Just Before Daylight Most Probable Time of Air Raids

Rural communities are requested not to turn on lights before dawn—or else black out windows. A great many people believe that the blackout applies only to cities.—this is not true—it applies to all territory from British Columbia to Roseburg. Just before dawn is the most dangerous time for air raids.

The officers and volunteer workers appreciate the wonderful cooperation of residents but do earnestly request that people stay indoors during the blackout and cars should be used only in case of necessity and blue cellophane to cover all lights on car.

Do not use telephones except in case of emergency.

Let's all cooperate and help make it easier for officers of the law and volunteer workers, who are doing everything in their power to save lives during blackout. They just go on and do what there is to do—without thought of thanks from anyone.

IS IT ALL HOOEY?

A story is going the rounds that at a recent meeting in one of our cities in Washington county, a copy of the rules governing the blackout of the Northwest was read. At its conclusion a man in the rear of the hall yelled "It's all hooey."

That's what the people of England, Belgium, Holland, Netherlands, thought—Better wake up you doubters. Co-operate with the federal officers—Don't wait until the planes come.

No country is safe now—Cooperate or else—you will go to jail. America will never lower her flag as long as there is one red blooded man or woman in this country.

U. S. Navy Needs 28 Yeoman-Pharmacists

Portland navy recruiting headquarters has put out an urgent request for enlistment of 14 men as yoemen and 14 as pharmacists. They are needed to help handle the throng of applicants for enlistment. Yoemen, who must be proficient on the typewriter, usually are detailed to clerical work.

New instructions, slightly relaxing the enlistment regulations, but not lowering physical qualifications to any great extent, were received here today.

Blackout Warden Finds Middleton Man Dead

Myron Clifford Saltus, 57, was found dead on the floor when John Bremer, blackout warden in the Middleton district near Tigard, noticed lights blazing in a home there about midnight Tuesday, and went to warn the householder that lights out time was approaching. Saltus lived alone, and is believed to have succumbed to a heart attack early Tuesday, according to Coroner F. J. Sewell.

A committee of more than twenty food experts has been appointed to create a new official Navy cook book. Suggested recipes are tested on groups of civilian athletes before being approved for use by the U. S. Navy.

Mails Delayed

Military authorities charged with the safety of citizens have found it necessary to place in effect blackout orders covering the Pacific Coast area. These blackout orders to be effective must be implicitly obeyed by everyone. In order to do this, it will be necessary to temporarily revise working hours and mail schedules on certain routes.

Mails will no doubt be delayed in reaching local postoffices, resulting in many inquiries. Patrons are urged to be patient of interruption to regular service becaus of measures deemed necessary for safety of citizens.

The postoffice department is in close touch with military authorities and will cooperate to the greatest extent possible in the prompt and orderly delivery of mails.

BLACKOUT INSTRUCTIONS

The following instructions for blackout of Washington county have been put into effect., with the authority of law supporting them by all local law enforcement officers and the county civilian defense council. No air raid wardens have police powers. They do have authority and orders to warn civilians against violations. If the warnings are ignored and instructions of air raid wardens are not followed, the wardens are asked to call police authorities.

PERSONS NOT OBEYING DIRECT POLICE INSTRUCTIONS WILL BE HELD IN VIOLATION OF THE LAW AND WILL BE TAKEN INTO CUSTODY.

RULES FOR BLACKOUT

1. Lights may be burned as long as the light is not visible from the outside. If civilians take suitable precautions to make certain that no reflection may be seen from outside the structure they occupy, there is no restriction against the use of lights.

2. Restaurants and public places may conduct business, so long as the light from these places is not visible from the outside. Doors and entrances to such establishments must be protected by "traps", which permit egress and ingress without light escaping.

3. Latest instruction to automobile operators with permits require that headlight lenses must be covered with black paper except for a one inch strip across the center of the lense, which open strip must be covered with two thickness of blue or green cellophane. Tail lights must be dimmed with blue cellophane. No spotlights are permitted.

4. All parked automobiles should be removed from the streets by the time the blackout goes into effect. No persons will be permitted to "loiter" on the streets. If persons do not have satisfactory reasons for being on the streets will be subject to detention either directly or upon report of air raid wardens. There will be no restrictions on smoking in the open. Smokers are advised, however, to cup their matches while lighting up, then holding their cigars or cigarettes in a manner to protect the light from above.

5. Ambulances, doctors' vehicles, fire apparatus and police cars are "emergency" cars, but will operate with the same lighting restrictions.

6. Wardens on highways, roads and in communities outside of incorporated municipalities are ordered to report blackout violations to the nearest deputy sheriff.

7. Flashlights may be carried in the open, provided they are covered with two thicknesses of cellophane and used only for necessary purposes. The light must be held pointed groundward..

8. Advertising and outside display lights should be turned off at 6 p. m.

9. Dairymen and poultrymen should observe the same regulations covering blackout of windows and light openings as required of residences and business houses.

WASHINGTON COUNTY DEFENSE COUNCIL

WOMEN OF AMERICA

Women of America, let's rally to our flag,
Form a legion army, put victory in the bag.
Hell has come a visiting—war is at our door,
Sneaky little faces, seeking entry at our shore.
Let's polish up our rolling pins, whack'm on the nose.
Start the meanies running—like water from a hose.
They'll be very sorry they made this grave mistake,
For women of America are in step and truly awake,
With their men they'll gird for battle in reality
And double V's in victory will prove their loyalty.

