

BEAVERTON ENTERPRISE

LARGEST CIRCULATION IN EASTERN WASHINGTON COUNTY

VOL. 13, NO. 19

Beaverton, Oregon, Friday, August 16, 1940

\$1 Year—Published Weekly

Registration of Aliens To Start

Failure to Comply with Regulations Draws Penalty

Registration and finger-printing of aliens will start in Oregon on August 27 and continue to December 26, it was announced Wednesday.

Registration in this vicinity may be made at the Beaverton, Hillsboro, or any other first class postoffice.

In Portland registration blanks and printing equipment will be available at the main postoffice, NW Broadway and Glisan street; east Portland station, SE 7th avenue and Yamhill street, and at central station, SW Broadway and Main street.

The alien registration act compels all aliens 14 years of age or over to register and be finger printed and parents or guardians of those under 14 years old must register for those children.

Failure to register or refusal to submit to finger-printing or giving false statements carries a penalty of a \$1000 fine and six months imprisonment.

Those registering will be required to answer 15 questions, all of case history type, concerning their birthplace, time of residence in the United States and military service record, if any.

According to the 1930 census revealed there were 37,120 white aliens more than 21 years of age, residing in Oregon. Of that number, 20,525 were living in Multnomah county, 2154 in Clatsop county and 1778 in Clackamas county.

4-H's in Electrical Projects Offered Medals Trips, \$1200 Scholarships

Farm electrification will be stepped up throughout Oregon this year through the acceptance by the State Extension Service of the National 4-H Rural Electrification Contest. Full particulars may be secured from the local county extension agent. It is being participated in equally by 4-H members on farms with and without electricity.

The contest is aimed to encourage and assist boys and girls to conduct a study of the values of electricity to a community, to determine practical uses in their homes, to do their part in adding to the convenience and efficiency of the farm and home operation, and to develop an understanding of how electricity may be utilized in producing light, heat, and power.

Many communities have benefitted by past activities of clubsters in this line, and in a number of cases county rural electrification committees have been organized as a result of 4-H sponsored lectures and exhibits.

The contest offers gold medals for county winners and all-expense trips to the 19th National 4-H club congress in Chicago Nov. 29 to Dec. 7 for top State records. Six college scholarships of \$200 each are provided with the other named awards by the Westinghouse Electric and Manufacturing Company for a national blue award selected from State winners.

Gresham Fair to Open Monday with "Kids' Day"

Gresham, Oregon, Aug. 16—(Special)—Joyful cries of excitement and thrill from the throats of thousands of happy-faced school children, Monday, August 19, will herald the opening of the 34th Annual Multnomah County Fair here, scheduled to run until Sunday night, August 25. As they've done on opening days for several years past, the kids will literally take charge of things on the expansive exposition grounds. Not only will they be guests of the fair association, but they'll take part in the big program arranged by County School Superintendent Roy E. Cannon.

Followers of Dr. Francis E. Townsend's long-famous old age pension plan will swarm into the fairgrounds Saturday to hear an outstanding proposition of their cause. A. H. "Bert" Lea, fair secretary manager, indicated that the name of the speaker for the occasion will be announced shortly. Other honor guests on that day will be county Pomona Grange members and Oregon City and Clackamas County residents. Sunday has been named Fraternal Day.

Funeral services were conducted Sunday for John Lawrence Draper, father of Sister M. Monica of Beaverton.

Mr. and Mrs. Pat Barry and family and Mrs. Phineas McDermott visited friends at Dallas, Oregon.

Six Injured in Aloha Accident

Six persons were treated at hospitals early Sunday after a two-car collision at Aloha. Donald MacKinnon of 2915 North Commercial street, driver of one car went to the county hospital at Hillsboro with a scalp wound. Passengers in the same car who were injured, Loretta Berebrick, 15, of 3228 N. Kerby street, a lacerated wrist, June Ferguson, 15, of 3218 N. Borthwick street, abdominal injuries, and Lloyd Lawbaugh Jr., 19, of 18 N. Monroe street, treated for hand injuries all were taken to Emanuel hospital. Two other passengers in the same car, Victor Litzewald, 17, and Sam Ell, reportedly were not hurt.

