Why is Total Conscription Necessary?

This is addressed to the citizens of United States and Canada. Our enemy in World War II is the armed might of world fascism. Unless this might is defeated in battle, fascism will be imposed from without on North America; and unless the fascism within our own national systems is liquidated, we may have fascism imposed from within even though we are victorious on the battlefields.

American Citizens Demand Total Conscription
The freezing of wages and salaries, the freezing of civilian employment to jobs and locations, the drafting of civilian employment to new jobs, are no longer threats; they are accomplished facts. This brings to the fore a fundamental issue: Can we introduce in this country, in this greatest democracy of the United Nations a national draft of compulsory labor service—drafter to work for frozen wages in private enterprises to produce profits for business ownership? This would be fascism in the United States!