Washington County Council P. T. A. Hold Interesting Meeting

The Washington County Council of Parent Teachers met with the Hillsboro Parent Teachers association for their second County Council meeting of the year 1941-42. There were forty-eight persons registered and represented twelve association.

The meeting opened with the flag salute—the flag bearer being Cub Scout Paul Patterson, Jr., with guards who were Cub Scouts, Jerry Henry and Jack Merril. The group sang the Star Spangled Banner. Invocation was given by Dr. A. J. Sullens of the Congregational church, Hillsboro.

After the reading of the minutes and the treasurer's report the representatives of local associations gave their reports. Mrs. C. W. Hall, president of the Garden Home association was very kind in answering questions after report regarding their method of successfully feeding ninety children each day a full meal for five cents or less. All reports were very interesting and all associations are working for the betterment in health and recreation for the children.

There were special conferences for membership, magazine, Founder's Day, publications and Summer Round-up chairmen.

During the luncheon period Miss Faye Nichols, new county home demonstration agent, was introduced to the group. After lunch she gave short outline of the work she had done previous to coming to Oregon.

H. N. Miller ,state supervisor for Defense Training, Salem, spoke. His talk was on Vocational Education and how it could be tied up with the defense training program.

After wishing the group a Merry Christmas, and thanking the Hillsboro Parent Teacher association for their hospitality and Mr. Paynter for his co-operation in allowing the use of the school the meeting adjourned at two-thirty.

Stocks and Tax Situation

Babson Park, Mass., Dec. 12—What's the matter with the stock market? I am convinced that much of the answer lies with the tax situation. Present taxes are an aid to higher dividends; but a millstone around the neck of prices. Readers should remember that about one-half of Government income comes from Excise Taxes and about one-half is obtained from Corporation and Personal Income Taxes. Customs Duties while formerly a large source of income, have now dried up. It is with Corporation and Personal Taxes that investors are directly concerned.

Effect of Taxes

Many of us were brought up to believe that stock prices were governed only by good or bad corporation earnings. This is not true today. International complications, fear psychology, and **principally taxes** are now in the picture. Excess profits **must** be computed **before** normal taxes of 31% are deducted. Profits of many corporations may continue high but the cream is gone. The market can amount to as much as 60% and can no longer look forward merely to earnings as an incentive for higher prices. The worst feature, however, of the new taxes is their use in putting over social "reforms" and in aiding New Dealers to put a ball and chain on merchants, manufacturers, and bankers.

Formerly, corporations could pile up reserves in good years to tide them and their stockholders over lean years. Today, however, under the "undistributed profits" tax of Section 102 of the Revenue Act, there is no "fat" left. Under the present forcing system of social changes many fine "blue chip" companies in the next depression (and one will surely come) will be obliged to go to the Government for help. That's exactly what our present Government wants them to do. Then, in exchange for continuing managerial jobs and providing some interest for bondholders, Government may insist upon working control through taking over the rights of stockholders.

Position of Stockholders

Owners of comon stocks providing high returns, and relative safety are now in a wonderful position. This applies particularly to those in the lower-income brackets. From the point of view of collecting individual taxes the Government **must** allow corporations to distribute sufficiently high earnings to warrant the payment of generous dividends. Hence, I feel that while there will be a lot more talk about raising corporation taxes, that these corporations will be allowed to raise prices proportionately. This is why Secretary Morgenthau's proposal to limit the profits to only 6% did not receive any support even in New Deal circles.

Stockholders should not be too concerned about increased personal taxes. In many instances these can be passed on. This is true in the ownership of rental property where higher taxes can be overcome by raising rents. Investors are also realizing that high yields for stocks are solving their tax problems. Whereas

Save Oregon Scenery by Using Care and Avoiding Waste in Cutting Christmas Trees

When you cut your Christmas Tree this year:

1 Get permission from the landowner first;

2 Select one out of sight of the roadside;

3 Decide on the tree of your choice before doing any cutting so as not to waste;

4 Don't cut a little tree from the top of a big one;

5 Help reforestation by doing your cutting where there are other young trees nearby to fill the gap made by the removal of your tree.

When you buy your tree from a Dealer:

1 Ask whether or not the above rules of good citizenship and conservation have been followed.

There will be a perpetual supply of Christmas trees for the children—and grown ups—of Oregon and of neighboring treeless states, and our roadsides will remain attractive.

We insist that our logged lands be reforested either by Nature or by hand planting.

We keep fire from starting in the forests.

We use our present supply of Christmas trees conservatively and without waste.

Medical officers in the U. S. Navy conduct daily inspections of the ships galleys where the food is prepared.

Mr. and Mrs. Frank Peoples and two children of LaComb were week end visitors of Mr. and Mrs. Raipn Peoples.

Mrs. Rebecca Eggman accompanied by Mrs. Flora Allen of Portland, spent the week end at Svensen, Oregon.

St. Cecelia church, Beaverton, is serving a ham dinner Sunday, Dec. 14 from 1 to 3 in the afternoon and 5 to 7 in the evening. Everyone is invited.
