God Calls Time

With the birth of Christ, God rang down the curtain to set the stage for a new scene.

He had promised his Chosen People—the Hebrews—that they should have all earthly blessings if they would search out his will to know it and to do it. But for 1500 years, the Chosen People went their own way and now the curtain drops to rise on a new scene. God is to create a New Race of men on the earth. Men who will do his will and live by Power From On High.

CALLING ALL MEN—CALLING ALL MEN! Hear the call—Be free from Penalty—Practice and Presence of sin. ONE—Free from the Penalty. Christ took our sins and died under the penalty to clear us. Believe in His death to clear you. TWO—Be free from the old sins that drag you down. Christ indwells His people and gives them the urge to live to the glory of God. Confess your sins—Keep in step—Be an overcomer—Grow in the likeness of Christ. THREE—Delivered from the Presence of Sin—The lost dead go out into the pains of hell, to be with the liars, murderers, the unclean forever. The saved go to the heavenland in bodies of glory. Calling all men—Calling all men. How shall we escape if we neglect so great salvation.

Next time you hear a Southern Pacific train whistle in the night, think of it as something more than a lonely, haunting sound. It is a reassuring sound—a promise that even while you sleep, the war trains are rolling. It's the confident voice of an industry that's doing the biggest job in its history, and will be in there pitching long after the war is over.

Wouldn't you like to know the language of the train whistles? Below we show you:

What S. P. train whistles mean

We haven't room to explain all the whistles, but here are the commonest ones. The "o" stands for a short sound, the dash means a longer sound.

- ■ ■ ■ Warning whistle when train is approaching a highway crossing.
- ○ ○ When train is running, this means it will stop at next station, which is not a regular stop. If train is standing still, this signal warns that it is about to back up.
- One long whistle is sounded a mile before train reaches stations, railroad crossings, drawbridges, etc.
- ○ ○ ○ Signal for brakeman to protect rear of train. He must go down the track with necessary flagman's signals.
- ○ ○ ■ Signal for brakeman to protect front of train.
- ■ ■ ■ This signal orders brakeman to return from the west.
- ■ ■ ■ ■ This signal recalls brakeman from the east.
- ○ ○ This tells other trains that a second section is following.
- ○ This is the engineer's answer to most signals from other trains.
- ○ ○ ○ ○ A succession of short sounds is a warning to persons or livestock on the track.

The friendly Southern Pacific
