FLAG OF OUR COUNTRY

A few weeks ago, Americans celebrated Flag Day.

It is an occasion that has been duly observed since 1895, but we doubt whether, in the 45 years of its existence, the day has taken on a deeper meaning than it did this time. Events in Europe have brought about a new awakening of our national consciousness. Inevitably, therefore, the flag has again attained its true proportion as a symbol of America—America, something more than a mere name on the face of the globe; America, a single word that embraces the concepts of material welfare, spiritual dignity, and human freedom, ideals nearly extinct in so many other lands and in so many other human souls.

It is only natural in these troubled times that the average citizen of this country should pay particular reverence to the nation's flag. But it would be wise, too, if we remembered during all the other days of the year that this emblem of our security and our welfare is just as important. Flag Day, 1940, will have attained its fullest meaning if we retain the spirit we display at that time in our waking moment, every day of the year.

MOTIVES

It is motive alone that gives character to the actions of men.—Bruyere.

Right motives give pinions to thought, and strength and freedom to speech and action.—Mary Baker Eddy.

He that does good for god's sake, seeks neither praise nor reward, but he is sure of both in the end.—William Penn.

The morality of an action depends upon the motive from which we act.—Samuel Johnson.

In the works of man as in those of nature it is the intention which is chiefly worth studying.—Goethe.

The measure of a man's real character is what he would do if he knew he would never be found out.—Macaulay.

Protective Foods

A research made by the National Dairy Council shows that three billion dollars are lost in money and time annually in the United States because of a million and a half daily colds and related diseases during the winter. Rather a staggering sum! Good nutrition of the body as a whole, as well as excellent general physical condition, combat infection, report physicians and nutritionists.

with a MYERS WATER SYSTEM

CAPACITY is as important as **RELIABILITY** in a water system. MYERS gives you both. You may open one faucet at a time; or different members of the family may draw water simultaneously—in kitchen, bathroom or laundry—at outside hose taps—in barnyard and outbuildings. There will always be plenty of water at all faucets, when you have a precision-built MYERS Water System of adequate capacity. Quality is never sacrificed to price in MYERS products. The dependability of MYERS Water Systems is proved daily in thousands of farm and suburban homes.

Apostolic Faith Camp Meeting to be Held From July 7 to Aug. 11

The 34th Annual Apostolic Faith Camp Meeting will open Sunday, July 7, at the Apostolic Faith camp grounds, SE 52nd and Duke Street, Portland, Oregon. This is a national evangelistic campaign carried on each summer by the Apostolic Faith church and hundreds of visitors attend from all parts of the United States and Canada. Last year twenty-two states were represented, several provinces of Canada, Central America, New Zealand, and British West Indies. Rev. R. Robert Crawford, general overseer, is in charge. He will be assisted by a corps of ministers and evangelists.

These yearly summer sessions are held for the purpose of creating and inspiring a love for the old-time religious faith as set forth by the Apostles in Bible times. Congregational singing and personal testimonies are a part of each service and are followed by an evangelistic message which is intended to show men the way back to the "Faith of our Fathers."

The Apostolic Faith camp grounds provide an ideal place for the encampment. It is a ten-acre tract located at the southeastern edge of Portland. A 225-foot well furnishes water for the many drinking fountains, the water faucets, rest rooms, shower baths, and laundry. The large tabernacle seats 2500 people with room to add benches when necessary.

During the five weeks of the meetings hundreds of families from Portland alone move on the grounds for the duration of the camp. Also hundreds of tents are put up and furnished for the visitors. (This year 200 new quilts were added to the 1500 which are provided for the visitors alone). A fire department, fully equipped with fire-fighting apparatus is on the grounds. A grocery store, meat market, and a restaurant are maintained on the grounds.

An outstanding feature of the Camp meeting is the music by the 75-piece symphony orchestra under the direction of Napoleon Dufresne and the organ soloist and accompanist, Miss Lena Helen Ediger.

The 100-voice chorus, 30-voice choir, Men's chorus, Morning Star quartet, and other singing units and soloists render inspiring special songs during each of the services. For Saturday evening, July 13, Rev. Crawford has arranged a musical treat, the 75-piece orchestra and 100-voice chorus will present an entire evening of music which will include symphonies and lighter classics.

An Apostolic Faith printing plant just finished a new song book containing 250 old and new songs which has been compiled by Rev. Crawford in time for use at the camp meeting.

Special features of the camp are the Bible teachings held each afternoon at 2:30 (except Monday and Saturday) when Fundamental Bible Doctrines are taken up with the aid of Scripture references. Young people's services are held each Tuesday and Friday at 10:30 a. m. Evangelistic Services each evening (except Monday and Saturday) at 8. Prayer service each morning at 10 o'clock.

The public is most cordially invited to all meetings. And according to Apostolic Faith rules, no collections are ever taken.

Salt Money

The word salary finds its origin in: Salarium Argentum—a Roman soldier's allowance for essential salt. Salt is so all-important to the human body that, to stay healthy, each person requires about six pounds of cooking salt annually. In warfare, it is known that Napoleon owed his defeat before Moscow to the loss of his salt supply. Thousands of men died whose wounds refused to heal, and whose systems seemed to invite rather than repel disease. Salt is often carried by savages and offered to each other to lick much as Americans offer a chew of tobacco.

P. S.: The Coon Escaped

A serio-comic incident occurred in the woods of Delaware recently, reports the National Wildlife federation. A hunter and his dogs treed a coon and the hunter shinned up the tree to dislodge the animal. He shook the tree so violently that he knocked himself off his perch and fell to the ground. Latest reports indicate that the coon got away.

seeker should not count on foreign trade opportunities.

Opportunities Selective

So far this is a pretty dismal outlook, but balanced against the uncertain picture of America's economy as a whole are definite opportunities in selected industries. Here are a few:

1—CHEMICALS: Most chemical companies are prosperous and have a tremendous future. Great developments are taking place in the plastic industry particularly. The future of fers unlimited opportunities—war or peace, Fascism or Democracy, New Deal or Old Deal.

2—AVIATION: The industry is America's youngest, America's most hopeful. The day is not too distant when it will be as cheap to ride the airways as the railways and the highways. Those interested in commercial piloting should enter through the air corps. But the industry needs more than pilots—it needs young men to grow up with it in its vital administrative work.

3—BUILDING: One of the greatest contributions of the new deal to the American scene is its attempts to put homes in the reach of small income brackets. It has solved the problem of financing and it is now attempting to solve the problem of high costs. Despite the uncertainties that war always brings to home building, I believe that building, its products and trades offer real opportunities.

4—MERCHANDISING: America still needs better salesmen. This includes stores, mail order, advertising and personal selling. Whatever goods are made, or whoever makes them, they must be sold, irrespective of the value of the dollar or the character of the government.

5—DEFENSE: The army, navy, air force, coast defense need able young men make defense their career. The past 25 years clearly show that disarmament is a snare and a delusion,—that this country must not be caught unawares as were France and Great Britain in 1938.

Must Make Opportunities

I am attending a Convention of Fire Chiefs—men who never consider themselves and have no fear of danger. I cannot help thinking but that they have the key to real success. It is true that today there are new conditions to combat, that competition is very severe, and that 1940 graduates cannot depend on government aid, relief, or artificial crutches of any kind. Those, however, who make up their minds to work harder and longer hours, to follow the New Testament's command—"to give full measure, pressed down and running over"—those graduates will make opportunities for themselves which will lead to more in the end than they ever hoped.

In short, the future of the 1920 graduate depends upon what is in him. Opportunities? Yes—but the opportunities of today are in the development—not of the character of the land but of the character of the man.
