West Slope Men Form Heifer Club

The men of the West Slope Community Church have set up a Heifer Club with M. George Stroup, 3213 S. W. Copel St., named chairman to see the project through.

A Heifer Club buys an animal and delivers same to a needy family in one of the allied countries in Europe. This family agrees in turn to pass on to needy neighbors the surplus of milk and to raise the calf until same is put into the hands of dependable and needy folk. The cost is around \$150.00, delivered in Europe. Of these Clubs there are now around 2,000 in the States and Berea College, Berea, Ky., reports over 600 heifers sent across in the hands of their men students who have been hired as cow boys. The families receiving the animals are chosen by the UNRRA—The United Nations Relief and Rehabilitation Administration.

Anyone desiring to donate funds toward this worthwhile cause will be welcomed by Mr. Stroup.

Portland Hobby Symphony Orchestra Men From All Walks Of Life Banded Together By Common Interest In Music

Ten years ago Bert J. Harris and William Lloyd Owen decided that Portland should have a symphony orchestra. Four days after their "idea blossomed" there were seven musicians assembled for rehearsal. Bert Harris was chosen as conductor and Owen as business manager, both of them still having the same position. Today the orchestra boasts of fifty members.

They call it the "Portland Hobby Symphony Orchestra." It is composed of doctors, bankers, butchers, laborers. There are no dues, just men who love music and are making something of it. Its active membership is always open to those men who possess a musical instrument and a hungry soul.

While in Dayton he experienced a rain storm totalling eight inches in one night and thirteen inches in ten days. This delays plowing and will account for a delayed corn crop there.

Miss Merle Davies spent last week end in Corvallis visiting her sister, Mrs. Daisy Hocken.

THE BOSS MAKES AN ANNOUNCEMENT

Here's the Proposition!

I'm speaking for all the babies in town. Ordinary milk cans are NOT good enough for us. Can't take chances on dust and germs getting in. We demand the very best protection for our milk.

THE GENTLEMAN IS RIGHT

... and we're meeting his demands with Dacro Protected Milk... the safest package of milk you can buy.

The bottle is not merely covered. It's SEALED with a sturdy metal cap... air-tight, dust-proof, tamper-proof. There's complete, scientific protection for our milk after it leaves the dairy. Let one of our routemen show you what this protection means to you and your family.

Because the Dacro Cap is a genuine seal, it must be removed the first time with an opener. After that it may be snapped back on the bottle as a re-seal and removed again and again, even without an opener.
