**Roosters Awakened  
By Attack on Saipan**

Saipan, Marianna's Islands (Delayed)—Even Saipan's roosters had a tough time of it night before last—the first night Marines spent on this island. Our warships offshore dropped brilliant illumination flares over the Jap lines at intervals of 10 or 15 minutes. Every time, without fail, the roosters started crowing.

**Ten Landings in One Day**

By Staff Sgt. Joseph L. Alli  
Linga Linga Plantation, New Britain (Delayed)—A Marine patrol, operating from Army-manned landing craft, set what is believed to be a record in island-hopping by making ten landings in one day during a mopping-up operation in the Talasea Bay area.

Each of the landings followed a set pattern. The Marines landed on one end of each islet. While they combed through the coconut groves and brush, the boats circled around, picked them up at the opposite end, and proceeded to the next one.

Total score for the day read: "No Japs sighted, none killed."

**I'm Going Home**

I'm going back to the home town folks.

I lived with long ago.  
There's a hungry feeling in my heart.  
For the friends I used to know.  
For the simple things we used to share.

In a wholesome genial way.  
They catch my breath at a thousand turns;

And I'm going back some day.  
I'm going back to the home town church

And kneel with them all to pray  
And try to think for a little while  
I haven't been away.

—Grace Hall

Nutmeg was first used in Europe in the 12th century not as food, but to fumigate the streets.

Tell it with a classified.

**THE OLD JUDGE SAYS...**

"I don't blame the fellows overseas for gettin' all het up over it, Judge. For the likes of me I can't see what's all the hurry about holdin' these local prohibition elections while they're away."  
"I agree with you, Steve. Time after time... in their letters, in articles, in polls taken to get the views of our fighting men... they have indicated in unmistakable terms that they don't want any action taken on

prohibition, either local or national, until they get back."  
"Too bad there isn't a law or somethin' to be sure their wishes are carried out, Judge."  
"There is in one state I know of, Steve. Just recently it passed a law prohibiting the calling of any prohibition election until a year after the peace is declared."  
"That really makes sense to me, Judge."

**Are your range ideas  
ahead of the times**

*So are ours!*

**COOKING ADAPTABILITY?** That's where the "CP" Gas Range shines! From low-temperature roasting to high-speed broiling... from a slow simmer to a fast boil... greater cooking adaptability is built in!

**BEST FOR BROILING?** None better! You get high speed instantly. The clean, smokeless, spatterless flame seals in the natural juices, reduces oven cleaning to a bare minimum.

**AUTOMATIC OVEN HEAT CONTROL?** Yes, of course! at low heat or high, only a "CP" Gas Range can assure you the utmost in constant, fully automatic temperature control... perfection in all your bak-

ing and roasting operations; it's fuel-saving, too, because oven pecking is eliminated.

**SUPER INSULATION?** Not just two sides, or four sides, but all six sides of a "CP" oven are heavily insulated to keep the heat in the oven where it belongs and out of the kitchen. No waste of heat or fuel here!

**ECONOMY IN OPERATION?** You can't be extravagant with a "CP" Gas Range. Top burners and oven are controllable to the most minute degree. No wasteful reserve of heat. You use exactly what you need, no more.

*CP means "Certified Performance"... the mark of special quality appearing on ranges made by all high grade gas range manufacturers. Not in production now, but available to all after victory.*
