## Make Successful Hunting Trip

Recently R. E. Denny, his brother Bruce and his sons Bob, Bill and Feilding, went on a hunting trip into northern Alberta, Canada. They succeeded in getting four moose and one grizzly.

Since the Canadian law requires one guide to each hunter they emassed a party of ten which required a pack train of 17 horses to carry their equipment.

Due to Canadian restrictions the Dennys were allowed to bring out only one moose. The rest they donated to the Red Cross.

In getting the moose that they were able to bring home the hunters detoured around several miles to put the wind in the right direction from where the animal stood on the heights some distance off. They crept up on him and used a 30-06 cartridge for the kill.

He weighed 1400 pounds. The horns are at the taxidermist's at the present time and will adorn the wall above the fireplace in the new house which the Denny's are building just beyond their present home.

### Mrs. Miller Hostess

Florence Miller was hostess at a recent Christmas party for the Oregon Association of Beauty Shop Owners and Operators. This was in lieu of their regular monthly meeting.

A Buffet dinner was served and games of various kinds were played.

The Mini-Max batteries used today in personal camera-sized radios are identical with the batteries which powered the Navy's famed Sonobuoy for detecting submarines during the war.

A woman pricing a hat gasped when told it was \$75. "Why, there isn't anything on that hat!" "You are paying for the restraint," the saleswoman replied quietly.

### TO EACH AND ALL

When We Count Our Blessings we find  
many we had not thought about. Among  
the outstanding blessings in our list is the  
good will of the people of this community.

WE THANK YOU most cordially for this good  
will and assure you of our deep appreciation.  
We wish for you a pleasant holiday, and a  
New Year that is the harbinger of many  
blessings to come.

### Business & Financial Outlook for 1947

(Continued from first page)

to disarmament.  
34. The safest stocks to buy—considering value, income and safety—will continue to be "chain-store" and "recreation" stocks.

35. 1946 saw a large decline in certain stocks compared with the averages. Switching will be the outstanding market feature during 1947. Especially watch for bargains in airline stocks.

36. The stock market will continue to witness creeping general inflation and no evidence yet exists as to whether the "communistic break" in 1946 was the beginning of a real bear market or only a reaction of a bull market.

### BONDS

37. Although bank loaning rates should continue a slowly upward tendency, interest rates in general will remain low through 1947. The money supply is now 25 per cent above normal and Government financing demands continued low rates.

38. Anticipating an expected reduction in Federal taxes, 1947 should see a further falling off in the prices of most municipal and other tax-exempt bonds.

39. Some high-grade corporation bonds may hold steady, but sooner or later will decline considerably. The Federal Government's 2 1-2's, which once sold above 106, will sell down to par or new 2 1-2's will be offered at par. Investors will give more attention to diversification and staggered maturities during 1947.

40. More public utilities will be taken over by Federal and other "Authorities" during 1947. Wise investors will consider this possibility when selecting public utility securities.

### REAL ESTATE

41. Suburban real estate will continue in greater demand with still higher prices during 1947.

42. City real estate may hold its own due to less available space caused by pulling down structures to save taxes and provide parking spaces,—also to disinclination to build due to the present high inflationary building costs. The fear of bombing—in case of a re-opening of World War II—may also be a factor.

43. Small subsistence farms will continue to increase in price; but large commercial farms may sell for less in 1947 than in 1946.

44. Building will show a considerable increase. Contracts will be up with advancing prices. The present scarcity of lumber, cement, bricks and labor should begin to ease up in 1947.

45. Office and residential rents during 1947 can be expected to increase.

46. 1947 will see the beginning of the real building boom which should have started in 1946.

### POLITICS AND POSTWAR PEACE

47. President Truman now has lost control of Congress and both parties will be playing politics in anticipation of 1948.

48. Our foreign headaches will become worse and more frequent during 1947. What we are going through to reorganize Germany will be repeated in other countries.

49. The Latin-American honeymoon has passed its peak. The attitude of Argentina will extend to other countries. Our South American troubles will continue to increase in 1947.

50. 1947 should see more religious interest, including more church-going, than did 1946. People gradually are realizing that without a Spiritual Awakening no peace or other plans will be much good. Nations cannot be depended upon to cooperate and stick to their agreements unless they recognize God as their real Ruler and Guide. Hence, what good are agreements with Russia?