Beryl Sipe, driver of the second car was unhurt, injured passengers were Evelyn Kushman, 21, of Forest Grove, suffered a fractured jaw and face cuts and George Sipe, Beaverton, treated at Emanuel hospital for lacerations of the nose.

Kiwanis and Ladies Hear Interesting Talk By Col. Jack Major

Col. Jack Major a Union Oil Good Will messenger, of the radio fame, visited the Beaverton Kiwanis at their regular meeting Friday, August 9. "Now there is a true story" started it and he was off. The stories may have been true originally but they were inflated a little for earnest listeners. The Kiwanis and their ladies enjoyed the stories very much.

The visitors of the evening were Miss Waldele of Portland, Howard C. Belton, E. Silke, C. E. Johnson, T. H. Arestad and G. J. Gates of Canby, Miss.

Myreen Pumroy, queen candidate for the County Fair at Hillsboro visited the Kiwanis at their regular meeting Aug. 14. She is a graduate from the Beaverton high school last May, and is sponsored by the Aloha Grange for candidacy.

After their meeting the Kiwanis played a game of softball with the West Slope Improvement club. The West Slopes won 1 dozen to Kiwanis 5-12. Leonard Adams was mowing short stop, he caught a fly. Ted Emerson made a long run to second base but couldn't stand the pace.

Large Scale Harvest for Quick-Freezing Gets Underway in Oregon

Rapid increase in public demand for quick-frozen fruits and vegetables is benefitting Oregon agriculture. Active center of this industry is Hillsboro, Oregon, where B. E. Maling, Inc., have just finished harvesting and quick-freezing \$6,000 acres of peas which were planted under contract with the Frosted Foods Sales Company, distributors of Birds Eye foods. Other large scale quick-freezing operation for Birds Eye at Hillsboro include cauliflower, wax beans, green beans, Brussels sprouts, and squash.

These operations for Birds Eye will continue throughout August, September and October. Modern high-speed equipment makes it possible to harvest and quick-freeze crops in the same afternoon.

Sixteen Aliens Appear for Preliminary Hearing

Sixteen aliens seeking United States citizenship, appeared Tuesday for preliminary hearing before Victor S. Hemmen, examiner of the immigration service. Nine of the applicants were from Canada, three from Germany, one from Finland and three were rejected on technicalities.

Mrs. Edith Anne Taylor and her daughter, Daisy Taylor Masters, of Beaverton, were among the Canadian group.

Larceny Charge Brings 30 Day Egg Sentence

William Carl Pickens, 42, of route 2 Beaverton, is serving a 30 day sentence in Washington county for larceny charge; Pickens is alleged to have entered the egg cellar of a Mrs. Zitzman Monday taking ten dozen eggs, according to Deputy Sheriff Ireland.

4-H Club Girls Tour Planned for Thursday

A tour for 4-H club girls will be held August 22. This group will meet at the courthouse at Hillsboro at 8:50 a. m. and on tour at 9. The group will enjoy a bag lunch at Shute Park during the noon hour.

All 4-H girls, mothers and leaders are invited to attend. Each club is responsible for their own transportation.

Six Persons Injured in Aloha Two-Car Collision

The wrecked automobile pictured above is evidence of the force with which cars driven by Donald MacKinnon, 2915 North Commercial St., and by Beryl Sipe, 22, of Beaverton, route 1, came together at Aloha early Sunday, sending six to hospitals for treatment. Courtesy Oregonian

Says Education Very Important

Erb Urges Students To Return to College

Young men of university and college age living in and near this district especially those who have not yet reached their 21st birthday, should not hesitate to go on with their education this fall, Dr. M. Erb, president of the University of Oregon, declared recently.

Reports have been reaching Dr. Erb that many students and others who are prepared to enter institutions of higher education are undecided what to do this fall, due to the military situation of the United States. Some are considering joining a military or naval unit, while others are awaiting definite congressional action on conscription acts.

"Young men who have the interests of the country at heart should investigate the possibilities of college and universities," Dr. Erb stated. "While we have no assurance that students will be exempt from conscription, it is possible to gain a considerable knowledge of military fundamentals from R.O.T.C. courses, while others will have the opportunity of learning how to fly through the facilities of the Civil Aeronautics Authority."

"Even though their studies may be interrupted later by voluntary or conscript service in the army, the students will be able to return and pick up where they left off when their military service is over."

