DR. MARTIN DUNLEVY
Dr. Martin Dunlevy of Beaverton, a
dentist specializing in oral surgery for
more than 30 years, died early Sun-
day after a heart attack. Requiem
mass will be offered at 9:30 a. m.
Tuesday at St. Mary's cathedral.
The rosary will be recited at 8:30
p. m. Monday in the Hennessey,
Goetsch & McGee chapel.

Dr. Dunlevy was a graduate of Col-
umbia university (University of Port-
land) and the North Pacific Dental
College.

FRANK TALK to City People... about the Farm Situation

by
Wayne Morse

WAYNE MORSE

It is time someone spoke frankly about
the organized attempt that is being
made to turn City People against
Patriotic Farmers...

I've seen this program go on in
Washington, D. C., and I'm seeing
it go on in our own State of Oregon.
It is time that the truth be told.

The New Deal is promoting the
idea that the farmer is to be con-
sidered as a workman, entitled only
to wages... not as the business man
that he is. It takes a sizeable invest-
ment, depending on the type of
farm, to provide a unit that will give a
man full-time employment. Such an
investment certainly justifies the farmer
being considered as a business man.

OPA Incites Feeling Against Farmers

I deplore the efforts on the part of
the Administration offices, in par-
ticular the OPA, to create a class
feeling between the city dweller and
the farmer. Reports are continuously
being circulated that the farmer is now
receiving two and three times the
amount for his crops as compared to
pre-war. This is bound to build an
antagonistic feeling against the farmer,
because it insinuates that he is profit-
ing from the war. The same agen-
cies which have the facilities to estimate
incomes also have the facilities and
know about the increase in the costs
of production of farm products. But
not one word of this is mentioned,
because it would make an entirely
different story.

Says Farmers Can't Quit

There are many small business men
whose sales have nearly doubled, and
yet are operating at a loss, because
their costs have risen so high. But in
the case of a farmer, all you hear about
is the increase in sales—nothing about
the increase in costs. Many a farmer
has been caught between the price
ceiling on farm products and the un-
regulated increase in farm costs. One
Administration official has been heard
to state: "We cannot be concerned
about whether or not farmers stay in
business. We feel sure that enough
of them have so much invested in
buildings and equipment that they
cannot afford to quit even if they
operate at a loss during this period.
It would be cheaper for them to keep
operating than quit. Our only concern
can be that enough is produced."

Farm Costs Increase 3 Times— Income One-Half

I'll give you an example. The gross
income of the Grade A dairyman has
increased about 40%, including the

Distinguished Republican leader of
Oregon who was urged by many promi-
nent farmers to become a candidate
for United States Senator.

federal subsidies he receives. Grain,
hay, straw, and labor, his biggest
items of cost, have doubled and in
some cases tripled. Since it takes 10 to
15 years to build a good dairy herd,
the dairyman can't just quit and wait
until things get better. He doesn't want
to quit; it's his patriotic duty to stay on
the job even if it bankrupts him, which
has happened in many cases.

City Dwellers Will Pay Fair Price

You city dwellers want to pay a fair
price for what you buy. You do not
want to be overcharged, and again,
you do not want anyone to be forced
to sell to you at below cost of produc-
tion. But when city dwellers are con-
stantly fed the information that pro-
ducers are receiving two and three
times as much for what they buy as
previously, how can they help but
feel that the farmer is unpatriotic and
profiteering at a time when the farmer
actually is doing one of the biggest
and best, yet so far unrecognized jobs
of any group.

City People and Farmers Must Cooperate

When this war is over we will need
the close cooperation of the city people
and the farmers. They must under-
stand each other's problems and work
together because the prosperity of both
groups is dependent on the success
of the other.

THE OLD JUDGE SAYS...

"Glad you dropped in, Judge. I was just
trying to explain to Mary what you told us
down at lodge last night...about all the
grain used to distill war-alcohol not really
being used up. She didn't realize it, either."
"It's true, Mary. Wherever the govern-
ment has permitted distillers to purchase
the equipment necessary to reprocess the
used grain, at least 50% of the feed value
(25% by weight) of the whole grain is
being recovered and returned to farms like
yours in the form of premium-quality live-

stock feed. Only the starch is removed
during distilling...the part recovered is a
highly-prized concentrate containing valu-
able proteins, fats and carbohydrates. The
distilling industry really has taken a leading
part in the development of new cattle and
poultry feed products from reprocessed
grain...products rich in vitamins B₁ and
B₂...so essential to satisfactory growth
and production. And the recovery of grain
will apply also to the making of whiskey
when production is resumed."
