Homemakers Busy At
Canning Autumn Fruits

In spite of sugar shortages, failure of tomatoes to ripen rapidly, and getting children ready for schools homemakers have discovered that the canning they did during July and August was a mere nothing compared to what there is to do during September. It would be easy to predict that there will be very little fancy Christmas baking this year because almost everyone is digging into the regular sugar allotment in order to can the beautiful pears, peaches and prunes that are available.

Brush Fire Gets Out Of
Control Near West Slope

The Hiller Bros. Real Estate Co. had a fire get out of control on the land it is clearing on the north side of S. W. Canyon Road about one half mile west of West Slope Monday about 1 p.m.

It is understood that a small brush fire was left unattended for a short while and was whipped out of control by the wind that came up about noon. It was fortunate that the wind was from the south-east so no real damage was done, though the Beaverton Fire Department had to work for over an hour to extinguish the fire which covered about an acre of ground.
