Keep It Flying

THE SAME STAR

The Wise Men saw it over the hills of old Judea . . . it glows in the sky tonight . . . although obscured by clouds which all hope will soon roll away. It stands as do the light-houses on the rocky coasts, a beacon of light to the weary sailor. A symbol of Hope in a world in which there is ever so much room for improvement. In lieu of a personal message, we send our dear readers and advertisers, our Greetings on this Christmas Day—May it be a happy one and bring you good cheer—for Christmas comes but once each year.

Ladies! Maybe You Will Have Silk Hose Soon!

WASHINGTON, D. C. — A glimmer of hope for small scale production of silk stockings (remember?) appeared recently when the WPB announced the way had been cleared for importation of raw silk from China for private use.

It said the combined raw materials board had agreed to recommendations that United States importers be allowed to purchase the silk. Heretofore the entire supply has gone to the government for military needs.

About 60,000 bales of silk a year were available from China before the war, as compared with approximately 273,000 bales from Japan.

Paris Editor Given 20 Years in Prison

PARIS. — Stephanie Lauzanne, 70-year-old editor of the newspaper Le Matin, was convicted of collusion with the enemy and sentenced to 20 years in prison.

The French journalist's detention was aided by his 65-year-old American wife, the former Camille Gros of San Francisco, it was reported.

While in Beaverton be sure to eat at the Greyhound Coffee Shop.

Gave Their Four Sons, Fifth Is to Come Home

WASHINGTON. — Lieut. Gen. A Vandegrift, marine corps commandant, headed the plea of Mr. and Mrs. Alben Brogstrom of Tremonton, Utah, who have lost four sons in this war, that he permit their fifth son in service to return and help run their farm.

A navy spokesman said that Vandegrift, by special order, honorably discharged Marine Pfc. Boyd D. Borgstrom, now at Camp Lejeune, N. C.

Three of the Borstrom sons were killed in action and a fourth is missing in action in France. Another son, 15, is at home.

Million Maps Attest to German Invasion Plans

BRUSSELS, BELGIUM. — Evidence that Germany was still preparing to invade Britain as late as last year is contained in the discovery in a Brussels garage of a million maps of England, Wales and Ireland.

The maps were originally printed in 1940 and 1941, but many had been brought up to date and bore the printer's mark 1943.

Intricate German markings disclose keys to railway crossings, electric plants, industrial centers, and military objectives of all kinds. Many maps of English cities had been "improved" and corrected by German reconnaissance.

Plane Flies Atlantic in 10 Hours and 13 Minutes

MONTREAL, QUE. — A trans-Atlantic record of 10 hours and 13 minutes—one hour and one minute less than the previous one set last January — was chalked up by a Trans-Canada Air Lines Lancaster flying nonstop from here to Britain, it was announced recently. There were no passengers aboard but the aircraft was carrying 6,031 pounds of mail and 2,036 pounds of priority freight.

Thirty Years' War—The besieged people of Augsburg were starving. On a hunch, a bakery threw the last loaf of bread over the wall to the hungry enemy, saying the city had plenty of food. The ruse worked and the enemy lifted the siege.

"The planners plan much better for themselves than they do for the people. The payroll proves it."—Indianapolis News.

Is there a gas range in your hope chest?

The hope chest is definitely a high fashion item these days . . . not only for the war bride who is filling her first one, but for every woman who is dreaming of a peacetime home . . . dreaming of the things she's going to have when war production is finished.

The range you want in your hope chest is a new "CP" . . . Certified Performance Gas Range, because it will offer every cooking advantage . . . the perfect oven, the perfect broiler, the perfect top unit performance.

In the new "CP" Gas Range you'll get performance to lighten your work in the kitchen, beauty of design

to lighten your heart, and economical operation. And remember . . . the magic blue gas flame is controllable. It clicks on to any degree you want, gives instantaneous heat, clicks off with no wasteful reserve of heat. It's the modern fuel for peacetime kitchens.

This Certified Performance seal on any modern gas range is the mark of compliance with the highest standards of manufacture. Available after war production is finished . . . the gas industry's contribution to postwar prosperity and millions of man-hours of productive employment.
