### Babson Says We All Must Work Or Fight

Babson Park, Mass., September 11—Labor Day is over. There were a lot of well-deserved Efficiency Awards given. But there is still too much dissension in labor's ranks to get optimistic. In at least one instance workers refused to participate in an Efficiency Award ceremony. Why? Because management happened to be cited. Labor Day meant something more to all workers and management than a day off or more overtime. These are strenuous days. Of necessity, there can be but little rest from our labors.

#### Too Many Strikes

On the whole the average worker and union member wants to do his full share in winning the war. However, in spite of pledges given by labor leaders immediately after Pearl Harbor, it is discouraging to read of more wage disputes and to see strikes continue. For the last month of record these numbered 160. They are down substantially compared with the same period of a year ago; but the point is that there should not be even a single strike to record. Wages for all classes of workers are at peak levels and all should be content.

Unless the war effort is to be seriously curtailed, Washington must adopt a tougher attitude toward both the demands of labor and the activities of the farm bloc. One thing is certain, namely, some day the New Deal crowd will be thrown out. The voters will be tired and sick of rationing, price fixing, etc.,—even though they are now necessary. Then we will continue to have a War Labor Board but—unless labor leaders now behave—the Board will crack down on labor as it is now persecuting employers. The law of action and reaction continues to rule.

#### My Position

Let me say that in normal times I believe that labor leaders are both useful and necessary. In these critical war times, however, labor leaders should show a more cooperative spirit. They should remember the millions of our boys in the armed services who are working for \$50 a month under great hardships and at the risk of being killed or wounded. This is no time for selfishness by any group.

Washington has favored labor since the beginning of the New Deal. Workers should realize, however, that there is a limit even to the Administration's patience. Already the President has ordered the department, heads to stop bickering and devote their time and energy to fight the enemy. The day may not be far distant when he will crack down on labor leaders. Labor controversies that plague the war effort are certainly against the public interest. Congress at Fault

In and out of session Congressmen are customarily fair game for criticism. On the whole their lot is not an easy one and I sympathize with them. Their personal expenses in Washington are high. They have a certain position to maintain and probably feel the effects of rising living costs as much as, if not more

than, any other group. Like everyone else, they want to hang on to their jobs. Being friendly toward labor has, in the past, been one way of keeping these jobs. How long this will continue is a question. If pensions for Congressmen were available we might well see members develop a more independent spirit and act differently on many important matters.

I trust after the November elections that Congress will pass some real legislation dealing with wartime strikes and boycotts. The President should not stand for any group of workers or employers challenging the War Board's ruling that wage increases should cover only the 15% rise in the cost-of-living from January, 1941, to the inauguration of price ceilings last May. Firm adherence to this policy would do much to narrow the vicious inflation circle. Congress should insist that this WLE's stabilization formula be accepted; also that the cost-of-living figures provide for substitutes and cut out waste.

#### Work or Fight

Consider the importance to the men in the army of the materials which workers are producing. It is necessary that individually, and in groups, they set a good example. It matters not whether the issues involved pertain to fellow workers or to management. Unless labor and management, in cooperation with mediation boards, can amicably settle their differences the national economy and the whole future of labor relations may be seriously affected.

The National War Service Bill which the McNutt War Manpower Commission is drafting may ultimately kill labor's golden goose. It provides that workers who strike may be drafted into the armed services. Those now in non-essential industries may be forced into armament employment. All of us able-bodied men and many women may find ourselves forced directly to contribute to our coming offensive drives. There may be no such thing as either an indispensable or a free worker. Wake up workers, so that next year we may celebrate another Labor Day under better circumstances than we observed September 7, 1942!

### Worms and Atheists

Hello Folks:  
Thinkin' over the war situation, I find we are a fightin' one nation that wuz made by worms and another one that wuz made by Atheists! I am speakin' of Japan that wuz made financially by silk worms. Then worms earned the war murderin' outfits that yellow outfit is a usin' on us and others! Yes the hole shootin' match! Then there's GERMANY the present breed that wuz hatched out by such Atheists as Nietzsche, their biggest philFOLOSOPHER who taught 'em that Jesus ought to have died in the wilderness, for His doctrines is dangerous, to consider the weak with any mercy,

Nietzsche glorified the STRONG! Taught to look down on the weak. Kill them, make slaves of 'em. Make room for the Super race. Breed the Super-race! The Germany of Martin Luther has passed away! It is no more! The breed now is SUPER KILLERS!! Super slavers! O yes, there's Mussolini but we never hear of him anymore, except as Hitler's prep.  
P. S. Russia fights for life, but not to conquer the world.

