OREGON MOTOR STAGES 506 SW Mill BE. 3021 PORTLAND

You know now what we've heard from him.

We've heard that Eisenhower and his Americans have hurled themselves like a thunderbolt against the bristling defenses of Hitler's Wehrmacht!

We've heard that they are smashing at our foe - sparing neither steel nor sweat nor blood in one final, furious assault that marks the supreme military effort of this War!

And what news do Eisenhower and his men expect from us?

Men and women of America - what the Invasion is to our fighting men, the 5th War Loan is to us at home!

For us, as well as for them, this is the crisis - the time for tremendous, overwhelming effort! Make no mistake! The 5th War Loan will undoubtedly be the biggest, most vitally im-

portant financial effort of this whole War!

If the 5th War Loan is to succeed, each one of us must do more than ever before - must buy double . . . yes, *triple* . . . the Bonds we bought last time.

Our men expect to hear that we are buying double - that we are matching their sacrifice as best we can - that the American nation, soldiers and civilians together, is making one gigantic effort to win this War!

That's the news our men expect to hear from us.

Will you personally see that they get it?

And here are 5 More reasons for buying Extra Bonds in the 5th!

1. War Bonds are the best, the safest investment in the world!
2. War Bonds return you \$4 for every \$3 in 10 years.
3. War Bonds help keep prices down.
4. War Bonds will help win the Peace by increasing purchasing power after the War.
5. War Bonds mean education for your children, security for you, funds for retirement.

Better Fighting Planes Coming

Senate Committee Discloses Facts About New Two-Engined Craft.

WASHINGTON - Two new navy fighting planes of unparalleled design and a new army light bomber were disclosed by the senate committee investigating war production. The new planes listed were:

The F-7-F, described as a two-engined fighter being built by Grumman Aircraft and Engineering corporation and "scheduled for early production." This is the first mention of a two-engined carrier-based fighter. Presumably it would be a single-seat plane with folding wings. The BT-D, described as "a radically improved model" of SBD Dauntless dive bomber, obviously intended for a wider range of uses than the plane it will replace. The letters BT-D mean "bomber torpedo, built by Douglas." The SBD is a "scout bomber" of Douglas manufacture. There is at present no combined dive bomber and torpedo plane designed as such in service on carriers.

The third new plane, the report said, is "a new Douglas light bomber, which is considered to be greatly superior to the A-20 . . . and in the future will be the principal light bomber produced." The Douglas A-20 Havoc is a highly-rated two-engined plane used for numerous purposes, including that of a night fighter.

Others Being Improved.
The report disclosed that "the North American P-51 Mustang and the Republic P-47 Thunderbolt, already rated as tops among single engine fighters, are being improved, and that a "greatly improved" version of the Bell Airacobra is coming into production.

Production of the Lockheed P-38 Lightning, described as "the finest plane of its type in the world," is being increased by a contract with Consolidated Vultee. Thus far the versatile twin boom, long range fighter has been built only by its designer, Lockheed.

The contract with the Kaiser-Hughes Aircraft corporation for three 400,000-pound, eight-engined wooden flying boats has been canceled, the Truman committee said, adding that the way was left open for negotiation on a metal version of the plane.

'Too Heavy, Unreliable.'
The contract was made between the company and the Defense Plant corporation, a government agency,

upon the recommendation of the War Production board. Cancellation of the contract was at the request of Chairman Donald Nelson of the WPB, following an investigation by an engineering board.

The WPB concluded, the Truman report said, that the Kaiser-Hughes plane would be "considerably less efficient" than proved cargo planes and that its wooden construction was "excessively heavy and unreliable," but that the design was "fundamentally sound" and might be of value to the war effort if carried out in metal.

The wooden plane, known as the HK-1, was conceived with a 320-foot wingspread, a length of 218 feet. It was planned to carry 60 tons of cargo at 174 miles an hour.

