Cheshires Busy Entertaining

Mr. and Mrs. Clifford P. Cheshire, of West Slope, have been very busy since the first part of July entertaining friends of theirs.

Mr. and Mrs. Thomas Thompson and daughter, Judy, from Los Angeles, arrived first; with Mr. and Mrs. Norman A. Fox, Great Falls, Montana coming soon after.

Mr. and Mrs. Wayne Overholser and son, John and Steven, Bend, Oregon, were with the group part of the time.

The men, Messrs. Cheshire, Fox, Thompson, and Overholser, all have something very interesting in common—they all write short stories. Mr. Thompson also writes movie scenarios.

Mr. and Mrs. Cheshire entertained their visitors with trips to Newport, Bonneville Dam, Jantzen Beach and to "Voice of the Turtle." They forgot Timberline Lodge so they have a good reason for another get together in Oregon.

Motor Vehicle Registration Sets New High In June

Oregon's motor vehicle registration set a new record at the end of June this year when Secretary of State Robert S. Farrell, Jr., reported 411,999 vehicles registered in the state.

The registration this year is 8 per cent above the total registered in the state at this time last year. It is about two per cent higher than the 1941 total of 434,089 vehicles.

Farrell said the record number of cars, together with the record gasoline consumption during recent months, contributed to the heavy traffic volume that has increased accident hazards in this state. Traffic volumes now are around 80 per cent above the volumes registered a year ago, he said.

While the population of the United States has increased only 30 per cent in the past 25 years, the number of persons owning life insurance has increased 90 per cent and the total life insurance owned has increased nearly 300 per cent.

THE BOSS MAKES AN ANNOUNCEMENT

Here's the Proposition!
I'm speaking for all the babies in town. Ordinary milk caps are NOT good enough for us. Can't take chances on dust and germs getting in. We demand the very best protection for our milk.

THE GENTLEMAN IS RIGHT

... and we're meeting his demands with Dacros Protected Milk... the safest package of milk you can buy.
The bottle is not merely covered. It's SEALED with a sturdy metal cap... air-tight, dust-proof, tamper-proof. There's complete, scientific protection for our milk after it leaves the dairy. Let one of our routemen show you what this protection means to you and your family.
Because the Dacros Cap is a genuine seal, it must be removed the first time with an opener. After that it may be snapped back on the bottle as a re-seal and removed again and again, even without an opener.
