Babson Says

Continued from Page 1

ing work" and indirectly raising wa-
 ges got busy did we hear anything
 about 40 hours a week. Hence, I
 beg wage earners to save money now.
 Build up savings bank accounts.
 Hourly wage rates may hold up; but
 most of you will get much less in
 your pay envelopes.

Technological progress has made
 it possible to turn out more produc-
 tion during a shorter work-week.
 New and more efficient machinery
 can produce more in a given period;
 but actually, even during our critical
 war days, these machines have not
 been permitted to work on a capacity
 load. With overtime out workers
 themselves may insist on a 44 or 48-
 hour week and they may get it. But
 if they do they will be expected to
 work and to keep the machinery
 working. Slowdowns will not be tol-
 erated after the War.

More or Less Leisure?
 Competition in all lines will be the
 outstanding factor as we emerge
 from the transition period of War to
 peacetime operation. This competi-
 tion will not be merely a domestic
 issue but will be world-wide. There
 will be no place in our peacetime
 economy for the idle, lazy or ineffi-
 cient; everyone must work.

Very large domestic and foreign
 markets will exist for U. S. goods. In
 view of this I believe, given a
 chance, that the question of employ-
 ment may largely solve itself. Work-
 ers themselves, with or without
 benefit of their unions, must choose
 whether they want more leisure or a
 larger share of consumer goods which
 a longer work-week—without over-
 time—can provide.

Price Versus Wage Rates
 The average consumer has learned
 to get along during the War on less
 than he had before the War on less
 if the prices of goods rise too high
 and get out of line with salaries and
 dividends we are apt to see "buyers"
 strikes rather than wage-workers
 strikes. White-collar-workers have
 taken it on the chin in recent years.
 As a group, they have nothing to look

forward to in the way of salary in-
 crease. Hence, prices of goods must
 be kept within reach of their pocket-
 books.

A return to a free movement of
 wages and prices with a recognition
 of supply and demand, rather than to
 a continuance of political and man-
 made laws, is in order. Unfortun-
 ately, most of us learn only by ex-
 perience when evaluating hours of
 work, wages and production sched-

ules. These matters are, however,
 definitely a part of our reconversion
 program. The War will be brought
 to a successful conclusion by our
 military leaders. I hope our post-
 war plans will be as successfully han-
 dled by our political leaders.

Over one-fifth of U. S. Patents is-
 sued since the beginning of our pat-
 ent system have related to the auto-
 mobile.
