POWER — both MAN and ELECTRIC IS NEEDED... IN RECONVERTING OREGON'S BIG 4 The 4 big businesses that are building a Greater Oregon are:

1. AGRICULTURE 2. MANUFACTURING 3. MERCHANDISING 4. THE OREGON HOME

On Oregon's 64,300 undermanned farms a greater production of food, fibers, furs, hides and seeds will be possible now that we've swung into reconversion. . . With labor employable, our factories will make more wood, metal and textile products for a wider market. . . In retail stores, the consumer's individual needs will be served by a greater variety of finer goods. . . And to more homes will complete electrification become a reality.

In fact, the availability of manpower and the abundance of electric power together will provide better lighting, heating, cooking and refrigeration. Frozen food storage as well as abundant hot water and air conditioning will be in even greater use by Oregon's 1,150,000 inhabitants. And, as in the past, PGE will provide power and electrical know-how so necessary for full employment and a more abundant life.

Portland General Electric Company \* Pioneer in supplying electric light and power to homes, agriculture, manufacturing and mercantile enterprises
