Rinse you glassware in cold water after washing and let it dry. It will look cleaner and brighter than if wiped with a cloth.

Wake-Up -- Cheer-Up

Babson Says, Forget 1929 And Make Hay

Babson Park, Florida, February 23 —I wish that readers of my column—and this includes some of my Republican friends—would quit writing me about "Good Old 1929." Ninety per cent of our businessmen, bankers, and investors can make a better record in 1941 if they first will take a damp cloth and wipe 1929 from the blackboard of memory. Ninety per cent of our employees, too, can add to their welfare this year if they will quit hankering for the "Grand Old Times." Let us debunk the myth that the 1929 era was an economic heaven on earth, instead of just the opposite. That bedtime story is dangerous fiction because the fake glamour of 1929 still tempts some of us to underestimate the expanding possibilities of 1941 and to overlook its potential opportunities. It is well to be realists, and today that means to be optimistic.

Rip Van Winkle in Reverse

Suppose that some of these people who are neglecting 1941 in futile yearning for the "Good Old Days" could get their wish and wake up back in 1929. Their first feeling would be that the country had been blasted by a bombing raid. Hundreds of miles of today's sleek highways would be reduced to their original rocks or ruddy mud. Every 1929 automobile—to anybody accustomed to the appearance and performance of today's models—would be a bunch of junk. Nobody of today could tolerate the ancient radios and phonographs.

In the agricultural regions, a Rip Van Winkle who fell asleep in 1941 and awoke in 1929 would be aghast at the loss of lightweight combines and tractors for the smaller farms. He would see farm equipment stripped of its rubber tires. Stores everywhere would be bare of today's beautiful new fabrics. Manufacturers in dozens of lines would be handicapped by lack of modern plastics and plywoods. Engineers' talents would be blighted without today's alloys.

Today's Unsurpassed Riches

The trouble is that when we think of the "Good Old Days," we see them through a rosy mist that blurs reality. We assume that we could go
