Hand Painting of China

Stages Current Revival

China painting, an accomplishment boasted by almost every young woman around 1900 when it was at its peak, is coming back, says Mrs. Jessie L. Wood, Michigan artist.

"China painting is being taught in the schools and more space is being devoted to it in the art magazines," says Mrs. Wood, a veteran teacher of china painting, but now a painter in oils. "But in 1900 we did mostly flowers. Now the work is in conventional designs."

"It's true there were some horrible things perpetrated in the name of art by some of the china painters, but probably the fad served a good purpose in arousing an interest in art and making the young girls appreciate paintings they saw. Mineral paints are used and china is a difficult medium on which to work because of its rapid drying. The painting was dried in kilns and the colors were always changed by the heat. Some results were lovely. I still have a set of china and many painted pieces from that time."
