Bible Society Supplies

'Book' to Armed Forces

NEW YORK.—The American Bible society has distributed 4,250,000 volumes of the Scriptures to members of the armed forces and the merchant marine in the last four years, it was announced. Fifty thousand of these "the society hopes will never be read." They are the New Testaments sealed in waterproof containers that are placed on emergency lifeboats and rafts.

Besides sending the books to active members of the armed services, the society has distributed half a million to prisoners of war, refugees and civilians in Europe. "This work required Scriptures in 41 different languages, a miniature tower of Babel, containing such unusual items as Scriptures in Afrikaans, Bambara and Galla," the report said.

Sergeant Learns Where

Not to Carry a Grenade

VAN NUYS, CALIF. — Sgt. Harwell Cooper has some advice for fighting men: "One of the best places not to carry a grenade is in the hip pocket."

The 23-year-old North Hollywood infantryman parachuted into a Normandy field on D-day. A Nazi machine gunner landed a shot on the grenade in his hip pocket.

The explosion left him in tatters, but he was able to make his way to a medical unit. He's in Birmingham General hospital.

Did you know that over 30 Million American families own and use approximately 50 million radio sets every day?

Ammunition Hermetically Sealed in Cans New Way

EVANSVILLE, IND.—Ammunition is hermetically sealed and protected against weather and damage under a new process developed at the Chrysler corporation's Evansville ordnance plant.

The new, lightweight "tin can" designed by the army resembles a one-gallon oil can, into which are placed 12 boxes containing 50 rounds of 45-caliber cartridges.

The "canned bullets" are opened by a key similar to the type used on sardine or meat cans.

Ancient Toltec Chinaware Found Near Mexico City

MEXICO CITY. — Several pieces of ancient Toltec chinaware possibly 8,000 years old, have been found on the property of Diego Rivera, the painter, a few miles south of this city.

Workers found the pieces in the second, or lower, stratum of lava from the extinct volcano Shicli. The most curious specimen was a figure of a woman or a goddess, in the lower stratum and evidently partly burned by the lava.

Easier to find an egg with four corners than a fool without vanity.
