ishment which it has received. These sins, however, have caused people to forget the blessings of the Stock Exchange and to miss the great opportunities which it often offers.

Buy stocks which are more or less "inflation proof" such as certain companies rich in natural resources of oil, salt, sulphur, nickel, timber, etc.

The safest way of getting 6% compound interest is to have a definite investment program and be willing to pay some one to help you develop it and stick to it.

It, of course, is vitally important for you to watch these factors of plant, net assets, and earning capacity in the large corporation of which you are a stockholder as well as for a little company of your own.

With these figures staring us in the face, why should we clamor for pensions, bonuses, and Government Social Security? Compound interest treats everyone alike, rich and poor, black and white, young and old.

Some readers will reply: "Yes, this is all right in theory, but how can we get 6% interest?" It is true that most banks in their savings department pay only from 1% to 2%.

When you choose a water system, be sure it will give you PLENTY of water for every purpose. It should supply enough to take care of peak loads, as well as regular demands. Insist on a system with ADEQUATE CAPACITY.

Look for sound design and quality materials! These are the things that determine the true value of a water system—and ASSURE you of reliability.

Babson Says...

Continued from page 1

and get off at the top; but those who get on the wheel and stay on through prosperity and depression, depending upon 6% compound interest, are sure to be successful."

What Statistics Show

The saving of \$1 per year, paid at the beginning of each year, will increase at compound interest to over \$150 in forty years. With this simple rule one can quickly figure that saving \$1 a week under these conditions will amount to almost \$7,800 in forty years.

Without doubt, the New York Stock Exchange abused its power and is entitled to much of the severe punishment which it has received.

Some readers will reply: "Yes, this is all right in theory, but how can we get 6% interest?" It is true that most banks in their savings department pay only from 1% to 2%.
