PORTLAND

The area indicated in white on the above map is the Nazi defense zone. Continued bombing of key communications lines complicated the enemy's transportation problems and the past months of hammering at the German Luftwaffe so weakened that unit that the Allied air force dictated terms on which they should meet. Several weeks ago it was reported that Field Marshal Erwin Rommel had moved approximately a quarter of a million men to that area.

Beaches like these were first military objectives.

The Strongest of Bonds—Your Dad
and Your Country, Is the Slogan of
Father's Day, June 18—Buy Bonds

WASHINGTON, D. C.—June 00—
Father's Day which falls on June 18th,
1944, will be a different kind of celebra-
tion of this event than in days before
the war. This year finds American fa-

Pictured here is Ted R. Gamble, National Director of the Treasury's War Finance Division, and his son, Ted R., Jr. The youngster is pinning a Father's Day rosette in his dad's coat lapel. The rosettes are made up of War Stamps. Girl Scouts and others will sell the rosettes on Father's Day, June 18.

thers away from home and family and
by hundreds of thousands in uniforms
of the Armed Services of our country.
Many fathers are overseas.
So this year's Father's Day is Amer-
ica's "Salute to our Fighting Dads".
The National Father's Day Committee,
in conjunction with the United States
Treasury, is conducting a gigantic Fa-
ther Bond Drive. There is an earnest
and all-abiding awareness to push on
to victory in the observance of this year's
Father's Day. And every move being
planned for the event is keyed to that

Buy a Bond for Father's Day." Father,
himself, needs no reminding and will
take note of the holiday created in his
honor by himself buying bonds for Fa-
ther's Day. The family is being urged
to remember Dad—with War Bonds.
The nation is being asked to wear the
Father Rosette, a floral decoration
made of War Stamps—a gentle remind-
er to all that there is only one idea in
anyone's mind for this year's Father's
Day and that is the winning of the war
as quickly as possible and that means
War Bonds and more War Bonds.

Had Five Husbands

"Go tell thy husband."
—"I have no husband!"
Quite right, said Jesus—"For thou
hadst five husbands and he whom
thou now hast is not thy husband."
So Jesus told the woman of sin,
that day at the well of Sychar.
The townspeople gave this woman
wide birth; no one spoke as she
passed by. Yet Jesus had no rebuke
for her nor for the thieves and crim-
inals who sat at meat with Him. For
Jesus came not to condemn them, but
to see and to save that which is lost.
Judgment comes later and to all who
reject His saving work.
All have sinned and all are lost.
And how does Christ save the lost?
When manhood is gone and the will
power is burned out, how does He
save them? The answer is—"Believe
in the Lord Jesus Christ and thou
shalt be saved." KNOW YOUR
BIBLE—Acts 16:31.
Believe in Christ as the Savior who
died under your sins to clear you.
And name Him the Lord of your life.
Deliver yourself ever to Him—See
Christ only—Trust Him utterly—
Name Him your All in All—Make Him
the sum-total of your life—Live by
Power From on High.
The Godly nurses send this from
the hospital in China. Christ SAVES
—KEEPS—SATISFIES.
Postal me for the Little Book that
tells how to come into true Peace—
Hope—Joy. Free.

Babson Says . . .
Continued from Page 1

After peace comes, the professional
U. S. Re-insurance Companies will
not only have an opportunity to hold
their present business, but should be
able to take on much profitable busi-
ness from the direct-writing, fire-in-
surance companies in Europe, South
America and the Far East.
5. Today the stocks of professional
fire re-insurance companies are
depressed due to present extraordi-
narily high national fire losses. Of the
total of 25 such companies, operating
in the U. S., only one showed an un-
derwriting profit last year. The en-
tire industry, last year, lost \$4,666,000;
that is, Incurred Losses and Expenses
were \$50,820,000 compared with
Premiums Earned of only \$46,154,000.
As losses have always gone in cycles,
the time to buy any kind of insurance
stocks is when the losses are greatest
and the industry looks darkest.
6. The professional re-insurance
companies are not involved with
agents or dependent thereon. No
one appreciates more than I do what
all branches of the insurance indus-
try owes to the agents. Yet, too
many direct-writing companies are
today dependent upon their agents
that the company officials are not
free to do what they think would be
best for their company. Re-insur-
ance company officials are wholly
free from such entanglements.
7. Our nation is on the verge of

great progress in preventing fire, ma-
rine, casualty and life losses. After
World War II better living condi-
tions, new building codes, increased
use of non-combustible materials, ex-
tended water supplies with more ef-
ficient fire and police departments,
combined with sprinkler systems or fire
alarm boxes in every building should
materially reduce losses of all kinds.
As re-insurance suffers most as the
loss ratios increase, so these profes-
sional re-insurance companies should
profit most as these loss ratios are
reduced.

