

V. W. Furniture Market Planned for August 12-14

Rapidly growing in prestige as a manufacturing center, the Pacific Northwest will again play host to furniture manufacturers and dealers from at least four Western states and Alaska when the Northwest Furniture Manufacturer's Association holds its Summer Market in Seattle, August 12, 13 and 14.

Of vital interest to furniture manufacturers, distributors and dealers, the Furniture Market will be the first to be held in the Northwest since 1941, when such activities were halted by the beginning of the war.

McCarthy's Return from Extended Trip

The Richard A. McCarthy's of Canyon Lane just returned from a month's visit with relatives in Ohio and Kentucky.

They attended the graduation of two nieces, Pat Smith and Pat Troutman from the Notre Dame Academy at Covington, Ken.

Miss Troutman was elected queen of the Senior Prom which was held in the Gibson Roof Garden at Covington.

At Bellevue, Kentucky they attended a McCarthy family reunion where the oldest McCarthy was 86 and the youngest 64.

Mrs. McCarthy and a sister of her husband's took their first plane ride at the new airport at Ft. Mitchell, Kentucky, which is considered the finest airport in the United States.

While they were visiting in Ohio, they were on hand to welcome a new niece, Judith Ann, who weighed four pounds and thirteen ounces.

The McCarthy's were treated to an old fashioned electric storm, the worst the Bellevue, Kentuckians had experienced in years. Although they had a wonderful time, they reported that they were glad to get back to God's country as their first week away was rainy and cool and then they had hot weather with high humidity.

Mr. and Mrs. John Eilers who are building a new home on Valley View Court occupied the McCarthy home while they were away.

Thermometer Required Under Locker Law Told

Refrigerated locker plant operators throughout Oregon have been advised of specifications for recording thermometers to be used under the new Oregon locker law, which goes into effect July 5. The law is a sanitary and protective measure and calls for uniformity in locker refrigeration. It provides for licensing of all plants, with the annual license fee from \$10 to \$25, depending upon number of lockers.

An essential feature is the requirement that each plant be equipped with accurate controls to maintain uniform temperature. The chill room must be within four degrees plus or minus of 36 degrees above zero, with a 10 degree tolerance 24 hours after fresh food is put in. A maximum locker room temperature of 12 degrees F. plus is allowed plants now in operation, but for locker plants built after July 5 this will be plus 5 degrees.

Periodical inspection of all plants will be made by the state department of agriculture, division of foods and dairies. Licenses of plants not complying with the law may be refused, revoked or suspended.

\$81.50 Raised by D.V.B.S.

For Heifers for Relief

On Friday night of last week, Rev. Leonard C. Johnson, superintendent of Beaverton's Union Daily Vacation Bible School, presented a cashier's check of \$81.50 to Mr. B. F. Pyle, Washington County Chairman of the Heifers for relief.

This amount was brought in entirely by the children of the D. V. B. S. in one week. This was the outside project of the school this year. A heifer, delivered in Europe costs \$175.00. The difference of the two amounts will be made up by the four churches cooperating in the school this year, so that Beaver-
