

### Washington County Dairymen Get Wide Range of Advice at Meeting

"Get your feet braced" was the advice P. M. Brandt, Head, Division of Animal Industries, O. S. C., handed out to Washington county Dairy Herd Improvement association members at their annual meeting in Hillsboro, Tuesday, February 11. "Shorter working hours, less physical labor, together with widely publicized campaigns to increase the consumption of other products will mean a lessened consumption of those things the dairy farmer produces," said Brandt. Aggressive campaigns by individuals, concerns, and agencies dealing in and with dairy products will materially aid and improve the situation but the individual of the solution rests with the individual farmer operator. "There never was a time," said Professor Brandt, "when it was more important that the dairyman give careful attention to improving the quality of his dairy cattle and thereby improve the economy of his production."

"Dairy farm families, as well as any other family, are interested in improving the quality and consequent income from the dairy herd for the purpose of improving and providing a happier family life," Mrs. Buena Maris, extension specialist in family relationships, Oregon State College, told dairymen and their wives at the noon luncheon. Mrs. Maris asked these dairymen if they kept as up to date in their study of family life and relationships as they did with their study of dairying problems. She expressed the opinion that too much of the rearing of children was done on the basis of what was good enough for grandfather in child training methods is good enough for the sons and daughters of today. Security, adventure, recognition, and affection, Mrs. Maris pointed out, are conditions in the life of the individual which must be met and satisfied to provide a happy rounded life for a individual and that the same things are essential in a happy family life.

Henry Hagg was elected to serve a third term as president of the Washington county dairy herd improvement association. Other officers

elects were J. R. Corey, vice-president; Mrs. Warren Porely, Secretary-Treasurer; F. H. Jossy and C. B. Buchanan, Jr., directors.

Other speakers on the days program were W. F. Cyrus, county agent, and Mr. Hagg, president of the association.

### North Portland Livestock Market News

### Babson Says-- Classified Rates

Continued from Page 1  
times labor unions are both right and necessary.

### Circumstances Alter Cases

When it comes to questions of strikes or lockouts, in days like these, I feel that both are selfish, cowardly and unpatriotic. The stirring up of 750,000 rail workers of Class 1 roads with demands by labor organizations, not the employees, for vacations with pay is a good current example. This will use much of the energy of the President, who is already overworked, and of railroad officials. The time of all concerned might far better be spent in cooperating to move more quickly important industrial freight shipments.

The government is putting a ceiling on the profits of all businessmen, and it is only fair to likewise veto strikes and lockouts. Although in the past labor has not had a fair deal at times; yet "two blacks do not make a white". When the whole nation is in danger, as at present, we all ought to be ashamed to do anything which holds up production. Certainly, during the present emergency, Congress should demand compulsory arbitration. We either must go to work or go to war! I had much rather go to work, forgetting wages, hours, or profits.

In view of the recent Supreme Court decision which was 100% in favor of labor, I wish to remind labor of what is happening abroad. When I was over there two years ago, I found that Germany had "canned" all the labor unions and threatened to shoot anyone who called a strike or a lockout. France refused to do this as the French politicians were afraid of losing votes. Even last April, when the Germans were pounding at the gates of France, labor leaders and employers were fighting one another. As a result, the Germans marched into France! The Germans then disbanded the French labor unions and their leaders were put in jail.

**Labor Leaders are in Jail**  
Up to February first of this year, the English government was very patient with the labor unions; in fact, my friend, Minister of Labor Bevin, is a radical labor leader. When he got on the inside, however, and saw the great dangers, he made both strikes and lockouts illegal. Since February first he has been putting uniforms on the workers, the same as on the soldiers. Anybody who sabotages or even refuses to work in an airplane factory, tank plant, or munitions factory is thrown into jail.

Worse things have happened to the labor unions in Norway, Belgium, Holland, and other countries that tried to remain neutral as we are trying to do. Those countries had not only strong labor unions, but also pensions, sickness benefits, and cooperative buying societies. These were doing splendid work with their co-operative factories, stores, and even banks. All of these good things have been thrown out of the window. The United States and Canada are now the only countries that have these blessings today. It certainly seems as if we all should be on our good behavior and quit quizzing, or even arguing among ourselves.

**Remember the Farmers!**  
Farmers are not perfect. They have always howled and always will howl. On the other hand, they sure are getting the short end of the stick when it comes to prices, wages, and hours. Once I figured that if farmers were paid the same as the building trades are paid, beef would cost three dollars a pound, eggs would cost two dollars a dozen, and bread would sell for twenty-five cents a loaf. Of course, this unequal treatment is very unfair, to the farmers. You would think that the city people especially union labor, would be ashamed to look a farmer in the face.

In this connection, let me say that the British are not only brooding strikes and lockouts, but are doing other big things. For instance, they are putting an end to installment buying. The government makes the point that it is the total debt of the nation which really counts. Hence, as their national debt increases, they insist that personal debts be reduced. I am no war monger; but I doubt that we can save Great Britain and our own necks by continuing, during this emergency, either the Old Deal or the New Deal. We have got to forget both, and this includes profits, wages, hours, and all the "fixings" that go with these things. Moreover, the sooner we forget ourselves, the sooner we will save our necks. Let us make no mistake about this.

### Bible Questions & Answers

What was abolished by Christ?

1. Did our savior abolish anything on the cross?  
A Having abolished in his flesh the enmity even the law of commandments contained in ordinances. Eph. 2:15.

2 What did he himself say about the law?  
A Think not that I am come to destroy the law or the prophets: I am not come to destroy, but to fulfill. Matt. 5:17.

3 How long did he say the law would endure?  
A For verily I say unto you, Till heaven and earth pass, one jot or one tittle shall all be fulfilled, verse 18, Luke 16:17. It is evident from these texts, that the abolished law was not the law of ten commandments.

4 What did Paul say of the law of God?  
A Wherefore the law is holy and the commandment holy, and just, and good. Rom. 7:12.

5 How did he regard it?  
A For I delight in the law of God after the inward man, verse 22.

6 What does one show by keeping the commandments?  
A For this is the love of God, that we keep his commandments and his commandments are not grievous. 1 John 5:3. A law that is holy, just and good, and not grievous, cannot be an enmity as was that which Christ abolished.

7 Could there be sin now, if Christ had abolished the law?  
A For until the law sin was in the world, but sin is not imputed when there is no law. Rom. 5:13.
