**You can speed
his visit home**

by giving up your
summer train trips

High point in many a service man's life is his short leave or furlough after months of strenuous training. This is often his last chance to visit home before going overseas—a last chance to see his parents, wife or sweetheart.

Furlough days are far too precious to be spent waiting for train accommodations. Yet nowadays our trains are so crowded that even service men on furlough sometimes have to "wait their turn."

Will you help make more room on our trains for service men and other essential war travelers this summer?

Please cancel reservations promptly if your plans change—release this space for use by other travelers. Postpone all train trips of a merely social, sight-seeing or pleasure nature until after the war.

This summer—unless your train trip is urgently necessary—you can do your country a real service by staying close to home!
