New Material Used Education Value In Home Building

In this day of varied construction material one not used before in this vicinity has put in its appearance. It is called plycrete and is, as the name implies, a concrete used in plys.

in forms while they are lying Reader's Digest, in his talk before down and after the concrete dries the Washintgon County School the walls are set up in place. AIR MAIL NOW FIVE CENTS

As a record volume of five-cent air-mail took to the skies this week under a new postal rate, Stewardess Virginia Petty of Western Air Lines helped the Post Office Department add a bit of glamour to the occasion-and incidentally took advantage of the new nickel rate to catch up on some neglected correspondence with "the one and only!" What this country needs now is a good five-cent airline hostess, according to Post Office officials who watched Miss Petty perform for the cameras.