The military training given in R.O.T.C. units prepares students to be officers, a field in which they can be of utmost service, President Erb pointed out. Those who have only a year or two before completing college or university work should especially keep this in mind.

Registration at the university and at Oregon State College, state-owned institutions where R.O.T.C. units are maintained, will take place September 27 and 28, with classes scheduled for September 30. For entering students "Freshman Week" will precede registration.

Field Meeting Thursday at David Hagg & Sons Farm

The effect of fertilizer applications made on alfalfa, especially boron, will be discussed at a field meeting to be held at the David Hagg & Sons farm, one mile south of Reedville, August 22 at 1:30 o'clock.

Yellow-top, which is one of the common causes for decreased yields in alfalfa, has been checked by the application of boron, reports Palmer Torvend, assistant county agent. For three years various fertilizers have been applied to alfalfa on the Hagg farm and the results from the plots checked. The results on the third cutting will be observed and discussed at this meeting. On the Hagg farm the yields have been materially increased by the control of yellow-top.

The League of Women Voters will hold a board meeting August 19 at the Hillsboro Pharmacy at 12:30. On Monday, August 26, the club will hold their regular monthly meeting at Forest Hills Country club. All new voters are invited to attend this meeting as election and how to vote will be discussed.

Mary Schainck Leading Harvest Queen Contest

Harvest Queen candidates for the Washington County Fair August 29, 30 and 31 in Hillsboro, held the same relative positions at the close of the second weekly check up.

Candidates standing:

Mary Schainck	334,000
Margorie Eby	311,000
Myreen Pumroy	125,000
Donna Fletcher	74,000
Erna Staehle	65,000

The girls will receive prizes including a diamond ring, two gold wrist watches and two bracelet and locket sets. There also are two prizes for sponsors, including \$50 for sponsor of the queen and \$25 for sponsor of first princess.

An elaborate ceremony and pageant to be given by the Washington County Granges under the direction of Mrs. H. H. Stannard.

Palmer Torvend Guest Speaker at Huber Garden Club Tuesday

The Huber Garden club held its regular meeting Tuesday evening, August 13th.

The presidents desk was beautifully decorated with red dahlias, zinnias and white delphiniums.

Palmer Torvend, assistant County Agent of Washington County, was guest speaker.

He gave a very interesting talk on the preparation of the soil, seeding, fertilizing and effective methods of pest control.

H. Jacobson of the Oregon Seed store in Portland, answered questions on what kinds of flower seeds to be planted this month.

The meeting adjourned at 9:30 after which refreshments were served.

Thirty three members were present.

Poultry Demonstration Scheduled Tuesday

A poultry culling demonstration will be held at the Gerald Avery farm, August 20 at 9:30 a. m., according to Palmer Torvend, assistant county agent. N. L. Bennion, extension poultryman, will assist in the demonstration. Other poultry problems will also be discussed by Mr. Bennion. The Avery farm may be reached by going 1 mile south from Tualatin on the Wilsonville road and then one-half mile east. All poultrymen are invited.

Prison Has Playgrounds

A "model prison" was opened in Venezuela incorporating cells with adjoining baths and free circulation of air; playgrounds, orchards and ample ground for development of a vegetable garden.

This city, with 9,000 population, has watched the construction of the model prison with interest, inasmuch as there is not a hotel in the entire state of Yaracuy, of which San Felipe is the capital, which can boast of rooms with bath.

Construction of the prison was ordered by Gov. Luis Felipe Lopez of Yaracuy as an experiment in rehabilitation of criminals.

The model prison is the first of its kind in Venezuela, and students of penology will study its effect on prisoners.

Shirt makers of Northern Ireland have been asked to submit prices for 2,000,000 British Army shirts.

Fair Pageant is More Impressive

Forty Members of Granges And Clubbers have parts

More impressive than ever, the story of the Harvest Pageant of the Washington County Fair was unfolded this week by Mrs. H. H. Stannard under whose direction the event will be staged.

Washington County Grangers and 4-H club members numbering 40 persons will take part in this year's pageant including all characters and drill team. The pageant is preliminary to the crowning of the Harvest Queen Thursday night, August 29 at 9 o'clock.

