors of this P.U.D. have decided to defer further acquisition proceedings.

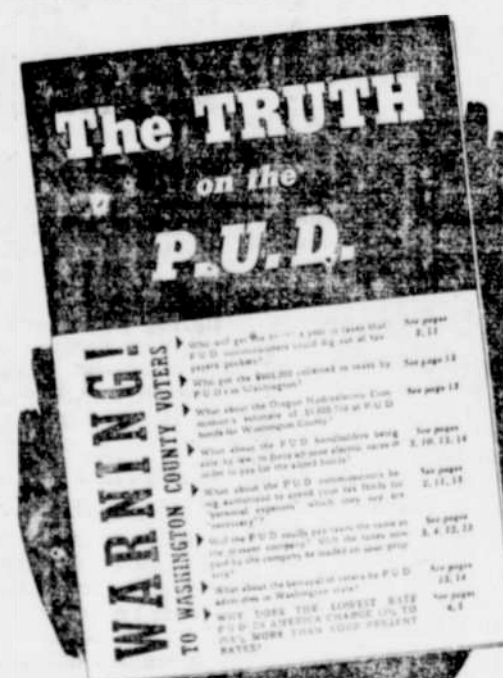

The proposed Washington County P.U.D. couldn't really get into the electric business until it induced voters, at a later election, to approve hundreds of thousands of dollars of bonds to pay for a distributing system. Meanwhile, the P.U.D. commissioners can collect the \$224,620 in five years for "organizing".

Home-Owners Will Pay; Renters Will Pay

Nobody will escape the added tax burden if a P.U.D. is set up. People who rent homes and farms will pay—because when taxes go up, rents go up. When the landlord has to pay higher taxes, he collects

them from his renters. Before you vote, figure out what the 2-mill P.U.D. tax will cost you.

Your present electric rates are lower than any P.U.D. rate anywhere. Our present rates are 13% to 29.6% cheaper than the lowest P.U.D. rate in the United States.

Did you know that State and Federal regulation of rates in Washington County will go out the window if a P.U.D. comes in? Did you know that P.U.D. bondholders could, by law, force up your electric rates? What about the Attorney-General's ruling that the public can't make a P.U.D. pay taxes on its property? Will the taxes now being paid by the PGE within the boundaries of the proposed district be loaded on your property? Get the facts on the P.U.D. by studying this pamphlet. For free copy, telephone, write or call—
