2nd Bond Drive Opens Monday

As advertised by the county's public officials, the second week of bond drive activities commenced at the Washington county, seat of Beaverton, Monday morning. The drive has set the pace for the entire state of Oregon, and millions of dollars have been raised so far across the state. At this rate, Oregon can expect to raise a total of over $10 million by the end of the drive, which concludes on April 13th.

The government's need for these funds is for the expansion and maintenance of necessary war industries. The presents of workers and industries have been plentiful. This is evidenced by the fact that the Beaverton drive, which is well underway, has already brought in a significant amount of money. The success of the drive in Beaverton has set an example for the rest of the state.