Both last year's court and the new queen and princesses in their glowing gowns of fall colors will participate.

The pageant opens with Queen Persephone II ruling over the court of Winter, which marks the climax of her reign. She will be accompanied by her four princesses as the symbols of winter appear for the approval of the queen.

Interwoven in the story are the nine Muses who play a very important role in the activities of the Court, while the Fates also guide the destinies of the symbols upon whom the success of the Golden Age depends.

It is said that snowflakes change to daffodils; and to them the retiring queen entrusts the crown and bids them search for the very beautiful spirit who is the queen of the coming harvest season.

Mercury acts as advance messenger, and the pageantry of "Spring" holds sway over the coronation ceremony of the new queen.

The Fates and Muses, appearing in various guises, present the Sowing, Reaping, Cleaning and Angelus scenes and tableaux, climaxed by the pageantry of the Harvest.

Non-High Board Meets Tuesday at Hillsboro

Parents of non-high district children are invited to present questions at the meeting of the board Tuesday August 23rd in the office of O. E. Kraus, county superintendent.

Problems cleared at the last meeting were renewal of bus contracts for Tigard, Banks, and Forest Grove high school for the coming year, the re-entering of tuition contracts with county high schools, according to Mr. Kraus.

Beaverton Lad Selected For Training Course

The quota of Class V-7 Naval Reservists for the training cruise commencing August 19, 1940, has been limited to twenty men from the Portland area it was announced by Lieutenant Commander L. B. Stuart, Navy Recruiting Officer for the Portland Prescidence District.

Prescidence was given to those men who indicated a desire to go ahead with the full four months training over those who had indicated a desire to complete only one month training and then return to school.

Clarence James Zurcher of Beaverton, and Alton Pratt Chase of 11048 SW Collins Ave., Portland, were chosen from this district.

Mrs. Leonard Adams and children are spending a couple of weeks with her parents in Eugene. During her absence Mr. Adams is having some remodeling.

Miners Worried Over Outlook

Silver Buying Program Must Go

Denver, Colo., Aug. 16—If Germany wins the war, America's gigantic mining industry is in for a rough ride. The real prosperity of our mines has depended on foreign markets. We cannot begin to consume as much as our huge mines can produce. The last ten years have been tough enough, but with Germany out "to get" us in world markets, there is hard sledding ahead for United States copper, zinc, and lead producers, while the silver people are in for an even tougher spot.

This is the consensus of opinion among people with whom I have talked here in the mining country. It explains the unenthusiastic following for metal and mining securities in recent weeks. People are afraid that prices are going to even lower levels than at present despite our defense program. Stocks of the leading non-ferrous metals are very heavy. Production is still outstripping consumption and prices of metals have been among the weakest of commodities since the war boom blew up in Wall Street last September. Worries over the future price trend of the American metals are the basis for weakness in the price of metal stocks.

Silver is in an especially vulnerable position. We are still buying foreign silver at the world price and are purchasing millions of dollars worth of the domestic white metal at about twice the world price! The Treasury has tons and tons of the metal on hand—a big enough supply to cover our industrial uses for years ahead. The silver purchase program of the government is uneconomical and unsound. There is no more reason why the government should pay a fixed price, far above the world price, for silver than for any other United States commodity—wheat, apples, aluminum, or oil.

With the pressure on Congress to cut out all unnecessary expense, this silver-purchase program will be under fire. Certainly, we ought to stop buying foreign silver, which has been helping to finance foreign governments without mutual benefit to us. The whole silver-buying idea has been one grand cost. One wild scheme which has cost the taxpayers \$1,000,000,000 since early 1934! With a \$14,000,000,000 defense program to finance, we cannot afford to continue to ladle out that kind of money to any group or to any minority—no matter how powerful their influence. When the Treasury stops paying 71 cents an ounce for silver, many a mine in this country will have to fold up.

That is the darkest side of the picture. There's another side—a brighter one. Copper, zinc, and lead are all vital raw materials for industries. In spite of the fact that new plastics are invading their fields, there is a big demand for these metals when business is good in the United States. The demand is biggest when the heavy industries are booming. America is now embarking on the biggest defense program in history. Few people yet realize the tremendous supplies of metals that will be used in this armament program. Hence, even if our export markets are cut off, our defense program will
