OPA To Resume Violators Prosecution

All price control boards in the Oregon OPA district have been asked to resume at once the holding of compliance conferences which were suspended during the past two weeks pending more specific instructions, Louis J.

Bronaugh, district price board executive, announced Friday. Bronaugh said the boards would proceed immediately to reduce the backlog of "docketed and pending" cases involving alleged violations before June 30.

He pointed out that although the emergency price control act of 1942 terminated on June 30, certain functions and duties continued beyond that date, particularly with respect to settlement of violations previously committed.

Nineteen or twenty cigarettes thrown in dry forest duff might cause a forest fire. Chaparral that cigarette—don't let it go out alone. Guard against fire. Don't throw burning material—cigars, cigarettes, matches; put them out. Our forests are more valuable now than ever before. KEEP OREGON GREEN.