### BARB WIRE BILL

Apple Box Drier Saves Food  
Coquille—Convinced that a demonstration beats an illustration, County Agent George Jenkins has constructed a small apple box dehydrator to be used throughout the county by the home demonstration agent in teaching home methods of food preservation now being encouraged as a war measure. The design for this simplest of all home dehydrators is given in the home economics mimeographed circular 1683.

### BABE HARD TO KILL

The new born babe, being only a girl, the Chinese family threw it into the garbage pail. But the little thing turned until its nose was out and it breathed. Then they said it had an evil spirit and could not be drowned. So they threw it out to be eaten by the dogs. When the dogs bit, the babe stirred and they drew back. Next, she was dropped into a hole. But God had one of his servants standing by—the small daughter of one of the Chinese Christians. She ran for her mother and the babe was drawn out alive. They handed the bit of life to the Swedish Alliance Mission. These years slipped by and saw the child come on up through the Mission school to finally graduate from an American Medical College in China. She is now one of their strong and worthy Christian doctors. See CHINA'S MILLIONS—August, 1942.

Mark these Chinese Christians as well as all the people of Christ, our Lord. All the born again ones.  
ONE—New Eye-Sight. The Holy Spirit opens their eyes to see great and wonderful things out of the word of God. The natural man receiveth not the things of the Spirit of God: for they are foolishness unto him; neither can he know them, for they are spiritually discerned. I Corinthians 2:14. Except by the Spirit's teaching, how can any man know the Bible?

TWO—A Surgical Operation. God takes out the old heart of stone and gives the saved a heart of flesh. By that they can pray for their enemies and die for the unloved and unlovely.

THREE—New Road Signs. Once they travelled to please themselves. But as the redeemed enthroned Christ in their hearts, they turn to offer the Gospel to all the world. First, at their own firesides, they teach it and seek to live it. Then out to the ends of the earth they send their

dedicated children, to light the Gospel lamp.  
FOUR—New Spark Plugs. New explosive power. The power of a vast new urge. The urge to do God's will. Not My will, but God's will be done, said our Lord. So say His people here and now.  
SUM IT UP—The Bible becomes a prayer for even their enemies. There is the urge to reach the last man with the Message; they have the will to do God's will. Into the lives of the redeemed, the Spirit strives to build all this. So he would make them worthy to bear Christ's name. Are you His? Do you grieve the Spirit and run with the world? Or is Christ enthroned in your heart? What glory for you when the roll is called up yonder?

# Bomb 'em with JUNK

### JUNK NEEDED FOR WAR Scrap Iron and Steel

Needed for all machines and arms of war. Fifty per cent of every tank, ship and gun is made of scrap iron and steel.

Other Metals—Rubber—Rags—Manila Rope—Burlap Bags

Needed for making bombs, fuses, binoculars; planes; tires for jeeps; gas masks; barrage balloons; wiping rags for guns; parachute flares; insulation for electric wiring.

WASTE COOKING FATS—When you get a pound or more, strain into a large tin can and sell to your meat dealer. NEEDED ONLY IN CERTAIN LOCALITIES—Waste paper and tin cans—wanted only in certain areas, as announced locally. NOT NEEDED (at this time)—Razor blades—glass.

Let's blast Japan—and Germany—and Italy—with the chain lightning of destruction that can be built from the scrap in our cellars, attics and garages, on our farms and in our places of business.

Scrap iron and steel, other metals, rubber and waste materials. It will all be used to make tanks, ships, planes and the fighting weapons our boys must have. It is needed at once.

Sell it to a Junk dealer—give it to a charity or collection agency—take it yourself to the nearest collection point—or consult the Local Salvage Committee... If you live on a farm, and have found no means of disposing of your Junk, get in touch with the County War Board or your farm implement dealer.

Throw YOUR scrap into the fight!
