Up From Shame

The great hour of the fall festival had come. It is October, Jerusalem, and the year 32 A. D. You see Jesus rise up to tell the listening throng—If any man thirst, let him come to Me and drink. He that believeth in Me, from within him shall flow rivers of living water. That is, you are bid to believe on Him, drink Him in and so be blessed and be a blessing.

Now come down to our day and see Chas. Crittenden, rich man, mourning at the grave of his wife and only child, Florence. But Crittenden was blessed by faith in Christ and the blessing was to flow on to others. It took shape in a memorial to the daughter—The Florence Crittenden Homes. They were for girls who would escape the life of shame in the red light sections. Only eternity can tell how many girls have been rescued city by city across the nation. Yes, Charlie Crittenden drank of that life-giving stream and there flowed out the blessing.
But God cannot bless us while

LUTHER P. CUDWORTH
Incoming President of The First Church of Christ, Scientist, in Boston, Massachusetts

EXIT THE "EXTRAS"!

(A Voluntary Pledge)
I DON'T need that afternoon milkshake.
I DON'T need that after-show hamburger.
I DON'T need that midnight lunch.
I DON'T need between-meal snacks.
I DON'T need these "extras", while others starve.
DO YOU?

We have sin charged against us. So it is that he sent his Son, our Lord, Jesus Christ, to die for us and clear our page. —Jesus paid it all. All to Him I owe. Sin had left a crimson stain. He washed it white as snow.
While you count your sins blot-
ted out by the blood of Christ, are you the selfish Christian or are you the channel of blessing.

San Taylor
S. W. McChesney Rd., Portland, Oregon.
This space paid for by a Seattle family.

Mother Church, Boston, Appoints New President

Announcement of the appointment of Luther Phillips Cudworth, C.S.B., of Boston, as President of The Mother Church, the First Church of Christ, Scientist, Boston, Massachusetts, was made today by The Christian Science Board of Directors.

Mr. Cudworth at various times has served as Purchasing Agent of The Christian Science Publishing Society, a Director of Christian Science Welfare Activities in Portsmouth (New Hampshire) Naval Prison, Committee on Publication for the State of Oregon, and as First Reader of First Church of Christ, Scientist, Marshfield, Massachusetts.

He is a native of Iowa, receiving his early education in the public schools of St. Paul, Minnesota, and later attending Harvard University and its College of Business Administration. Before devoting his entire time to Christian Science activities, he was associated with the printing and publishing business in St. Paul and with the Portland, Oregon, Railway, Light and Power Co. He received instruction in the Normal class of the Board of Education in 1934, and since that time has taught classes in Christian Science annually.

Portland — Approximately 75,000 feet of new wire rope from three-eighths to one and three quarters inches in diameter was announced for sale at fixed prices by War Assets administration 310 S. W. Sixth Avenue, today. A new list of valves and fittings was also put up for disposal.

Power for Plastics Costs Less in PGE Area!

—where Rates Are Lowest of the
"Big 4" Coast Business Centers

The Northwest Plastics Company, 6042 S.E. Division, Portland, has developed a thriving business moulding "plexiglass" into household articles in their completely electrified shop. This picture shows plastic strips being removed from the oven for moulding.

THE fast-developing plastic industry with its amazing product uses is an influence which will shape our way of life in the future. It is the type of basic enterprise every community seeks as a means of creating more jobs, more business and more wealth for its citizens.

The Northwest Plastics Company found not only plenty of power for their requirements in the PGE area, but found lower-cost power here than in any of the other "Big Four" Pacific Coast shipping, trading and industrial centers.

Every community, large or small, served by PGE has an important edge in attracting new industry to its doors if the industry

needs low-cost power—and most do. It means having a competitive advantage in the ability to produce more and better goods. PGE rates for general industrial and commercial service are generally lower than in any of the other big Pacific Coast centers shown on the map at left. Check the table below for a comparison of costs in typical demand and consumption brackets.

PGE takes pride in helping the development of this area by supplying it not only with cheap electricity for the home and farm, but cheap electricity for business and industry as well. PGE believes that whatever helps business, helps every citizen.

Comparative Electric Bills for Commercial Service in Major Pacific Coast Port Cities