Plane Motors Protected

By Sowing Grass in Italy
WASHINGTON - The army air forces has entered the field of soil conservation in Italy to protect airfield motors from volcanic dust, the war department announced.

The AAF air service command, the department said, will seed "extensive areas" in Italy during the current rainy season to provide a protective cover of grass, thus keeping the volcanic dust out of the air. The first of 50 tons of seed was delivered to Italy by transport after consultation with agricultural experts in this country. Subsequent shipments of seed and four grain sowers have been sent by cargo vessels.

New War Stoves Show No Smoke Nor Flames

JERSEY CITY, N. J.-The modern soldier has sacrificed the companionship of a campfire for the safety of the new war stove which operates without inviting enemy fire or bombs.

The quartermaster corps revealed that several types of gasoline stoves which give off neither smoke nor visible flame are now in use in all areas of combat.

A one-burner is designed to be carried on ski pack over snowfields, the quartermaster corps said, while another is small enough to be balanced on the head of a native carrier inching his way through jungle.

In Italy, a soldier fired his bazooka at 6 German tanks, missed-but completely destroyed a tree. That was enough for the Nazi tanks-they surrendered before another shot was fired.

Cherries can be easily pitted by inserting one tine of a salad fork into the stem end of a cherry. The pit comes out easily without tearing the fruit.

Your Real Self

God holds the photo of your real self and even now it shows you to be dead.

Yes-In His eyes, you are already dead, for you sinned and the wages of sin is death.

KNOW YOUR BIBLE-It says you are dead in trespasses and sins-wherein you live your daily life-stepping along with a world of men also dead in God's sight. You live under the urge of your human appetites and under the cravings of your mind. You are without Christ, having no hope and without God in the world. **KNOW YOUR BIBLE**-Ephesians 2:1-3 and vs. 12.

EVEN ONE SIN-And so, even if you have only one sin standing against you, then you are dead in God's sight.

WHAT TO DO?-You must be born again-born of God-born from above For - "Except a man be born again, he cannot see the kingdom of God." -BIBLE.

YOU MUST SAY-On the instant you settle it in your heart that you are cleared by Christ's death for your sins-that instant God makes you His own. He breathes Himself into your heart-His Spirit gives life to your spirit. Receive Christ as your Savior and take your stand that sin is written off your page and life eternal written in.

HOW TO LIVE THE NEW LIFE- "Christ died for our sins"-Your sins were laid on Him and He cleared you by His death. He suffered your penalty for you. Now count Him the Lord of your life. Let Christ be your All in All-Lean all your weight on Him-Look away from self-Trust Him utterly-Live to the glory of God by Power from On High.

TOTAL CONSCRIPTION!
YOUR QUESTIONS ANSWERED

Part II: People and Total Conscription

16. Will People be Able to Buy What They Need?

In addition to his or her allotment of food clothing, and medical care every citizen will have currency to spend. This currency will not be spendable in the buying of raw commodities and manufactured goods in the channels of business, but will be used for certain extra consumer goods-just as the soldier spends his currency purchasing power.

The pay will be sufficient to provide for all of such requirements in view of the fact that there will be a moratorium on rent, taxes, mortgages, installments, and dues. For their extra consumer-goods-purchasing the people will use the same money we use today in coinage and bills of one dollar denomination. Checks, bank drafts, etc., will not be used.

The pay will be sufficient to provide for all of such requirements in view of the fact that there will be a moratorium on rent, taxes, mortgages, installments, and dues. For their extra consumer-goods-purchasing the people will use the same money we use today in coinage and bills of one dollar denomination. Checks, bank drafts, etc., will not be used.

17. Is the Average Person Opposed to Total Conscription?

Over the three years that Technocracy has been advocating Total Conscription the record shows that the average person is in favor of any Constitutional and orderly arrangement of our national operations if such an arrangement will win the war and if everybody else is in it, too! In 1940 and 1941, and during 1942 when Total Con-