8. The professional re-insurance
industry today is disorganized and
has an inferiority complex. It is ex-
isting upon "crumbs" thrown out by
the big companies when it should be
the leader of the entire insurance
field. In Europe, these re-insur-
ance companies have led and dictated
to direct-writing companies the
basic policies of fire protection. Some
day our U. S. re-insurance companies
will enjoy a much more important
place in fire, marine, casualty, life
and other branches of the insurance
industry. Furthermore, the social
and political hurdles facing the di-
rect-writing companies should react
beneficially to the professional re-in-
surance companies.

9. It is true that this industry is
now under a cloud; but I believe it
is fundamentally sound. With the
co-operation of the National Board of
Fire Underwriters, the National Fire
Protection Association, the Associa-
tion of Casualty and Insurance Ex-
ecutives and the Mutual and other
associations \* the industry can per-
form a great service to all insurance
companies and to the nation as a
whole. It needs only organization
and better co-operation among its own
group and fairer treatment by the di-
rect-writing companies which it is
now efficiently serving.

10. Finally and very important as
an inflation hedge, the stocks of most
professional re-insurance companies
are selling for considerably less than
their liquidating value.

Without doubt the fire losses for
1944 will be the largest, excepting
1932, in the history of the United
States, namely about \$400,000,000. This
compares with an average of \$317,-
615,500 for the past twelve years. But
patriotic people will soon wake up
and realize that insurance does not
replace losses; it merely distributes
them over a large number of people.
When a building burns in America, it
hurts America as much as if it were
burned by our enemies. People are
now about ready to recognize this and
be careful, first, by preventing
fires, and secondly by immediately
going to the nearest fire alarm box
and calling the fire department.

There never was a fire which could
not have been put out with a pair of
sand or water when it first started.
\* This list includes the National
Association of Insurance Commission-
ers, National Association of Insurance
Agents, National Association of Insur-
ance Brokers, Associated Factory
Mutuals, National Association of Fire
Chiefs, National Bureau for Indus-
trial Protection, Chamber of Com-
merce of the United States, National
Industrial Information Committee,
National Industrial Conference Board,
American Institute for Property and
Liability Underwriters, Anti-Inflation
Campaign and the Committee for
Economic Development.

TOTAL CONSCRIPTION!
YOUR QUESTIONS ANSWERED

Part II: People and Total Conscription

15. What Will Everyone
Be Paid?

Total Conscription provides that
all citizens shall serve on the same
basis or scale of pay as the Armed
Forces. All citizens will be placed
on the same standard of food,
clothing, and medical care as the
Armed Forces.

As the same scale of pay which
applies to the Armed Forces will
apply to civilians alike, no ex-
ecutive or manager will receive
more than a general, and no one
will receive less than a private.

The standards of food, clothing,
and medical care will be identical
throughout Canada and United
States regardless of rank or social
position.

All non-employable dependents
such as wives with children, inva-
lids, the aged, and the children will
receive the same allowance. The
allowances will be identical in
United States and Canada regard-
less of rank or social position.

In all cases, the pay, food, cloth-
ing and medical care, and the al-
lowances will be the same for
civilian operatives as for the Armed
Forces. The subsistence require-
ments of the nation would be
measured and determined in ad-
vance so that malnutrition will be
eliminated and adequate medical
care provided for all.

There will be those, now deriving
excessive profits and excessive wa-
ges from the war program who
will resent being placed on a parity
basis with those in the Armed
Forces, but Technocracy takes the
position that if it is good enough
for the Armed Forces it is good
enough for the rest of us!

It will not only be good enough

but for the average will be more
than they now can have! In accord-
with the U. S. 1940 census the aver-
age income of 37,435,740 persons re-
ceiving wages or salaries of \$5000
or under) was \$800. Only one per-
cent of the grand total of people
receiving wages or salaries made
more than \$5000 per year. Con-
trasted with the low average in-
come of all earners in the nation
are the top salaries paid to execu-
tives and others listed by the
United States Treasury for the fis-
cal year ending in 1941:

- Louis B. Mayer, Loew's Inc.,
\$704,425.60 salary and bonus.
Thomas J. Watson, Internation-
al Business Machines Corp.,
\$100,000 salary and the other
compensations of \$446,294.26.
Eugene E. Grace, Bethlehem
Steel Co., \$180,000 salary and
\$298,144 bonus.
George W. Hill, American To-
bacco Co., \$120,000 salary and
\$326,415.30 bonus.
Francis A. Courtway, Lever
Bros. Co., \$30,000 salary and
\$408,778.70 bonus.
Bing Crosby, \$452,314.81 from
two motion picture firms.
William S. Paley, National
Broadcasting System, \$204,319.
R. T. Vanderbilt, R. T. Vander-
bilt Co., \$220,000.
A. A. Somerville, R. T. Vander-
bilt Co., \$270,205.
C. W. Deyo, F. W. Woolworth
Co., \$201,778.
W. S. Gifford, American Tel.
and Tel. \$210,150.
James Cagney, actor, \$362,500.

These few are selected at ran-
dom from hundreds in these high
brackets. These, like other peo-
ple, would be sworn in to executive
or other duty in accordance with
their present functioning and ca-
pacity and would be paid in ac-
cordance with their rank. Total
Conscription would place the
right man in the
right job.
